THE HAMILTON TIMES

THURSDAY, SEPT. 9, 1909.

A FAMILY TALK.

In his address at the meeting of the Reform Association in Toronto vesterday, Hon. Charles T. Murphy, Secretary with those newspapers which have attacked his Department in connection with the chartering of the Metrooplitan Racing Association. The Minister went into. the circumstances of the granting of the charter at some length, showing that it was dealt with on proper lines, and that under the law his Department merely paper. They know that the end which discharged its duty. As a matter of these interests have in view is the plac-fact, no gambling rights are conferred ing of the Yankee consumers of paper by the charter; the Association is as and pulp products entirely at the comstrictly held to account under the law bine's mercy. The action of the Proas are other associations and private in- vinces of Ontario and Quebec in disdividuals. In spite of the efforts put. quarters to make it appear that this Association by obtaining the excuse for the movement; the its charter evades the law against real object is the plundering of the gambling, it is in that respect in exactly the same position as the Toronto and Hamilton racing organizations. The Secretary of State's Department could give it no immunity from the law; it

In the course of his remarks, Hon. Mr. Murphy somewhat severely criticised the Globe's course with reference to the granting of this charter. That paper has led in the campaign of condemnation of its issue, yet on no track could the Association do any act or permit any gambling which is not allowable by the charters of the Toronto and Hamilton Associations, at which the sporting editor of the Globe acts in an official In this matter the Globe seems to have entirely missed the point. Not by refusing a charter to one racing organization while granting charters to others and permitting them to conduct race meets at which gambling is practis-ed, will the evil of which the public properly complains be eliminated. If gambling is wrong—and the sense of the public supports the Globe in contending that it is-it is just as wrong on other tracks as on that of this newly chartered Association. If the law against race track gambling is not sufficiently explicit or severe to suppress it, let the law be amended. That has been the view put forward by the Times throughout the entire discussion. In this country no man or association should be allowed to continue practices which done by another, or others, would be regarded as criminal and would call forth public reprobation.

Hon. Mr. Murphy also criticised the course of the Globe and the Liberal press as to some other matters of public moment. He complained that the Tory slander campaign based on the Hodgins' charges had not been adequately met by the Liberal press; and that the Liberal papers were apathetic in meeting the malicious falsehoods resorted to by the Conservative organs. We have only to may that such a remark does not apply to the Times. We have no consciousness of having fallen short of our full duty to Liberalism and to Canada in exposing that conspiracy and in refuting the many falsehoods to the manufacture and dissemination of which the Opposition organs have devoted themselves.

Hon. Mr. Murphy may have observed that the Times and many of the Liberal papers of the Dominion have on occasions been constrained to disagree with the Globe on questions of public moment. That is a Liberal right; absolute freedom of opinion is a characteristic of true Liberalism. Such disagreement does not necessarily prove that the Globe has been wrong. But there is a widespread feeling that the influence of Tory Toronto has been unduly felt by it to the lessening of its power for the promotion of Liberalism. Perhaps Hon. Mr. Murphy's frank remarks will not be without their good influence for both the Globe and the Liberals of the country. Nobody would think of asking that the Tory Government of Ontario should be condemned when it does right; but wrong and its actions subversive of were due to mischievous boys sound Liberal policy.

MANN HAS SENSE.

Representative Mann, of Illinois, in Congressmen to use a tariff club to coerce Canada, recently said: "The maximum tariff provision as it passed the House expressly excepted from its operotion the reciprocal arrangements between Canada and England and between Canada and the British West India Islands and other colonies of Great Bri-Canada has reciprocal arrangements with England and I believe she has reciprocal arrangements with some of the other British coolnies, but by the say to Canada not as a concession or as as inducement, but as a 'big stick': 'Unless you are so little, so ready to be beaten that you will yield the advantage you have in holding the main of pulp wood on this continent, we will impose a maximum tariff on every pound of wood pulp and print pamer, adding thereby to the other tariffs on print paper at least \$8,50 per ton. Do you think that any men with Anglo blood in their veins are so craven as to yield before this threat? No." Congressman Mann shows more intel-

ligence and judgment in this matter than do many of his associates. committee of which he is the head collocted a vast fund of information on this subject, and he labors under no delusion as to Canadian sentiment on the matthe situation as has Mr. Mann, it would | ing.

not count upon Canada's unwillingness "to see any unfavorable turn to trade with the United States" as making her ready to get down on her knees and beg has sense enough to understand that

PAPER AND PULP DUTIES.

Thre is no misunderstanding among United States politicians as to the object which the United States Paper Trust and its allies have in view in scheming for the exclusion of Canadian criminating against the export of pulpwood cut on Crown lands is made real object is the plundering of the

And the Trust is very rapacious, Already it has begun a campaign to secure still higher duties on paper and pulp from Canada than are already imposed under the discriminatory clauses of the new tariff. Trust agents are now in Washington trying Treasury Department to make the duty charge higher by the trick of allowing a different percentage for the wood used in making a ton of paper.

The Paper and Pulp Combine is strong in the United States Senate, and has much "pull" with the Administration. The object of the combine is exclusion the erection of a prohibitory tariff wall against all pulp and paper imports. It regards the Quebec Ontario regulations as furnishing the opening for the wedge, and they are trying to make the most of it.

Canada looks on and smiles as the preparations are made to grill the United will not be without interest, because it will not be all one-sided. The consumer will squeal, and squeal hard; and the Government cannot afford to entirely ignore him. He has many voices and votes. When Congress assembles the consumer of paper may furnish some ammunition for the insurgent element which will lend piquancy to the disussions of the tariff question.

TO LESSEN FIRE WASTE.

The Monetary Times continues its ampaign for the adoption of the narshal system in Canada. It declares that "one of the worst species of male factor is the incendiary, a person who burns a building in order to get money which his neighbors have paid in pre miums or assessments to an insurance company. As has been forcibly said, he not only robs others of money they have paid for protection against loss burning his own he jeopardizes the buildings and lives of man, for he destroys wealth, while the highwayman only transfers it, so it is not lost the State." There is much of discover and punish incendiarism, and and fully equipped departments, while drels who might wish to resort to it. in five the commissioner of insurance exercises the powers of that officer. Other States are considering the adoption of laws such as Ohio possesses. Under it the number of incendiary fires in Ohio has been brought down from 292 in the year 1901 to an average of 116 in the years 1905 to 1908. Under this for incendiarism, the object of the crimto defraud insurance companies; in ten, the Liberals of the Province do not ex- to conceal crime; in twenty-three, repect the Liberal press to shield it and venge; in eight, the fires were due to it in that manner the retained organ of logize for it when its course is pyromania, and in two cases the fires

The Ohio law provides for the cause origin and circumstances of every fire which damages property being investigated and reported to the State fire speaking of the pulpwood situation, and marshal. He is empowered to exercise the disposition of some United States all the functions of a court. Mr. Rogers, the Ohio fire marshal, notes that the most important result of the activity of a fire marshal is its deterrent effect. Knowledge that incendiaries are quickly pursued and usually punished greatly diminishes the number of crimes. He

summarizes these references: The man who burns for revenge is always one who thinks he has been deeply wronged, while the burned to defraud has no excuse but greed. One who burns to get insurance money, if he is not apprehended, invariably buys and home seein. The one who burns provision in this conference report we and burns again. The one who burns to "get even" finds that he who "gets even" gets nothing else, and he rarely is tempted again to commit that crime. is tempted again to commit that crime-Mischievous boys, who start fire with-out realizing the consequences likely to follow, usually are reformed by an admonition from the juvenile court. The-pyromaniac has a desire to burn which is irresistible, and, therefore, sinless, but society must be protected by depriving him of liberty.

Is it not probable that the careful enforcement of a law which inquires into all destructive fires would yield far greater benefits to the public than ome of the ventures in whichethe public is now engaged?

T. J. Stewart is quoted in his organ as saying that he is "willing" to go into the box and testify in the Morris injunction suit. How nice! But then, there Dar. Perhaps if the tariff club party in are ways known to the law to put him Congress had as perfect a knowledge of in the box even were he ever so unwill-

EDITORIAL NOTES.

So R. S. Morris in his particulars of for mercy. Mr. Mann at least recognizes claim in the injunction case introduces that Canadians not only have the right some of the "rousing whids" uttered by side of the pulpwood contraversy, but he Ex-Mayor Stewart and the lying circular sent out by Ald. Wright to deceive they are not a people to be coerced and the ratepayers. Well, it would be interesting to have the candid opinion of a well-informed judge on the ethics which guided these men in their course.

A few years ago, C. P. R. lands were selling at \$3 an acre; in 1905 the average price was \$4.80; in 1908 it was \$9.54; and the 1909 sales average about \$12.50. The land sales profits alone for the last fiscal year amount to over \$2,-000,000. Placing the C. P. R. land holdings at an average of \$10 an acre, the company must still hold about \$120,000,-000 worth of land.

And now it is announced that Dr. Paris, has discovered a serum which promises much for the control of cholera. By its use the percentage of the death rate at St. Petersburg has been reduced from 50 to 23. If such results have been secured already, it may yet prove to be pox or antitoxin to diphtheria.

Further despatches from Peary give the date of his crossing the several parallels on his march to the pole. They also very clearly indicate that Peary will have a bone to pick with Dr. Cook, when he returns. What the nature of the evidence is by which he expects to confute Cook is not yet known to the public, but Peary speaks with confidence of "nailing" him.

The City Engineer's department of 6icially forbade the use of lawn sprink-lers "until further notice." The "further notice" upon which many are acting in returning to their use is a newspaper emark that is not official. The Engineer's department owes it to the public to give official assurance that sprinklers may now be used without offending. Keep good faith with the peo-

The Attorney-General is sending out to all the officials having to do with the enforcement of the law a circular calling their attention to an amendment passed at last session of Parliament providing for punishment by heavy fines or imprisonment the carrying of knives, pistols, knuckledusters, slugshots, any other concealed weapons. The law is a good one, and it should be rigorously enforced.

At the meeting of the Reform Asso ciation in Toyonto yesterday, it was decided to call a Provincial convention of the party in June next. Mr. A. G. Mac-Kay, M. P. P., intimated that when the free to select a Provincial leader and to adopt a platform without reference to him or any course he may have advocated. Such a convention should prove of great benefit to the Ontario Liberals

Nothing should be said that would to be tried for alleged "black hand" truth in that statement, and the Times practices. They should have a fair trial. has frequently urged that inquiries into But every Canadian will agree with us all fires be provided for in order to that the crime is one that must be thus lessen criminal fire waste. Mani-toba has made some progress in this money by threats against person or prodirection, and in nine of the States to perty merits such a penalty as will the south of us there are fire marshals strike terror to the hearts of all scoun-

> The organ of ex-Mayor Stewart ridicules the inclusion in the partciulars filed in the Morris injunction suit of al leged false statements said to have been made by Stewart and his "Man Friday," settling the whole matter, these state-ments "were publicly contradicted by Cataract supporters" at the time! And it professes to think that however false the statements were, "it is doubtful if they turned many votes." Alas! and is the deceivers flouts them?

> One result of the decision of the Den ver Canners' convention in favor of chemically "embalmed" foods is that packers of pure foods which do not need "embalming" will have a great preference in the markets of the world. If the Canadian packers really appreciate the advantages which they have in this matter, they should use every means of publicity to inform the public, not only of Canada, but of Great Britain and continental countries of the difference between the Canadian product and goods which require salicylic acid, benzoate of soda, formaldehyde, and other "embalming," agents to "hold" them till they get to the customers.

Of course, before they start on a campaign to harass the steam railways because of the smoke they make the city officials will apply smake-consumers to the City Hall furnaces as had offenders as there are in Hamilton. We well understand that baiting railways is a which favorite game in some quarters, but we have done that of old to our great loss. Moreover, those officials who look to Toronto for directions should mark that Toronto's nagging has led to the G. T. R. withdrawing a lot of train crews from that city and making Hamilton its ter minal for the division. Let us treat the railways reasonably, and not as enemies to be hounded.

> At a meeting of the independent tele phone men in Toronto yesterday, Mr. F. Dagger (is he the man who figured prominently in the Manitoba Provinsial scheme, and was so fiercely deounced by the Manitoba Government?) called attention to the fact that since

The Vanishing Point

Hussday morning all sugars advanced the per 1999 1995, and lighting to take basis the margin between cost and selling price has almost reached the vanishing point. Nevertheless, we will sell Friday. Saturday and Monday only 100 lb. bags Redpath's Extra Standard Granulated. Sugar at \$4.90, 20 lb. bags \$1.00, 10 lbs. for 50c. 21 lbs. Bright Yellow Sugar \$1.00, 10½ lbs. 50c, 514 lbs. for 25c. Next week higher prices must prevail.

Flour Special

The price of flour is too high, and there is no promise of reduction soon, but Friday, Saturday and Monday we will sell Lily White Flour per bag \$2.80, per ½ bag \$1.40, per ¾ bag 70c. Gold Medal Flour per bag \$3.00, per ½ bag \$1.50, per ¾ bag 75c. Five Roses or Royal Household Flour, per bag \$3.25, ½ bag \$1.65, per ¾ bag \$5c.

Butter and Eggs

Supply decreasing, demand increasing; you know the result. Still we will sell 1,500 lbs. choice fresh Creamery Butter Friday, Saturday and Monday at 26c per lb. Next week's price will be 28c. Fresh Eggs. per dezen 27c. Prime Cheese per lb 15c. Best Pure Lard 17c. lb.

Sweet Potatoes and Spanish Onions

Five barrels fancy Sweet Potatoes clean stock and not too large, going s. for 25c. Spanish Onions, fresh and fine and large 4c lb, or 7 lbs, for Yellow Danvers Onions, bright, dry and well cured, 5c per quart, 45c

100 Baskets Apples at 25c

100 baskets Sour Bough Apples. They are clean, sound, hand picked, a splendid cooking variety, and the baskets are well filled. While they lift per basket 25c.

HIGHFIELD MATRICULATION SUC-CESSES.

The returns are now all in, and it is possible to show the great success that has attended the boys of Highfield School at matriculation. Boys have gained honors in six subjects, which speaks well for the all-round excellence of the teaching. In the Toronto matriculation, R. H. Gilbert obtained honors in Latin. J. D. Scott in mathematics; L. S. Heppin French, German and history. M. W. Walker in English.

At McGill University G. C. Fenuie track the sixth place in agained science (28)

At McGill University G. C. Fermie thesis, the sixth place in applied science (98 for per cept. in algebra). N. Y. Bauthent passed the matriculation in avehitsecture with high marks, and C. B. Timling passed the full examination in auts at the early age of sixtsen.

Even when they have nothing to do some people make a mess of it.

SHEA'S Bargain Day

Friday Bargain

Monday was originally the Bargain Day of the Shea store, but for good sound business reasons, not necessary to mention here, it has been changed to Friday of each week. As you have shown your more than bountiful appreciation of our offerings on Monday we trust you will as fully appreciate, items we put before you on Fridays from this time forward. It will be our endeavor to make them better than ever.
