NEW SPRING RUGS
Real Oriental Reproductions

We are showing in our large window some exact copies of Turkish, Bokhara Rugs.

In the centre of our window we are displaying a 9x12 Worsteds Wiltm Rug, an exact reproduction, both in colors and pattern, of a Royal Bokhara worth \$5,000, now in the possession of the Sultan of Turkey.

Also some copies of Kazoc's, Kirmansha's and Mesheds.

We have for this Spring's trade the most exclusive show of Carpet Squares, as well as the largest showing we have ever had.

"SEVENTEEN"

Jane notes on bread and butter, apple sauce and sugar, and her warm weather scarcity of clothes which have a tendency to fall off embarrasses "Will-ee" in his walks in the town street, with the "baby-talk" lady. In Jane's home there seems to be nothing which escapes her big eyes or her sharp ears.

"Seventeen" comes to the Grand for one performance, April 17th, direct from eight solid months' run in New York where two million persons were delighted with the story of youth, love and summertime.

The Red, White and Green Package is Familiar to All

FOR over twelve years the original Red, White and Green flake package has been a familiar combination of colors to all Canadians.

During all these years millions of Canadians have enjoyed

WHEN APPETITE FAILS AND HEALTH DECLINES FOLLOW THIS SUGGESTION

REQUIRES ONLY A COUPLE OF SMALL TABLETS AFTER MEALS TO FIX YOU UP AGAIN.

A New Blood-Food Called Ferrozone Sure to Restore you Quickly.

Every day comes the good news of wonderful cures with Ferrozone. In Petroboro it worked marvels for Louis Mehan—put him right on his feet—made him entirely well.

"About three years ago," says Mr. Mehan, "I had the Grippe which left me in a very run-down condition that finally developed into Dyspepsia. I was unable to eat but a few things and had a craving for acid. I gave up treating with the doctors because they did not help me and on the advice of a friend used Ferrozone. It not only cured me of Dyspepsia and Biliousness, but has built up my strength to what it was before I had the Grippe. I can recommend Ferrozone as an ideal restorative."

Ferrozone gives you force, energy, vim.

It strengthens the stomach, cures indigestion, prevents headaches—guarantees good health.

Thousands use Ferrozone—they all feel better; try it yourself—sold in 50c boxes, six for \$2.50, at all dealers or direct from The Catarrhozone Co., Kingston, Ont.

THOUSANDS ON FARMS
Over 7,500 Persons Were Placed on Farms This Year.

Experience Shows Cold Nights Lowers Milk Flow When Cows Are Left in Fields.

(Contributed by Ontario Department of Agriculture, Toronto.)

SINCE Oct. 31st, 1917, the Ontario Government Public Employment Bureau have secured employment for 19,000 persons, of which 7,016 were men and 11,984 women. This work has been accomplished for the most part through the efforts of the offices at Toronto, Ottawa, Hamilton and London. Since April, however, new bureaus have been opened at Kingston, Port Arthur and Port William.

In order that the best results might be obtained through the campaigns for farm laborers the efforts of the Trades and Labor Branch, the Organization of Resources Committee and the Agricultural Representatives were co-ordinated. The province was divided into six districts, each centering around one of the bureaus. The organization is now such that each county, through the Agricultural Representative, is kept in touch with the Ontario Government Bureau. Thus the surplus labor in one part of the province may be shifted to a part where a scarcity is felt. Any farmer in Ontario, by communicating with the Agricultural Representative for his county, may learn how farm help can be obtained.

To date 7,800 persons have been placed on Ontario farms. Of these 5,300 were men, 2,140 boys and 2,260 women. Several campaigns have been launched including, "Soldiers of the Soil" (boys between 14 and 19 years), "Haying and Harvesting," "Sugar Beet Hoisting," "Tree-planting and Fall Ploughing," and "Flax Pulling." Over 250 boys were sent to the sugar beet fields of the Chatham district, and 125 are now pulling flax.

Of the 1,260 women sent the majority are on fruit farms. An effort was made at the Toronto office to send women to assist in the farm kitchens with the result that 70 women have gone to this work. During the winter a class was organized for the purpose of giving girls a training in chore work on the farm. In April a course was opened at the Ontario Agricultural College, where about 150 women and girls have gone out to assist on farms throughout the province. The results achieved by these women have been satisfactory from the standpoint of the farmer.

It is the desire of the Department that every farmer in need of help is supplied with suitable and satisfactory assistance, and it is toward this end that our offices are organized and into the fulfilling of which practically all the energy of the department is put.

On account of the supreme importance of food production the greatest amount of effort, in all offices, has been put forth toward recruiting and placing men and women on farm occupations. Women have been placed as follows: 1,630 domestics; 1,273 munition and factory workers, and 1,700 at clerical and miscellaneous occupations.—Dr. W. A. Riddell, Superintendent, Ontario Trades and Labor Branch.

FOREIGNERS HOLD PROTEST MEETING

About seven hundred men, mostly Italians, Finnish, Polish, Russians and Ukrainians attended the mass meeting held in the Griffin Family Theatre yesterday afternoon when speeches were made by M. Rochyl of Toronto, (Polish); L. Chipetti, Toronto (Italian) and F. Naples, (Russian) and J. Comiasarok (Ukrainian) of this city.

After the various speeches had been heard a resolution was unanimously passed deploring the agitation that is being directed against them as aliens and appealing for the rights of their Canadian born children. A concluding paragraph of the resolution reads:

"We appeal to our generous and san-minded fellow-workers to give us a square deal. There are thousands of foreign workers in this country who desire to go immediately to the countries they came from. Therefore, we ask that these workers be free to leave if they wish to do so. We do not wish to be sent to England or elsewhere to be used as strike-breakers, nor do we want to be compelled to take up arms against our own people. Let us leave Canada as free agents, just as we came, to go where we will."

The observers of both sides were evidently worried by the heavy gale that was blowing, as neither side was able to score a hit.

Mr. A. Jenckes has purchased the finely situated property on the corner of Midland street and Park Place and has a staff of carpenters putting the residence in first class repair, the job being in the hands of ex-Ald. Park. The property has been on the market for several years.

Keep Cows Inside During Cold Nights.

The season for cold nights will be here all too soon, in this northern climate. While it is true that keeping the cows inside means more labor in cleaning the stable and more difficulty in keeping the cows clean, the extra fertilizing material collected in this way will probably pay for the extra labor. If this does not, the extra supply of milk received by keeping the cows in a comfortable stable at times when the temperature drops below freezing-point, will do so.

Experience shows that cold has a very marked effect in lessening the milk flow, particularly for cows that have been milking for some time, when the natural tendency is for the cow to dry up and during which time every means should be adopted to keep the cow milking. Cows should milk at least ten months of the year. Leaving cows out of doors on cold nights, after they have been milking for six or eight months, makes a greater tendency for these cows to go dry.

Where cows are kept inside, the stable should be cleaned regularly and some absorbent material like sawdust, shavings, chaff, or cut straw, should be scattered along the passages, on the platform, and in the gutter. This helps very much in cleaning the stable and in keeping the cows clean.

Another advantage of stabling on frosty nights, is that it prevents the cows eating frozen feed, which is generally considered to be injurious to milk cows. They may be kept in the stable or yard until after the pasture thaws, and in this way the animals are protected against digestive troubles, and conditions are more favorable for maintaining the health and milk-flow of the animals.—Prof. H. H. Dean, O. A. College, Guelph.

Prevent Great Farm Loss.

If, through better care and management, the average life of farm machines could be increased by a single year, what a tremendous saving would be effected. The amount a farmer loses each year through neglect of his machinery would pay for the erection of a plain weather-proof shed that would keep them in good condition.—Prof. John Evans, O. A. College, Guelph.

The Executive Committee of the G. W. V. A. will meet at the club house tonight.

HOW WEAK WOMEN ARE MADE STRONG

Mrs. Westmoreland Tells in the Following Letter.

Harrison, N. Y.—"When my first child was born I did not know about Lydia E. Pinkham's Vegetable Compound and had a very hard time. I read in the newspaper about the Vegetable Compound and when my second child came I took it and was well during the whole time, and childbirth was a hundred times easier. Ever since then I have used it for any weakness and would not be without it for the world. I do all my work and am strong and healthy. I am nursing my baby, and I still take the Vegetable Compound as it keeps a woman in good health. You may publish my testimonial for the good of other women, if you choose to do so."—Mrs. C. WESTMORELAND, Harrison, N. Y.

Women who suffer from displacements, irregularities, inflammation, alocation, backache, headaches and nervousness should lose no time in giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial, and for special advice write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

MERRITTON

The many friends of Mrs. Alza Pettigrew, Disher Street, will be pleased to hear she is rapidly recovering from her recent severe illness.

Livingstone Lodge 1. O. O. F., 130, will go to Welland tonight to put on the second degree at that place. A special car will leave the hall at 7 o'clock.

Private John Gillis returned home on Saturday after a considerable length of time spent in overseas service, and is receiving a hearty welcome from his many friends.

The Union Choral Society will go to St. Davids on Tuesday night where they will put on one of their programs in the Town Hall under the auspices of the Presbyterian church.

The services in the Methodist Church were well attended on Sunday. Rev. E. Raiton preaching both morning and evening. The choir under the able leadership of William Suckling rendered some excellent music. Mr. Rotz and Miss Ina Gillis taking the solo parts in the anthems. At the evening service Mr. Suckling pleased every person present with his solo "One Sweetly Solemn Thought."

The vestments for the members of

St. James Church Choir will be worn for the first time on Sunday next.

Mr. Henry Lovell, is adding a new concrete sidewalk also making a new concrete cellar, to his residence on Merritt Street, which when completed will make a neat appearance.

Mrs. Chance, of South Tonawanda, N. Y., spent the week end the guest of Mr. and Mrs. D. Webb.

Mr. Wilfrid Wallace of the customs staff, Bridgeway, spent the week end with his parents, Mr. and Mrs. John Wallace, St. Davids Street.

Mr. James Clark, Merritt Street, is erecting a new garage in the rear of his premises.

Private Brophy has returned to town after a lengthy stay on active service overseas.

Word has been received in town that Mr. Andrew Savigny, Uncle of Leslie and Roy Savigny, has passed away at Tonawanda, N. Y. A number of people from town including Mr. and Mrs. Leslie Savigny and Mr. and Mrs. Ross Savigny have left to attend the funeral.

Ivy and Ward Hagar, children of Mr. and Mrs. Ward Hagar, Haight Street, are improving from their recent severe illness.

No doubt a large number will attend this moving picture show on Tuesday night when the wonderful picture "A Broadway Scandal" will be exhibited along with some other very interesting films that have been so successful.

A new stop on the N. S. & T. Ry. has been arranged for near the Interlake Paper Mill, which will be called Bal's Avenue. The stop known as

INDIGESTION

When the food does not digest—it sours in the stomach and ferments causing burning in the stomach, bloating of gas, headache and other things well known to the sufferer. Avoid charcoal, soda, etc., and anchor your faith to Walker's Indigestion Remedy and you will be cured—Your money back if it fails—We make it—We know the conditions—We guarantee it.

A Modern Luxury for Modern Homes

IMAGINE what strides we have made since Grandmother's time! Really our house-keeping is now only a matter of remembering names—we step to the telephone, and command as we will. And think how vastly better the article—how clean, wholesome, uniform it is, from the maker to your table! Take, for example,

Swift's Premium Oleomargarine

—that dainty, appetizing, nutritious product that is recommended by domestic science authorities everywhere for table and kitchen use, as a delicious spread for bread, for the making of cakes, cookies, sauces and general cooking. Compare it with old-fashioned standards! My goodness! In Swift's Premium Oleomargarine you have an article that's always sweet, pure, clean (it's Government inspected, and never touched by hands)—always the same in flavour, texture, quality—reaches you fresh—and with all this, saves you about fifteen cents per pound!

Merely remember the name—telephone your grocer or butcher today for a pound carton—and a luxury undreamed of in Grandmother's home will be a necessity in yours!
