MENT PROPOSAL. Professional versus Lay Opinion-Aid. Hailam's Scheme for Haising the Money-The Closure of the Eastern Gap. A mass meeting of the ratepayers was held in St. Lawrence hall last hight to con- sider the harbor question. Owing to ne- glect in advertising properly the meeting was attended by about one hundred citizens only, but everyone was a representative man. The professional opinions expressed were all in support of closing the eastern gap, as recommended by Captain Eads ; the	storms like the recent one and little of the island would be left. Ex.Ald. Manning said the gap was made twenty-five years ago. It was fortunate that it was made from a health point of view. He approved of the resolution. He would like to know the probable cost. He could not concur with Capt. Eads as to the closure of the eastern gap or the removal of present western channel nearer Hanlan's. He would crib the south side of the present western channel and fill up the flats to Hanlan's. He thought they could not build both the trunk sewer and improve the harbor at the same time. He did not know how the closure of the eastern gap would save the island. It would be a tremendeus mistake to close the gap at the east end. To close the Queen's wharf en- trance would damage the property in that locality. He thought the motion should be more definite as to the nature of the improvement and its cost. He thought the harbor dues should go towards paying	LUMBERMEN AT WAR. A Racket on the Bu LievreAn Inter- esting Case in Court. OTTAWA, April 20A few days ago a large force of men in the employ of Ross Brothers of Buckinham invaded the pro- perty of Holland Brothers on the Du Lievre, and demolished a house and barn occupied by Joshua Ellard, while he was absent at work. The affair arcse out of a dispute as to the proprietorship of certain timber limits and to the Hollands claiming that the Ross Brothers were trespassing on their property and cutting timber. To prevent further trespass they placed a man named Joshua Ellard upon the property, giving him a three years' lease of it and instructing him to protect the timber, and a dam was built across the stream to prevent any being floated down.
