

THE HERALD

WEDNESDAY, MARCH 26, 1894.

It is perhaps a past grand number in publishing that Premier Peters' name will be handed down to posterity.

The total amount asked for in the estimates submitted to the commons, is \$4,038,392, a reduction of \$4,485,522 from last year. Of the amount \$4,114,174 are in items chargeable to capital, and \$371,218 in items chargeable to consolidated fund.

The Legislature is now in session, but that promised investigation into the shooting of Melanin has not yet been held.

The expectation of having our claims against the Federal Government adjusted the Patriot thinks to be a vain hope while the Tories are in power.

The opposition have made a splendid beginning. Five days of disposing of his excellent proposals in a manner of what is to follow.

Perhaps the women voters of Long Branch, N. J. have done more to retard their bumptious sisters from attaining the boon they so ardently desire, than all the combined eloquence of the misogynists Long Branch ladies may give the ballot, but do not feel disposed to allow their lords and masters to affix their mark to the paper.

It is reported that Mr. Fielding and Mr. Blair will likely cut themselves clear of provincial politics and marshal the forces in their respective provinces for the federal house.

The budget speech would have delivered just one week ago, and the question of tariff reform, which is of so much moment to the people, engaging their attention day after day, were it not for the stubbornness, perversity and long windedness of the grit opposition.

Mr. David Mills, of Bothwell, more generally known as "Philosopher Mills," was completely knocked out by Sir John Thompson during the course of the debate on the address.

THE POPES' REQUISITION.

BOZAR, March 23.—The Pope's encyclical letter addressed to the bishops of Poland, Russia, Austria and Prussia was published today.

We imagined that "unearned increment" would be its too frequent appearance on dress parades, surely earned something. So far it has been the recognition of the power of princes or the utility of nations, but to provide for the prosperity of all.

A recount in Colchester county, N. S., has resulted in the election of Laurence over Israel Longworth. Mr. Fielding is strengthened by an additional member. The parties now stand 25 to 18.

Why do not the editors of the Guardian and Patriot settle that "unearned increment" business, and at the same time quench their thirst with "a drink of good, old H₂O" mildly diluted with some rare old C₂H₆O?

The country anxiously awaits the amount of last year's deficit. It is said to surpass by the grandeur of its imminence that of all previous attempts.

Roosevelt has been successful in his first bye-election. Muir Ferguson's overwhelming majority in Bath, over a Unionist vote, will be poor consolation for the seer who professed to see in Roosevelt a revulsion of popular feeling against the Liberals.

The government's new tariff measure is regarded as one of the most important political events since the introduction of the National Policy. The bill involves a reduction in taxation amounting to one and a half million dollars.

The amount of indebtedness of our local government to the Merchants Bank of P. E. Island is yet advancing by leaps and bounds. Last month over eight thousand dollars were added to the pile, bringing the grand total up to the handsome figure of \$55,209.00.
