# The Tonnage

LENGTHY CONFERENCE LAST EVENING.

The tonnage question was thoroughly gone into at a conference held in the Board of Trade Rooms last evening. Those present were the committee appointed by the Board of Trade, namely: Hon, M. G. Winter, Messrs. R. F. Horwood, Geo. Williams and C. Blackburn, and the committee appointed by the Government. consistenthusiastic in her praises of Dodd's Kidney Pills.

"Dodd's Kidney Pills have helped me wonderfully," Mrs. Garlis says in an interview. "A year ago I was so bad with my back I could hardly move. I took four boxes of Dodd's Kidney Pills and they helped me more than I can tell you."

Mrs. Garlis is now able to attend to her household duties as well as nurse her fine big baby boy and she feels that she cannot recommend belonged to the general meeting to the general meeting held to the general meeting to the general meeting held to the general meeting to pointed by the Government, consisting of the Prime Minister, Hons. H he quoted the subjoined resolution adopted at that meeting and forward ed to the Government for considera tion: "That this meeting of the New-foundland Board of Trade having considered the inadequacy of the sup plies of tonnage to meet the require President and Council to invite His Majesty's Government to join them in the selection and appointment of a committee for the purpose of further investigating this matter and of mak-

adjust the supply of tonnage to th

Colony's requirements."

He then dwelt with correspondence

which had transpired between the Government and Opposition, asking for the co-operation of the latter and the reply of the Leader of the Opposi tion, Mr. Kent, indicating that the Opposition would view favorably any ction, fair and reasonable, taken b action, fair and reasonable, taken by the Government, but pointing out that the Executive Government were to accept the responsibility. Continuing, the Premier said that four important matters were the freighti chandise. The salt supply was essential to the trade of the colony, though scarcity of the other commodities might cause inconvenience. Without salt our fisheries would be valueless. He read correspondence that had oc-curred between himself and Lord Rothermere, resulting in the steamers SEALERS ARRIVE. - Over eighty by the Admiralty to bring two cargos of salt from Cadiz to St. John's Dealing with coal he said that presen stocks would supply the town till June next. Co-operation between effect an arrangement to bring all the coal needed for household purposes between now and the beginning of comprised Sir William Horwood, representing His Excellency the Governor, attended by Capt. Goodridges. A. D. C., Mr. Justice Johnson, the members of the Law Society, the Premier and members of both brandary of the Law Society, the Premier and members of both brandary from

OLD LADY STRICKEN. —For the next winter. Regarding the flour question, he stated that the average annual importation was 360,000 bar rels, half of which passes through the Reid Co.'s system and the other half by direct steam from Montreal and the Red Cross boats from New York wrecked crew of the schr. Montana which met her fate in St. Pierre Roads on Saturday last, are now on their schr. John's.

Between May and November last year 100,000 brls, were brought from Montreal by foreign ships. There were no ships in sight now to meet the four situation, though, he thought, THIRTY-FOUR HOURS RUN—The express which reached town at 3.45 p.m. yesterday made the run across country in 34 hours which is fairly good considering the season of the year the whole situation was taken up and dealt with intelligently. He felt sure this would be done by the trade upon which the responsibility rests and he gave the meeting the assurance that the government would co-operate in the government would co-operate in the yeary way possible. He suggested that sub-committees be appointed to deal with each subject separately.

Mrs. Margaret Morris, relict of the late Capt. S. Morris, passed peacefully away at her residence, Long's Hill, at the ripe age of 85 years. Mrs. Morris was one of the very few good old surviving housewives of former days. She was well known in the division of the late Capt. S. Morris, relict of the late Capt. S. #### Patriotism. By GEORGE FITCH

Author of "At Good Old Slawsh"

Patriotism is a strange and mysterious enthusiasm which inspires men to go out on the battlefield and get shot into human colanders in defense of their country.

It also leads men to stand up in trying to build up a worn-out nervous system on so-called torics.

New material from which to rebuild used up tissue cells is what should be supplied, and this can be obtained only from proper food.

It also leads men to stand up to public places and make invidious republic places and make invid public places and make invidious refrom proper food.

"I found myself on the verge of a nervous collapse, due to overwork and study, and to illness in the fam-

merchandise. A conclusion followed as to the General discussion followed as the General discussion foll

ed it to a grateful nation to use on its postage stamps. Even China has now accumulated enough patriots to make trouble for the chief object of the patriot is to furnish trouble. Countries which have had plenty of patriots have had severe internal pains, but have become mighty, while countries who have run out of patriots have slumbered peacefully along and have

heavy liabilities. Nowadays, America is so rich and powerful that the American patriot cannot fight for his country, but must save it in other ways. This is going

finally gone out of business with
