A. G. Penman, managing director of the Silver Mountain Mining Company, writes as follows: "Dan. Cameron, formerly manager of the University mine, has discovered a vein carrying native silver on the surface on the boundary of the Silver Mountain property, where it adjoins the Alexander property and close to the University. A shaft is now being sunk on the vein, and he has traced it for a considerable distance across the Silver Mountain property."

Mr. L. W. Spear, managing director of Spear's Canadian Mining Institute, has received word from Superintendent George R. Rogers, relating to the development of certain mining properties of the syndicate in Hastings county. On the mine No. 1 shaft has been sunk to the 40-foot level. On the foot wall there is a vein of calcite 18 inches wide, showing an increase in width with the depth. The whole vein is eight feet wide between the walls. The whole forma-

Secretary Marskey stated that already there was some demand for these bonds.

# Stocks and Bonds

New York, Nov. 13.—The market during the morning developed no important liquidation and support in such stocks as Union Pacific, Reading, Pennsylvania and New York Central. The bid of 1% per cent. for the next dividend on 50,000 shares of Smelters checked bearish activity in that issue. Weakness of copper metal-abroad was an unfavorable item. Traders find that they have difficulty in financing long purchases, thus reducing them to operate for the present on the short side. It is stated that there will be no reduction in the Union P. and Southern Pacific dividends at the coming meeting. Both are in better condition to maintain dividends than at any time in their history. Last year the two roads carned a surplus over dividends of \$250,009,000, and present carnings are at still better rate. Union Pacific has practically doubled its maintenance expenditures since 1904, and in event of a great recession in business \$4,000,000 to \$5,000. ession in business \$4,000,000 to \$5,000.

# TRUE TO THE LAST. SWEETHEART OF STUHLMILLER

DID NOT DESERT HIM. Visiting Him Daily in Jail, Win-ning Regard of the Officials—Af-fecting Parting With Mother.

Buffalo, Nov. 13.—Harley Stuhlmiller will be taken to-day to Auburn, where he will be placed in the State Prison by Criminal Deputy Harry Smith. Stuhl-

he will be placed in the State Prison by Criminal Deputy Harry Smith. Stablimiller pleaded guilty to murder in the second degree on Monday, thus averting a possible verdict of murder in the Brasch degree, the crime for which he was inducted because of his shootong and killing of George Dittman, a North Collins farmer.

Stuhimiller spent nearly all of yesterday, through the kindness of Jailer Hunt, in last exchanges of greetings and discussion of his affairs with his mother, his brothers and with many friends of his family and himself who called at the jail. The young man is said to have said little concerning hinself since he was entenoed by Justice Woodward on Monday afternoon to Auburn Prison for a term which may be not less than twenty years, which may be for his lifetime, in the discretion of the State probation officers.

At the parting between mother and son, the murderer seemingly had no realization of the heinousness of his deed or of the sorrow which it has brought to the aged woman. Stuhmiller impressed upon quivering lips a kiss that to onlookers seemed chilly and nerveless. The mother turned away on the arm of another son, a faithful brother to Harley, and, gasping the words, "Good-bye, be a good boy," tottered out of the jailer's office.

The brothers, manlike, said their last words quickly and ended the painful ordeal.

words quickly and ended the painful ordeal.

Another one—a young woman—waited shyly in a corner, and not until the weeping of the mother and the sobbing of the brothers could be heard no more did Florence Alf timidly step forward and extend her hand to her sweetheart. The two whispered together for a few minutes and finally the young woman turned away. and corporation of the city of London. Their Majesties drove several miles through streets brilliantly decorated with bunting, and lined by troops, from Paddington railroad station, where they arrived from Windsor, to the city's historic hall, when an assemblage of some eight hundred persons, including members of the Royal family, peers, commoners, and naval and military officers, mostly in uniform and with their breasts glimmering with orders, formed a brilliant picture.

An address of welcome was presented to the Emperor in a magnificent gold casket.

The Emperor and Empress after lunch ener returned to Paddington station on their way back to Windsor by a different route, and everywhere were greeted in the heartiest manner by the large crowds of people assembled. Emperor William appeared to be in splendid spirits throughout.

Police at Work.

The police are evidently not telling the truth in their denials of the discovery of an Anarchist plot against the life of the Kaiser. Secret police literally swarm here, and among those in town are a number of the best detectives of Scotland Yard.

There is no doubt of the fact that they are in grave fear lest an attempt be made upon the Emperor's life when he goes to London.

The railway line from Windsor to Paddington station was inspected almost inch by inch, a "dummy" train preceded the Kaiser's special both going and coming, and the twenty-one miles run was made between nearly continuous lines of troops, a military display such as has never been seen in England before.

A company of mounted Life Guards completely surrounded the Imperial carriage on its trip from Paddington to the Guild Hall, all-traffic was stopped, and ranks of soldiers lined the curbs on a cither side of Oxford street, Holborn and Cheapside, through which the Kaiser sassed.
