

## The Evening Chit-Chat

By RUTH CAMERON

I know of no better thing to do to-day than to cease my own chattering. For once and give over my space to the great man, the anniversary of whose birth this day is.

A few sayings of Abraham Lincoln.

"The way for a young man to rise is to improve himself in every way he can, never suspecting that anybody is hindering him."

"With malice toward none; with charity for all; with firmness in the right to serve God gives us to see the right; let us strive on to finish the work we are in."

"You can fool some of the people all of the time, and all the people some of the time, but you can't fool all of the people all of the time."

"Let us have faith that right makes might; and in that faith let us dare to do our duty as we understand it."

"Get them to ploughing and gathering in their own little crops, and eating popcorn at their own firesides, and you can't get them, to shoulder a musket again for half a century" (discussing terms of peace).

"I do not think much of a man who is not wiser to-day than he was yesterday."

"When I am dead I want my friends

to remember that I always plucked a thistle and planted a rose when in my power."

"Broken eggs cannot be mended."

(To a woman who came to him to ask a pardon for her brother): "My poor girl, you have come here with no governor, senator or member of Congress to speak in your cause; you seem honest and truthful, and you don't wear hoops, and I'll be whipped if I don't pardon him."

"I have one vote and I shall always cast that against wrong as long I live."

"No men living are more worthy to be trusted than those who tell up from poverty."

"I do not wish to die until the world is better for my having lived."

"No man is good enough to govern another man without that other man's consent."

"When you can't remove an obstacle plough around it."

"A living dog is better than a dead lion."

"If we do right God will be with us, and if God is with us we cannot fail."

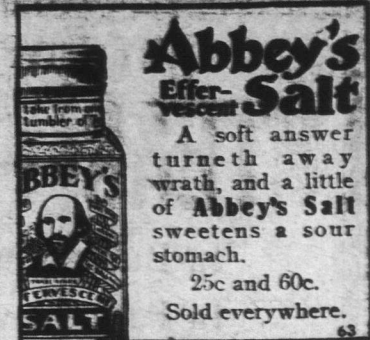

"Suspicion and jealousy never did help any man in any situation."

"Better give your path to the dog—even killing the dog would not cure the bite."

"This country with its institutions belongs to the people who inhabit it."

"All that I am or hope to be I owe to my angel mother."

## Certificates Distributed

An enthusiastic and largely attended meeting of those who had qualified in "First Aid" was held last night. Practical illustrations of the use of bandages and treatment of accidents were given by the students, after which Sir William Horwood, President of the Newfoundland Association, distributed the certificates which recently came from England. As each pupil came forward for his certificate he was given a triangular bandage which he made use of to show the means of its application and the uses to which it is put. Sir William made a speech in which he heartily congratulated all present and citizens generally who had interested themselves in ambulance work. He also commended those of mature years who took time and trouble to fit themselves to be of service to their fellows in case of emergency. He commented on the excellent work of the Association all over the Empire and believed that it would be of great service to this Colony. He eulogized those of the medical profession who gave time and trouble to the work of imparting a knowledge of first aid.

Besides the certificate given for "First Aid" Miss Isabel Prosser was presented with a voucher certifying that she had passed her first examination. Mr. Reeves, Hon. Storekeeper of the Newfoundland Centre, was presented with his medal with the 1910 clasp. A squad illustrated stretcher work, after which the meeting closed.

## One Dose Makes Indigestion Go.

Heartburn, Gas, Headache and other stomach misery vanishes.

If your meals don't fit comfortably, or you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas, which sours your entire meal—interferes with digestion and causes so many sufferers of Dyspepsia, Sick Headache, Biliourosis, Constipation, Griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapensin will cost fifty cents at any Pharmacy here, and will convince any stomach sufferer five minutes after taking a single dose that Fermentation and Sour Stomach is causing the misery of Indigestion.

No matter if you call your trouble Catarrh of the Stomach, Nervousness or Gastritis, or by any other name—always remember that a certain cure is waiting at any drug store the moment you decide to begin its use.

Pape's Diapensin will regulate any out-of-order Stomach within five minutes, and digest promptly, without any fuss or discomfort, all of any kind of food you eat.

## Atilla Tedious Voyage

The barque Atilla, Capt. Morgan, arrived here at 5 p.m. yesterday, 11 days from Pernambuco. In ballast. Leaving on January 7th, the ship had fair weather until she entered the Gulf stream, when she experienced gales from the N.W. and N.N.W. with sleet and snow, this continuing until this coast was made. Saturday last she was about 60 miles east of Bay Bulls, when she met head winds, had to run away to the westward, and for several days after it was very stormy with intense frost. Wednesday she met the ice S.W. of Cape Race, and she passed that point at 5 a.m. Thursday. She was off Cape Spear that afternoon but a heavy snow storm with N.N.E. wind compelled her to shelter at Bay Bulls, where she remained until the John Green took her in tow yesterday. She is consigned to Baine Johnston & Co.

## Glencoe Won't Go.

The S. S. Bruce being clear the S. S. Glencoe, it is thought, will not go to Sydney as was at first believed. The Bruce, no doubt, will run regularly unless debarré by ice conditions. The passengers who have been held up at Port aux Basques the past few days will likely get away to-morrow.

## STORING UP ENERGY

There is more nourishment and sustaining power in

**EPPE'S COCOA**

than in any other beverage

Eppe's Cocoa is a perfect storehouse of vitality, restoring and maintaining strength and energy. Fragrant, delicious and warming—giving "kick" to the "resistances" of the body.

## City Council Mee ng

Councillor Mullaly brought up the subject of the resolutions on last Monday night's meeting on the proposal to extend the franchise with a one dollar poll tax. After some discussion he gave notice that he would amend the resolutions.

The complaint of Jonas Barter, Mundy Pond Road, will be attended to.

The Horwood Lumber Co. asked leave to lay drainage pipes from their engine to the sewer on Banbricket St. Stubb & Co. would not be willing to build their proposed shed of brick, concrete or iron. Such a shed would not be suitable for their requirements, viz., storing goods. The Council is asked to take into consideration the difficulties they have to contend with. Councillor Martin proposed and Councillor Coaker seconded a proposition that they be given leave to build a wooden shed covered with sheet iron. A long discussion followed and the Mayor ruled the motion out of order. Meantime it was agreed that the subject be taken up at the next meeting. The Council will ask for an amendment in section 27 of the Municipal Act in order that they may be able the better to control the erection of buildings.

Engineer Ryan reported that some work had been done in the way of clearing the snow and ice out of the drains. He also informed the Council that he had reported to the Magistrate that house No. 12 on Lime St. was unfit for human beings to live in and suggested that it be destroyed.

A discussion followed on the subject of clearing the snow off Water Street. The Council believed that the Reid Nfd. Co. were not doing their duty in trying to keep the streets clear and to carry out the Council's regulations. The Engineer referred to the practice of some shopkeepers throwing ice and snow from their doors into the middle of the street. In future those caught doing so will be prosecuted. The Reid Nfd. Co.'s deposit will be used to clear the snow off the streets if they do not do the work themselves.

Councillor Mullaly then introduced his amended resolution as follows:—Section 5, namely:—RESOLVED that all residents of the city, of the full age of twenty-one years, and who are not already paying property or other taxes, shall pay to the city the sum of one dollar per year, to be collected in a manner prescribed by rules and regulations to be provided. He proposed to amend by the addition, after the word taxes, of the words:

"And who shall have resided in the city for at least one year previous to a Municipal Election."

He also wished to add the following section:—That the Act shall be so amended as to entitle all taxpayers, whether they reside in the city or not, to a vote at Municipal Elections, provided that such are permanent residents of the Colony.

Councillors Ryan and Channing opposed the resolutions, and as there was no second, Councillor Myrick said he would second the resolution provided that the tax be made \$2 instead of \$1. Councillor Mullaly preferred to stick to the original motion, and on being put there were Mullaly, Myrick and Coaker in favor, and Martin, Ryan and Channing against. The Mayor gave his casting vote contra.

The meeting closed at 11 o'clock.

## A Story on Himself.

Here is a story which Professor Bailey of Cornell enjoys telling on himself. One day he dropped into an old book emporium in a certain western New York city, and there found an edition which he wanted. Asking its price of the bookseller, he was told that it was \$5. Thinking this rather steep, Professor Bailey said: "Don't you think that is a pretty high price for an old book?" "Well," said the bookseller, "it may seem so to you, but it really doesn't make any difference to me whether you buy the book or not, for there's an old fool down at Ithaca by the name of Bailey who'll take it at \$5 just as soon as I offer it to him."—Evening Post.

## SEALS IN CONCEPTION-BAY.

By the shore train last night we learn that the past few days seals were very numerous about Port de Grave and Cupids and quite a number had been killed. When they made their appearance a few weeks ago a large number were also killed. Not for many years had seals been so plentiful in the bay.

## INJURED PLAYING HOCKEY.

In the game of last night Lloyd Woods suffered a nasty accident. He received a blow from a hockey stick which laid open his right cheek, the wound being an ugly one. Bulley had his nose injured also, and Stick being thrown against the fence was injured. In a previous game Woods had his left cheek also cut.

## In The Haunted Chamber.

The London Bystander tells this ghost story. A Mr. Melville, who was spending a week with friends, was informed that he would have to sleep in the haunted chamber. He retired and was awakened by the door opening and a figure entering the room. Suddenly he felt a small light weighted object put on his legs. He held his breath, thinking a practical joke was being played. The figure retired an instant, then returned. Another weight was deposited on the coverlet. This operation was repeated for half an hour, until he was covered with various unknown objects of unknown specific gravity. Terror or something kept Mr. Melville awake for the rest of the night. When dawn broke he found that the butler, walking in his sleep, had laid the four posted bed with a dinner service of twenty-four "couverts."

## The Lord Mayor's Coach.

The coach of London's Lord Mayor, used in the annual procession, has probably had more money expended

upon it than any horse-drawn vehicle in the world. Originally costing something more than \$5,000, and now 150 years old, but still used, more than \$100,000 has been paid out in refurbishing it for the sole occasion when it is made use of each year.

A more modern coach could be had for the cost of five years' repairs, but a new coach would never seen the same to the London public who line the Strand for the November parade. It is probably that the Lord Mayor of a century hence will ride in the same equipage, although the coach has been repaired so often that practically nothing of the original vehicle remains.

Minard's Liniment Co., Limited.

Some time ago I had a bad attack of Quinsy which laid me up for two weeks and cost a lot of money.

Finding the lump again forming in my throat, I bathed freely with MINARD'S LINIMENT, and saturating a cloth with the liniment left it on all night.

Next morning the swelling was gone and I attributed the warding off of an attack of Quinsy to the free use of MINARD'S LINIMENT.
