Monday, Sept. 26, 1910.

A Confirmation.

In further confirmation of what we wrote on Saturday relative to the intention of the Government to send twenty teachers or so to Canada for training, we had sent us by to-day's mail the Montreal Gazette of the 20th inst. containing the following item:

"Dr. Robertson said that Sir Edward Morris and all his colleagues are determined to do all in their power to promote a more elevated taste for agricultural pursuits amongst the people of Newfoundland. Scientific training is also to be introduced into the present school system of the colony; all denominations taking great interest in the movement. In a very short time he says the Government will be in a position to send twenty or more teachers of both sexes to Guelph, Truro and to the Macdonald Colleges, where they will be trained so as to carry back to their island home the most valuable notions possible touching the development of agriculture on every hand. In fact, he thought that the authorities would be soon ready to offer scholarships, so that the knowledge obtainable at the Canadian institutions may be placed at the disposal of the young men and women who will soon be coming up from the Ancient Colony."

A New Athletic Club.

A new club called the Terra Nova Athletic Association was formed on Saturday night last with rooms on Beck's Cove over Mr. M. A. Barrow's, including reading room, music room, and boxing room and general gymnasium. Mr. Leo Murphy was elected President, Mr. W. J. O'Neill, Vice President, Leo O'Dea, Secretary, and T. Walsh Treasurer. The personnel of the society includes several old St. John's boys, oarsmen, runners and walkers. We wish the new club every success.

POLICE COURT NEWS.

A disorderly and drunk in charge of a horse were each fined to-day \$4, or 14 days.

Another disorderly was fined \$5, or 14 days and a drunk the third time this season, \$1, or 5 days.

A third disorderly was fined \$5, or 10 days; a drunk conveyed to the station in a cab, \$1, or 7 days and two drunks \$1, or 5 days each.

PARTRIDGE IDENTIFIED. Over 200 brace partridges arrived here by the Portia and were quickly disposed of by grocers. Where they sold for 80 cents last week they are now retelling for 90 cents the brace. Messrs. I. Simms and H. LeMessurier, of Bowring Bros. office are doing well at Western Bay, and sent in 50 brace on Thursday last.

Tinsmiths' Wages.

Mr. W. J. Clouston's Side of the Question.

The tinsmiths are asking for \$2 a day, and if not given this wages on October 1st they say they will go out. It is well always to hear the side of the employers as well as that of the men. In an interview with Mr. W. J. Clouston on Water Street we find that he employs five men and already is paying \$9.50 a week and gives them a \$20 bonus at the end of every year. On half holidays and other holidays he allows their pay to go on, the total coming to \$25 for each man during the year. He also gives a Xmas box of \$5 every year to each employee. He is often at his wit's end to find work to keep the men employed, such as making up tinware that is not needed by the trade and which will lie on hand for years. If all the journeymen in the city were treated like Mr. Clouston's men we do not think that they would have much grounds for complaint. He could close down his journeyman shop to-morrow and make a living and do a good business in selling imported tinware. He has always treated his men the best he could and they should consider before doing anything that would not be square and for which they would be sorry afterwards. Mr. Clouston will have the sympathy of his customers and friends in the struggle that he is up against and we hope he will arrange matters satisfactorily with his men.

McMurdo's Store News

MONDAY, Sept. 26, 10.
In many cases of rheumatism pains, sciatica, lumbago, rheumatic sore throat, and neuralgia, a counter-irritant will be found of great value. One of the most effective things of this class is Chilly Paste, which is easy application and prompt in action, often relieving by rubbing. This is a handy thing to have in the house, and its early use saves a great deal of suffering. Price 25c. a bottle.

We are offering the Darwin Lat. Tulip at the introductory price of 45c. a dozen, or 5c. each. The Darwin Tulip gives one of the largest blooms of the tulip family and its colors are exquisite, scarlets, and dark reds, violets and blues. This tulip is very robust and thrives in all light soils. It ought to become very popular when once it is known.

Married at Brooklyn.

Mr. Austin P. Canning of St. John's, Nfld., chief engineer of the S. S. Fordham and formerly of this city, was married to Miss Catherine McClunni of New York City. The groom was assisted by Mr. Charles E. Davis, and the bride by Miss Mary McClunni. After the ceremony a reception was held at the residence of the bride's parents, Fust Place, Mr. and Mrs. Canning then left for Washington, where the honeymoon will be spent.

At Wesley Church.

Wesley Church was well filled last night while Rev. J. K. Curtis preached on the church and amusements. It was a splendid plea for the church to separate itself from the world, as far as accepting the world's line of amusements, directly damages the influence of professing Christians. The choir rendered splendid music and singing, and over 300 people remained to the prayer-meeting which was a service of blessed influence.

Attacked Supt. Grimes

Because he ordered his arrest for drunkenness at 12.30 today on Water Street, a drunk fiercely attacked Supt. Grimes and made several blows at him which the officer deftly parried. Sergeant Byrne and others soon overpowered the inebriate who fought against his captors till placed in the cells.

Assyrians Sent Back.

Nine Syrians—five men and four women—who would not be allowed to land from the Bruce at Sydney last Friday night came back to St. John's by the express to-day. The case of these people is pitiable. They told the reporters at the R. N. Co. station today that the reason they would not be allowed to land at Sydney was because they had not money enough, and that an inspector said their eyes were not up to requirements. They also said that they had been charged \$5 each here by their agent for purchasing tickets for them at the R. N. Co.'s office. They don't know what to do now. Mr. Anthony Tooton looked after them and accompanied them to a boarding house to get a meal.

Dillon Collection.

Mr. W. J. O'Neill, the tobacconist, is taking up a collection for the family of the late P. Dillon, among the customers who frequent his store. He will hand the amount over to Messrs. Kennedy and Bennett as soon as the list is closed. To-day he collected \$6 from the people who visited his store.

Hint to the Police.

The police should visit Cabot Street and Lime Street occasionally and prevent the boys from doing mischief there. Recently they knocked down an old woman who was bringing a bucket of water from a tank.

A Fine Parade.

The Methodist Guards, 160 strong, paraded to Divine service at Gower Street yesterday forenoon. They were commanded by Lieut. Col. Pitts and Major Hutchings, and headed by their fine band playing lively airs, they were much admired by citizens who lined the route to and from the church. Rev. Dr. Cowperthwaite held the service and preached a fluent sermon.

Here and There.

CAPTURED 2 WHALES.—The whalers Puma and Lynx captured 2 whales in Placentia Bay last week. The fish are scarce there.

CONFIRMATION.—The Lord Bishop administered confirmation to the C. of E. children at Broad Cove and Portugal Cove yesterday. A large number received the rite.

"HARVEST HOME." A Harvest Home celebration will be held at Gower Street Church basement on Wednesday next in aid of Mission Work. The vegetables and fruit will be sold afterwards at Buchanan St.

TYPHOID INCREASING.—A woman suffering with typhoid at Torbay was taken to Hospital to-day.

Suffering from the same disease a young woman was removed from Monkstown Road Saturday, and a girl suffering from erysipelas was also taken to the Hospital.

ALMOST BROKE LEG.—While repairing Shea's wharf this forenoon a roller slipped from under the steam piling and was used here and fell on the right leg of a man named Dooley. He was so seriously hurt that it was thought the leg was broken, a doctor was called and he was sent home in a cab.

BRUCE PASSENGERS.—The Bruce arrived at Port aux Basques at 7.20 a.m. yesterday bringing: W. H. Taylor, Miss A. F. Soper, G. R. Wortley, F. Forward, Miss I. Forward, W. J. O'Neil, J. A. Wallace, E. R. Darken, A. D. Brown, W. Crossman, Dr. T. E. and Mrs. Green, Miss B. Byrne, Miss M. Russell, E. Aiken, A. Rodgers, H. Berry, J. J. Guinane, G. H. Whitney, G. P. Mercer.

SHOP AND CONTENTS DESTROYED.—By the schr. Gladys we learn that a few nights ago at Chapel Arm, T. B. Thomas Smith's shop and all its contents, groceries mostly, were destroyed by fire. The shop was completely gutted and groceries to the value of \$300, on which there was no insurance, were destroyed. Mice which nibbled the matches on the shelves caused the blaze and the loss to the owner is a heavy one.

KEEPING AHEAD OF THE TIMES.—During the past three months I have spent much time among the best Opticians of England, France and Germany, and have had the privilege of examining all that is useful by the use of instruments for testing the eyes for defective sight. Now I am in a position to give you the benefit of this information. I can offer you as thorough an examination with as good results as though you spent hundreds of dollars in going abroad. My method of examining the eyes is quite on a par with the best, and with my fifteen years' experience and having tested the eyes of thousands of people enables me to offer you the best services. Having also the finest machinery for grinding compound lenses, your glasses can be had at once. If you have lost an eye altogether I can fit an artificial to match the other. R. H. TRAPNELL. -sept26,m,w.

Worst Case Of Eczema

Cure only came when doctors gave up and DR. CHASE'S OINTMENT was used.

Mrs. Wm. Miller, St. Catherine's, Ont., writes:—My daughter Mary, when six months old, contracted eczema after three years the disease baffled all treatment. Her case was one of the worst that had ever come under my notice, and she apparently suffered what no pen could ever describe. I had three different doctors attend her all to no purpose. Finally I decided to try Dr. Chase's Ointment and to my surprise she immediately began to improve and was completely cured of that long standing disease. That was four years ago when we lived at Cornwall, Ont. and as not a symptom has shown itself since, the cure must be permanent. The record of cures which Dr. Chase's Ointment has to its credit have placed it alone as the standard cure for eczema and all forms of itching skin diseases. Do not be satisfied with imitations or substitutes, 50 cents a box, all dealers or Edmanson, Bates & Co., Toronto.

"PROTECTOR" FIRE EXTINGUISHERS!

Efficient and Durable.

Even if a Fire has got too great a headway an Extinguisher will often hold it in check until help arrives. This Chemical Stream is forty times as effective as water on fire.

AGENTS FOR NEWFOUNDLAND.

The Church Ship Fair.

The grand fair in aid of the Church Ship Fund will be opened to-morrow at 3.30 p.m. by His Excellency the Governor and will continue for three days and nights. It will be a fair and no mistake. Why, the very decorations of the C. L. B. Armoury, where it is being held, is worth the admission fee, 20 cents; 10 cents for children. The artistic get up of the whole affair exceeds everything of the kind ever seen in this city. Mrs. Gosling, Lady Horwood and the other ladies associated with the fair have been working hard all summer to achieve a success, and there is no one who will dare to say that they have not done so. The stalls and tables would require a special artist in order to decorate them. England and all the British Colonies beyond the Seas are typically represented in the paintings, flag and shield designs and general exhibits. The C. L. B. band will furnish the music.

In Attendance.

We draw the attention of the Minister of Customs and Finance, the Hon. M. P. Cashin, who is also a member of the Executive Council, to the "personal" we quote from the Trinity Enterprise of the 24th—

"Mr. W. D. Reid, attended by Mr. Cashin, came in his private car from St. John's to the end of the rails at Goose Cove on Monday."

The black type is ours, and serves to bring out the delicious point to which we direct Mr. Cashin's attention. "He knows I s'pose" might be the unenlightened be applied to the editor of the Enterprise. But does he? Until Mr. Cashin confirms the statement we shall not believe that he was in reality in attendance on Mr. W. D. Reid.

Train Notes.

About 50 passengers went out by the shore train at 6 p.m. Saturday.

The local arrived here at 10 p.m. Saturday bringing F. O'Neill, F. Mercer, A. Herder, T. Fitzgerald, D. J. Greene, Const. Power, Miss Cooper, Supt. Dunne, D. A. and Mrs. Ryan, A. and E. Donnelly and 30 others.

By the Bruce express at 6 p.m. yesterday there went J. White, Miss Mann, Mr. and Mrs. Chesman, Mr. and Mrs. Angell, Mr. St. Hill, Mrs. J. T. Nelder, Mr. and Mrs. Bohana, Miss Palfrey, H. H. Frazer, R. Comerford and 50 others. The private car "Terra Nova" brought out Mr. W. D. Reid.

New Boats For Steel Company

The Dominion Iron and Steel Company are having two new steamboats constructed in the old country and it is expected that both will arrive in Canada about the first of next May. The new steamers are each 10,000 tons capacity, and will steam 13 knots an hour. They will thus be the largest and fastest in the service of the company, and will be employed carrying ore between Wabana, Newfoundland, and Sydney.

SICK PEOPLE ARRIVE.—Three sick people arrived by train to-day to go to Hospital. One is Mrs. White, of Alexander Bay, who is very ill.

DIED.

On Saturday evening, after a long illness, James O'Neill, a resident of Fermusee, aged 77 years; leaving wife, one son, 2 sisters and one brother to mourn their sad loss. Interment at Fermusee.—Boston papers please copy.
