The first session of the Dominion Parliament opened on Thursday, at three o'clock. Sir Wm. Ritchie, Deputy Governor General, took the seat at the Throne, and when the members of Com-mons assembled at the bar of the Senate they were ordered to elect a Speaker, and were informed that His Excellency would disclose causes of summoning

them together to-merrow. On returning to the Commons Chamber, Sir John moved, seconded by Sir Hector Langevin, that Mr. Kirkpatrick be Speaker. The motion was carried, the new Speaker taking his seat and briefly acknowledging the honor done him.

Gentlemen of the House of Commons : It is my pleasing duty, on the opening of a new Parliament, to congratulate you on the auspicious circumstances under which you will begin your labors. Your attention is specially invited to a measure regulating factory labor and the protection of the working man and his family.

I have also pleasure in stating that the traffic on the I. C. R. is largely in excess of any former year, and that the balance in favor of the road shows a gratifying increase. Gentlemen of the House of Commons:

The accounts of last year will be laid be-fore you. You will be pleased to learn that not withstanding the penditure on the capital account amount if to more than seven millions of dollars, the surplus of the conmillions of collars, the surplus of the con-solidated revenue, together with the pro-ceeds of the sales of the lands in the North-west during the last year, were more than sufficient to cover that expenditure, and that the net debt at the close of the year and the amount of interest paid thereon were less than for years.

A Campbellton correspondent says it is reported that on the 11th inst. a box car and van were precipitated over the Metis (P. Q.) bridge to the ice below, a distance of forty-five feet. We hope the report is incorrect.

On looking around he saw one of the gentlemen fall. He did net see the other fall, but four men whom he drove to the park jumped on his car and he drove away. Brady sat on the right side of the car.
