### SIR OAVAN DUFFY.

#### The Very Remarkable Career of a Very Remarkable Man

Sir Charles Gavan Duffy, whose death was recorded the other was born in Monaghan. Ireland, Ap-ril 12, 1816, and at the age of 26 founded The Nation newspaper, pub-lished at Dublin. He looked upon the cother-pus as the tracst analyst of the per-plexities and distinies of life, and had small sympathy with the langu-ing portraits of the Muse of Comele, which had in them to him something of the neure of mere caricature, at best. The plays of Aristophanes, were in reality but satire in hur-lesque, and even the comedies of Mo-liere were to him but as weaker imi-tations

Why was I pitchfork-asl into a bad private school at tight? Why was I made a fifth-form Harrow boy when I was only a nerv-ous child of twelve? Why was I withdrawn therefrom just when I was ripening under Vaughan, to matricu-late at Balliol when I was not quite late at Balliol when I was not quite eighteen? Why was 1 not discouraged more consistently—as I was not to be encouraged—in all sorts of literary and theatrical bargains, when to be encouraged—in all sorts of lit-erary and theatrical bargains, when at 2.5, 1 was to be, by an expensive modernism, dumped down at a bar which from nay heart and soul I ionthed? WM. LE MESURIER. It Does Not Matter How Chronic Your Case of Dyspepsia May Have Become Ozone Will Certainly Cure You.

The action of Powley's Liquified Ozono in cases of Dyspepsia is peculiar. With some there is almost immediate relief and the patient commences to get well at once. With others the patient seems to get worse. This is merely an indication that Ozone is doing its work, but that the case is a severe one, and that there is greater difficulty in destroying the disease germs. Later the symptoms of dis-tress become less pronounced and at fewer intervals until they cease alto-The action of Powley's Liquified
