

## WANT A BRIDGE.

**Brantford Man Convicted of Crime of Perjury.**

**Criminal Negligence—Site For New Hospital.**

(Special Despatch to the Times.)  
Brantford, March 12.—A meeting was held in the Mayor's office here yesterday of the civic authorities and representatives of the Brantford & Hamilton Radial, the Brantford Street Railway, the Cataract Power Company and other interests affected by the proposed erection of a new concrete arch bridge at the terminal of the radial on Market street south. The plan of securing an agreement before the matter was taken to the Railway Commissioners to decide the proportion of costs was generally commended. Messrs. Green and Coleman represented the Hamilton Radial, and plans of the new bridge were placed in the hands of all the representatives. Another meeting will be held before the city applies to the Railway Commissioners to erect the bridge. It will be a very costly affair.

**CONVICTED OF PERJURY.**  
Isaac Foster was convicted of perjury here yesterday by Magistrate Livingston and was remanded for sentence. Perjury has been a common practice in the local police court, and the authorities intend to put a stop to it. Foster in his own behalf denied the evidence of three witnesses, who swore that he was "peeping" into the residence of Mrs. Marshall on Bridge street.

**TO FACE CHARGE.**  
William McGuire, the Grand Trunk yardman, will face his trial here on Tuesday next before Sir William Meredith on the charge of criminal negligence. McGuire is alleged to have failed to protect the return of a shunting yard engine going out to Mt. Vernon last fall, resulting in a disastrous wreck, with the loss of three lives. There are eleven jury cases for damages, four of which are against the Brantford Gas Company for the Colborne street explosion here last fall.

**NEW HOSPITAL.**  
It is announced here that consideration is being given to the proposed purchase of the Ladies' College grounds as a site for a new hospital to be conducted under the auspices of the Sisters of Charity. Mr. Simon Hewitt, the owner of the property, when queried stated that although definite had been settled, although the matter was being strongly considered.

**GENERAL NOTES.**  
It is announced here that the Grand Trunk Railway proposes to build a switch through the East Ward to tap the factory district, out of which the T. H. & B. Railway secures a large amount of traffic.

The County Council has temporarily turned down the proposition to spend \$5,000 for improvements of the local court house.

Local delivery men report that since the recent delivery tragedy people all over the city have shown their alarm by keeping their doors locked all the time. In some cases the delivery men cannot secure entrance until the nature of their mission has been learned.

Hamilton Thistles played a friendly curling match with the Brantfords here yesterday afternoon.  
Isaac Foster, convicted of perjury yesterday, while giving evidence in his own behalf, was fined \$25, with one day's imprisonment. Foster denied the evidence of three credible witnesses.

## AT Y. M. C. A.

**Ladies of the Y. W. C. A. Entertained Pleasantly.**

Last evening the Literary Club of the Central Y. M. C. A. entertained the young ladies of the Y. W. C. A. A debate was arranged as part of the evening's programme, and the subject was, "Resolved, that the love of fame is a more powerful motive in the affairs of men than the love of money." Miss E. Simpson and Mr. W. W. Carter were for the affirmative, and Miss Carter and W. J. Jaeger for the negative. There was no sign of linguistic laziness during the time allotted to each speaker, and the ladies proved good in oratorical eloquence. The judges were Mr. Curry, Mr. Tatum and Mr. Cook, who handed the laurels to the affirmative. Mr. Peary during the evening read some comical extracts from the Y. M. C. A. "Eye Opener." After the evening, the ladies waited on the ladies with refreshments. The ladies say they spent a most enjoyable time. Mr. Morris was chairman.

Rev. Richard Wintling officiated at the house and grave.  
Mr. and Mrs. Wahlman wish to thank the Savoy staff for their kindness and the following for their floral offerings: Wm. H. Savoy, Mrs. W. H. Savoy, Miss Edythe President, Mr. J. S. Selman, Mr. Don Carlos Du Bois, Miss Dorothy Wilson, Mrs. J. H. Bous and Mrs. H. Wahlman.

## Clothing Logic.

Spring is almost here—Old Sol says so, and he rules this earth, even if our friend Jack has made us a belated call and frozen men's thoughts of new spring clothing.  
Best dressed men use the sun as a barometer of dress rather than the thermometer—that is, get their clothing early—from the choice new suits and coats as they first come out.  
We are ready for these logical men—have just as many suits, coats, etc., as though the temperature were fifty degrees warmer.

Our special for to-day, Saturday and Monday is 300 pairs of \$3.95 pants, 2 hip pockets, for \$2.00 bill. Not Bill Taft, he is a \$75.00 bill.  
See window. 68c shirt tables still working.—The 2 T's, Trudell & Tohey, 50, 52 James street north, Hamilton, Ont.

## RAILWAY DEAL.

Minneapolis, Minn., March 12.—Edward Pennington was elected President and Horace Lowry was elected a Director in place of his father, Thomas Lowry, deceased, and the deal whereby the Soo line is to lease the Wisconsin Central for ninety-nine years was ratified at a meeting of the Board of Directors of the Minneapolis, St. Paul & Sault Ste. Marie Railroad yesterday.

## NOT JUST NOW.

**New Y. M. C. A. Building Not to be Undertaken.**

Another meeting of the Y. M. C. A. Board of Directors was held last evening. John E. Brown presided, and around the table with him sat Messrs. Alfred Powis, Geo. Rutherford, F. W. Watkins, F. R. Smith, W. J. Waugh, J. Orr Callaghan, J. J. Greene, D. M. Barton, W. J. Robinson, Wm. Longland, Fred Cloughly and T. F. Best.

Very encouraging reports were read from the various departments of association activity. The treasurer's statement showed a good month for February, largely due to the efforts of the senior cabinet. The membership was greatly increased, and the overdraft considerably reduced. Bible classes and gospel meetings for both men and boys were well attended, and were followed with encouraging results. Classes in the physical department were more largely attended than any previous year, and Mr. Barton, physical director, is kept busy with physical examinations for the new members. Twenty-four joined the business men's class during the month. A new hardwood floor is being put down in the small lecture room, the gift of Mr. W. J. Atchison. The committee on new building reported through Mr. Powis that in their judgment the time was not opportune for raising a popular subscription, such as would be necessary for the large building scheme contemplated. They recommended a new building for boys, with improved locker rooms and shower baths for the men, also bowling alleys. This is considered within reach at the present time.

## MINSTRELS.

**Y. M. C. A. Boys Put on a Very Fine Show.**

There's talent among some of the lads in the boys' department of the Central Y. M. C. A., as those who were present at the minstrel concert given in Association Hall last night could see. The programme started with a two-act dialogue, entitled "Camping 'Up Caesar's Creek," which showed how eleven boys went to have a good time up the creek, and their good time being spoiled by the drifting in of two city dudes, with lofty ideas. However, things work out very well after a while, and all settled down to have a minstrel concert in earnest. The following programme was given by the minstrels: Chorus, Telling To-night on the Old Camp Ground; round of jokes; song, Come to the Land of Bohemia, Mr. Earl Hyslop; round of jokes; song, The Old Time Rag, Mr. Ernie Hyslop; round of jokes; song, Don't Take Me Home, Mr. Albert King; round of jokes; song, Down Among the Sugar Cane, Master Willie Smith; round of jokes; song,

## Jungle Town, Mr. Ed. Weston; round of jokes; recitation, Aunt Keturah; song, I Wish I Had a Girl, Mr. Earl Hyslop; round of jokes; song, Pals, Good Old Pals, Mr. Ernie Hyslop; round of jokes; song, Under the Chicken Tree, Mr. Albert King; round of jokes; song, Just Some One, Master Willie Smith; round of jokes; song, When I Marry You, Mr. Ed. Weston; chorus, I'm Going Back to Dixie. The following took part: Chorus singers—Joe Eccles, Roy Begg, Francis Vila, Mervin McVey, Frank Johnson, Tom McCann, Dick Wattam, Wallace Roberts, Ed. Barclay, Will Reid, Dan Webster, Harry Lucas, Walter Godard, Clarence Hancock, Raymond Maddock, John Mainwell, Will Rossell, Reginald Peace, Arthur Argent, Arthur Oliver, Theo. Shireman, Victor Harrison, Guy Munson, John Lumsden, Roy Cousins, Ed. Hitzroth, Gordon Mellon.

Dialogue actors—Clare Wattam, Ed. Smith, Gordon Martin, Wallace Lees, George Carley, Fred Dean, Al. Wilson, Will Smith, John Rainbridge, Roy Conway, Will Kennedy.  
End men—Earl Hyslop, Ernie Hyslop, Ernie Hynes, Will Smith, Bert King, Wallace Lees.  
Interlocutor—W. J. Robinson.  
Accompanist—R. C. Symmers.  
Those who were not present last evening should not miss the opportunity of seeing the show to-night, when it will be put on again. There were some very pretty stage decorations, and some really clever stunts were given.

## LABOR PARTY

**Will Ask Explanation of Studholme's Treatment.**  
The Independent Labor Party held an open meeting at Labor Hall last night, which was fairly well attended. After the regular routine business was over a discussion took place on the best method to continue the organization and augment its membership. The Printing Committee was empowered to publish pamphlets with the party platform and other matter for distribution. A special meeting and drawing will take place at the A. O. F. Hall on Monday, March 29, at which a programme will be rendered. Alphonse Veruile, M. P., Montreal, and Allison Studholme will be the principal speakers.

The regular meeting night was changed from the second to the third Thursday in each month.  
A committee was appointed to wait on Mayor McLaren and find out why Allan Studholme, M. P. P., was ignored in the matter of the private bill introduced in the Legislature in the interest of Hamilton. A vote of confidence and commendation on the ability and integrity of Mr. Studholme in connection with his work in the Legislature was unanimously carried.

## 300 FEET UP.

Friedrichshafen, March 12.—The Zeppelin airship, which went up from Lake Constance this morning, attained an altitude of over 3,000 feet, a record height for steerable balloons. Varied and most difficult manoeuvres were tried out at this height with great success.

## THE ABSENT ALDERMEN.

To the Editor of the Times:  
Sir,—Does it not seem strange that a public meeting, called by a number of the citizens of Hamilton, with the expense accompanying same paid out of their private means, was attended by only three aldermen, Messrs. Lees, Milne and Cooper, when the sole object of the meeting was known to be the discussion of such an important matter as a by-law which, under cover of asking permission to run cars in and out of barns, is granting a perpetual and free right of way through the city from east to west for both passenger and freight traffic?

Citizen.  
Hamilton, March 11th, 1909.

## ROUND-UP IS ON; TRAMPS, BEWARE!

(Continued from Page 1.)

ors that were continually running over his body.

"You have brought this upon yourself," said the Magistrate, "but your condition is most pitiable, and for your own good I'm going to send you down for one month."

Joseph McGovern, no address, when told to stand up and answer to a charge of vagrancy, assumed a very aggrieved expression. "My goodness! was it possible?"

"Where do you keep your trunk?" asked the Magistrate.

"Well, Judge, to tell the truth, on my back," he replied.

He was unable to give any satisfactory explanation of his business here and showed any means of subsistence and was given three months in which to meditate upon the error of his ways.

The third vag had the distinction of having two names and having a sense of humor made them synonymous, one being John Shears, and the other Jack Scissors. This individual seemed deeply incensed that he should even be suspected of such a thing. He was a tourist, he said, though on a small scale, and had plenty of clothes, but unfortunately they were in St. Catharines.

"Whereabouts in St. Catharines?" asked the Magistrate.

"Whereabouts in the Queen's Hotel," he answered, after a moment devoted to thought.

"Well, give me the name of the proprietor and I will write to him."

"I didn't leave them with the proprietor, I left them in charge of the man that looks after the horses."

"What is his name?"

But Scissors had been through terrible suffering lately, and his memory was most uncertain, in fact, after about three minutes' consideration, he did not know if he ever knew his name.

Charles Smith, Murray street, drunk, was fined \$2. He made a mistake in not paying his fine and getting out, for a short time after some one informed the Magistrate that he was an "Indian."

He was again called on the carpet and asked to explain how he happened, and where he got his liquor. He said that he had been laid up for the last few days with a sore hand, and having nothing else to do had taken a few drinks. He said that he was able to get a drink in any of the hotels. He was fined \$20 instead of \$2.

Pompeo Niccolotti, an Italian, was arrested by Constable Cameron this morning for indecently exposing himself before children, near Stinson Street School. It is thought that it was this man that has been causing so much alarm in the southeast end of the city. He was remanded until to-morrow to gather further evidence.

The case of Benjamin B. Morden, who is charged with theft by Wesley R. Bennett, was adjourned until Monday. He was allowed out on \$500 bail.

## BISHOP OF PEORIA.

Chicago, March 12.—A report is in circulation among Chicago Roman Catholics that Rev. J. F. McGillo, of Buffalo, is to be appointed by Rome as the Bishop of Peoria.

## FATAL EXPLOSION.

Cleveland, O., March 12.—One man is reported as dead and seven injured as the result of an explosion of a metal pot in the iron mill of the American Steel & Wire Co., to-day.

## The Reason.

"I understand Talkfast has gone on the lecture platform."  
"Yes, a friend gave him a dress suit for a present and, as he doesn't dance and is too good to be a head-waiter, it was up to him to squaw-jouli carrying their water-stands from house to house. Then there were the barber shops, rendezvous for the lower classes, as the drug store was for those of higher stations. In the saloons, men would talk before, during and after their hair was being brushed, and with eyes and hands even more than with words, arrange all sorts of little combinations."

## BIG PURCHASE FROM

## IS HE A BIGAMIST?

**Charges Walter Blizard With Having a Wife Too Many.**

(Special Despatch to the Times.)

St. Catharines, March 12.—Walter Blizard, a married man, 27 years of age, residing on Niagara street, was hailed before Magistrate Campbell in the Police Court this morning on a bigamy charge. The warrant for his arrest was sworn out yesterday by John H. Chick, of the township of Carleton Place, who alleges that the accused did on Sept. 14 last, in Lockport, N. Y., go through the form of marriage with complainant's daughter, Alice, being at the time a married man. Blizard was arrested at 11 o'clock last night by Police Sergeant McCarthy, while cutting ice on the new canal. He was remanded for a week by Magistrate Campbell.

## H COMPANY.

**Highlanders Had Theatre Party and Dinner Last Night.**

H Company, of the 91st Regiment, held a theatre party and supper last evening. After an enjoyable time at Bennett's, the company, under Capt. R. R. Moodie, marched to the Strand, where a tempting meal was placed before the party. Col. Bruce and a number of the officers of the regiment were present. After the repeat, Capt. Moodie took the chair and introduced the following toast list:

"The King."  
"Commanding Officer and Staff"—Responded to by Col. Bruce, Major McLaren and Capt. Bell.

"Our Guests"—Responded to by Q. M. Sergt. McAndrew, 91st, and Color-Sergt. Weston, of H Company, 13th.

"The Ladies"—Responded to by Sergt. Haloway.

"Officers of H Company"—Responded to by Capt. Moodie and Lieuts. Linton and Webster.

"Non-Cons. of H Company"—Responded to by Sergt. Wittun, Sergt. Smith and Sergt. Whitney.

The gathering broke up about 1 o'clock.

Some Types of Messina.  
Messina's streets were a great attraction, for, though of a rather squalid type, they housed a most interesting population. The Marina teemed with life—with fishermen in stocking caps and knitted smock-frocks; with stevedores loading and unloading the motley craft that filled the harbor. Back from the port, the city's streets were filled to overflowing with curious figures, vendors of all kinds; fruit sellers and peddlers of pottery; ironmongers and squaw-jouli carrying their water-stands

## FIFTY ICEBERGS.

**British Steamer Encounters Them Off Grand Banks.**

**Had to Steer For 12 Hours to the Eastward.**

Philadelphia, March 12.—Towering icebergs and a great area of encircled ice cause consternation to the officers and crew of the British steamship Tamarac when the vessel was within several hundred miles of the Grand Banks, on March 3. The Tamarac arrived here yesterday from Shields, and the report of her officers caused amazement in shipping circles, when it became known that more than fifty icebergs were passed.

The vessel was 200 miles northeast of Cape Race when the look-out reported icebergs ahead. Officers crowded the bridge decks and with glasses swept the sea. To their astonishment the water was literally dotted with bergs of all sizes. The steamship soon found herself in heavy field ice, and finally was compelled to steam for twelve hours to seaward. She picked her way through fifty icebergs, some of massive proportions and others less than ten feet out of the water.

**USES FOR WASTE WOOD.**  
Most Recent Have Origin in Demand for Alcohols and Acids.

Uncle Sam is concerned about the wilful waste of wood which seems predestined to create woful want. Millions of cords of wood is wasted every year in the forest and on the farm because this wood is not suitable for the various mechanical uses for which wood is employed. There are, however, numerous means of disposing of this waste. Aside from tanning and paper making, which are chemical industries that have been established for hundreds of years, there are other industrial uses of more recent origin which are of agricultural importance.

Important among these are destructive distillation, recovery of turpentine, resin, paper pulp, preparation of alcohols and manufacture of acids. These are growing industries because of a steadily increasing demand for wood alcohol, acetates, acetone, turpentine, charcoal, etc., which are utilized in other industries.

The crude products from distillation are chiefly four: Gases, tar and oils, charcoal and acids. Methyl alcohol, acetates, acetone, turpentine, charcoal, wood, oil and oxalic acid are directly or indirectly obtained from a commercial scale from woods, and the yield is governed largely by specific gravity, weight and kind of wood as well as by the way in which the manufacturing process is carried on.—From the Chicago Tribune.

**A Belated Message.**

"As an egg the other day that had a girl's name and address written on it."  
"Write to her?"  
"Did, and got an answer from her grand-sun."  
"So that was the end of your romance?"  
"Yes, and I've cut out eggs for the present."—What To Do.

Wigwag—So you haven't the sand to propose to her? Hardup—Plenty of sand, but no rocks.

**Nothing Too Good**
