Flanking Operations Successful and Boers Fled in Disorder.

Point Gained of Considerable Advant. age-Gen. Buller's Coming Fight at Tugela River Premises to Be the Mest Momentous of the Whole Campaign-Has to Face Own Guns and 620 Rounds

Rensburg, Cape Colony, Jan. 2.—Gen. French has completely defeated the Boers and occupied Colesburg.

The general continued to keep the Boers on the move, and pressed them closely Saturday and Sunday, giving them no time to make a prolonged stand, and when day broke he was within striking distance of the enemy. Sunday night all the cavalry artillery Sunday night all the cavalry, artillery and infantry, the latter riding in wagons to increase the general mobility, started upon a night march with the object of turning the Boers' with the object of turning the Boers' with the object of turning the Boers' right. The flank operations were successful. The infantry and field batteries immediately made a feint attack, and while this was proceeding the cavalry and light artillery got completely around the enemy's right flank, as arranged. The program worked without a hitch. The Boers were utterly surprised and, finding their retreat threatened, fled in disorder to the eastward, leaving Colesburg in Gen. French's hands. burg in Gen. French's hands.

HOW FRENCH DID IT

Boers Abandoned a Gun, Which Was Captured by the British.

London, Jan. 2 .- The Daily Mail London, Jan. 2.—The Daily Mail has the following despatch, dated Jan. 1, from Rensburg: "Yesterday afternoon a big force of cavalry and infantry, with ten guns, under the personal command of General French, moving by detour, occupied some hills three miles from Colesberg, where the Boers were in strength, confident in the natural aid afforded them by the hills. "The enemy's position extended six miles around the entire village. At daybreak our artillery opened the battle. The Boers were taken by surprise, but replied vigorously. An artillery duel was maintained for two hours. Then a Boer Hotchkiss collapsed and was abandoned. We

Boer retreat by a damaging sneiffre.

Colesburg is in 6ur hands and the few remaining Loyalists are jubil-ant. We have captured many wagons and a considerable quantity of stores.

Our losses were slight, but the Boers must have suffered heavily.

They may ston at Achiertang, or They may stop at Achtertang, or cross the river at Norval's Pont, where the bridge is still intact. What Buller Has to Meet.

London, Jan. 2.—The Standard's correspondent at Frere Camp, telegraphing on Jan. 1, says: Sir Charles Warren's division is now nearly complete. Its headquarters will be at the guns which were captured from Gen. Buller at Colenso have been unted in the hills commanding the mounted in the hills commanding the drift over the Tugela River at Springfield. The Boers, it appears, captured 620 rounds of shrapnel when they took the guns. Gen. Buller's difficulties have been immeasurably increased by the enforced delay since the last engagement. He has now before him a series of walled and fortified hills, running 16 miles along the tified hills, running 16 miles along the line of the Tugela. These are swarming with the enemy, posted in posi-tions of great strength, and bristling with guns, while the river in front is in full flood. The coming battle will certainly be the stiffest and probably the most momentous of the entire

A WELCOME RAY OF LIGHT.

French's Successful Tactics Should Teach

London, Jan. 2 .- (4.30 a.m.) - The Boars of Gen. French in driving the Boers from Colesburg has sent a welcome ray of light through the gloom of the campaign in South Africa. Everywhere it is commented upon as an example of sound tactics, and as an illustration of what may be done e richt methods are employ-ed with the Boers. The Government

s urged to take the lesson to heart and see that no stone is left unturnd in the endeavor to get the largest ossible force of cavalry and mounted nfantry to the front. Now that Gen. French has the Boers

on the run, the hope is expressed that he will give them no rest, but will harass them until they have found their way across the Orange River, which is 12 miles distant. The old wagon route to the Free State traverses Colesburg, and crosses the river by a fine bridge, 1,340 feet long. It is believed that the Boers retreated towards Norval's Point, further east; and the question is whether Gen. French will be able to secure these two bridges before the Boers destroy them. One important fact of the success of General French is that it will wroughly have a dataset. is that it will probably have a deterrent influence on Dutch disaffection.

At Modder River.

At Modder River the Boers appear be modifying somewhat their defence. General Buller's sc have destroyed a Boer camp estab-lished in the vicinity of Springfield, southwest of Colenso, by a Free State commando. A similar movement has been made at Modder River. A large force of Boers, it is reported, has formed a new laager about 15 miles down the street at Kameelhock.

Government to Provide for an Increase

Paris, Dec. 30.—The Government will submit to the Chamber of Deputies at the beginning of January a bill providing for the defence of the French coasts and colonies, and to increase the strength of the fleet. This does not involve an increase in the expenditure. The cost of the defence of the coasts and colonies is estimated at 120,000,000 francs, spread over two and a half years. This sum will be provided for by 50,000,000 francs annually, set aside to pay off certain bonds, and which become free this year by the final repayment of these bonds.
