## VIVID PICTURES OF THE FRENCH REVOLUTI

The Recollections of Baron de Frenilly Published-A Royalist® Point of View-The Days of the Terror-A Vivacious Narrative.

writers who but for this convulsion would today be altogether forgotten. The "Recollections of Baron de Frenilly" offer a notable addition to this most fascinating literature. Born twenty-one years before the meeting of the states general, of the rich finanhe saw from the inside, first the world which seemed as if it never could be moved, then the world which utterly destroyed it. A royalist of royalists, he experienced all the vicissitudes of fortune which reversed so completely the accepted standards. Now he is a young Parisian million-aire. Now he is hiding in the provinces, a suspected fugitive, or wanpathy. France sweeping out beyond its frontiers and conquering all the world; and watched again the world in arms against her, marching into the hither-to inviolate capital. He desired in the restoration the extirpation of the revolutionary idea, the re-establish-ment of the old regime in all its imment of the old regime in all its impossibilities. And he denounced the returned Bourbons because they had the sense to see, in all their follies, politics during those days of order. ic shook the dust of it from off his feet, and departed into self-chosen exile.

greedy and unscrupulous adventurers. A whiff of grapeshot, and little deter- stroyed them all. ination on the part of Louis, could have choked it in its birth. One of his earliest recollections is of Volhis earliest recollections is of Volhis earliest recollections and ballad-making city, the enemy of its masters"—exhibited a society still her father.

Design and ballad-making city, the enemy of in love with her and was repelled by the three powers, and Kosciusko fell her father. taire's triumphant visit to Paris, and playing with the revolutionary ideas, In despair, Kosciusko flung himself in the vortex of the battle, covered
