The World's despatch from Belleville yesterday got badly muddled in Sir John
Thompson's evening speech at the Corby
banquet. It was an impromptu address and
was really one of the best campaign efforts
he has ever made. He spoke very feelingly
of the old leaders, and he claimed no special
ability on the part of himself to wear their
mantle. Nevertheless, the whole tone of the
speech was that Sir John Thompson had accepted the high trust at the command of his
supporters in Parliament and throughout the country, and that, having assumed the trust, he was bent upon discharging its many and great responsibilities to the best of his ability.

He spoke as a man of fearless resolve and the spoke as a man of fearless resolve and determination, and he gave Mr. D'Alton McCarthy to understand that he must regard that gentleman's previous efforts as an attempt to not only disrupt the Conservative party but to break up the country. In other words, Sir John Thompson in assuming the leadership has determined to rute the country on the principle of conciliation rather than by the proscription of any race or creed. He did not mean by this that he or creed. He did not mean by this that he

as they are termed, on the carpet for the r and entertainment of the politica chiefs of both sides, who are now stumpi the country, as well as for their glorificati Most of these are being held in small place and the object apparently of the vario committees which have charge of them is give them an imposing appearance. To the end most of them strive to get as big a hal as possible, to seat as many as they can at tract, to print a bill of fare with not le than fifty different things upon it, and to bestrew the room with all kinds of mottoe and the tables with all kinds of decoration If these gentlemen will take a little advice from The World, and the result of an experence of a great mapy of such affairs they will change their tactics. In the first place let them consul some man who has good experience fare is narrowed to three or four substantia

plates, and above all see that the service i sufficient, and such as not to keep everyon At a recent and very elaborate affair of this kind the pantry adjoining the banqueting hall was accessible by one door, and reporter, while he was waiting to get som oysters, counted twenty waiters line up a the narrow door in question, trying to get into the pantry. This banquet, with all it elaborate preparations, found itself collaps. at its weakest point, and its weakest point

happened to be the aforesaid narrow pantry What reporters notice at many of these affairs is that, while the table for the "di tinguished guests" is spread with all kinds of provision and has a sufficiency of waiters there is rather a meagre spread pr vided for the chaps who buy the tickets.

If the enterprising gentlemen in charge of these banquets will get it into their heads to have a modest bill of fare, limited to a fer articles, and provide plenty of waiters, and not load up their tables with all kinds of un necessary truck, and give each guest a littl elbow room, they will succeed in makin, everyone happy, and they will elicit speech of the same character from their guests, an all will go merry as a marriage bell. Bu to try and entertain even a strong partisa by offering him an elaborate bill of far printed in two colors of ink, and nothin, else, and limiting his space so that he i shoving into his neighbor's elbow, it is likely that he will soon lose his temper and forge to cheer the chief when the managers of th entertainment expect that duty from him What, for instance, is the good of an elabor ate table and a great big bill of fare an flowers and wax candles, if a man cann find a little pepper box and some salt to savor his oysters within 10 feet of him?

We learn from Mr. Thomas Bradshaw, th actuary of the North American Life Insur ance Company, that the net present value of an annuity of \$560 per annum, payable s long as either of two lives, aged now 55 an 73, survive, reckoning interest at 4 per cent. is \$6563.48. This calculation is based upo the tables of the Institute of Actuaries Great Britain). The above figure represent the actual present sum that the city will pay Dr. Larratt Smith for the 14 acres the he has offered to deed the city, provide the latter accept it. And yet Mayor Flening, representing the city, refuses Dr. Smith property at this valuation. This offer is more of a gift than a sale. The property is worth probably three or four times what Dr. Smith asks for it. Of one thing we are certain, that there is no comparison in point o advantage between Dr. Smith's 14 acres a \$6500, and the Chapman water lots, near High Park, at \$35,000. It is hard to under stand why Mayor Fleming was so anxious to acquire the Chapman property, when the city already possessed 600 acres adjoining it and it is equally difficult to understand whehe has refused to accept Dr. Smith's 14 acres located as they are in a quarter of the city where an addition to our park lands would l very desirable. If Mayor Fleming still refuses to accept Dr. Smith's property the council should take steps to compel him to

sign the necessary papers. The World's Man Wins. The World was the first newspaper to advance the name of W. B. Scarth as prospective Lieutenant-Governor of Manitoba. Mail championed the cause of Mr. A. W Ross for reasons known to itself and its man ager. The Empire, governed by the reti-cence of an out-and-out party organ, has nothing to say. But yesterday both thes enterprising journals came into line and pronounced the victory of Mr. Scarth. high offices are to be given for services ren-dered and capacity this is as it should be. A more consistent worker than Mr. Scarth i

be found in Canada, and he has at the same time always commanded the respect of his opponents. Courteous, generous and always a gentleman, he is the stuff of which lieutenant-governors should be made, and Winnipeg has not always been fortunate in having as the nominal head of its society a gentleaum and lady so entirely fitted for the discharge 20 and lady so entirely fitted for the disc.

All that he held out for them was that he was bound to give them whatever the constitution called for, and no more. In a word, Sir John proposes to be a constitutional ruler, but one who does not ignore the fact that he can only succeed in such a work by enforcing it in a conciliatory way.

As The World said the other day, Sir John Thompson has no intention of abandoning Canadian politics or seeking an outlet for his wonderful energy in any field other than in the service of his own country. The more the people of Ontario get to know of him the more they will be convinced of his great powers of remarkably sound judgment, of his capacity for never making a mistake and for living up to the very letter of the principle he adopts and defines. Nor is he to be frightened from what he considers to be his duty by any report that he is distrusted by a purtion of his own party, or that his reign will end in its disruption. Sir John Thompson is a man of courage and a match for such as seek to thwart him on other than public grounds.

A LAKEPORT MIRACLE

AN EXPERIENCE FEW COULD PASS

THROUGH AND SURVIVE. Broken Down by Congestion of the Lungs

and La Grippe-Weary Months of Sleepless Suffering-A Narrow Escape [From The Colborne Enterprise.] The village of Lakeport, in the County of Northumberland, is beautifully situated on miles from the town of Colborne. The location of the village is picturesque an of Lakeport are a vigorous people, with very little troubled sickness. But there are exceptions, and even in this healthy locality occasional cases of suffering and long months of weary sickness are found. Among those thus unfortunate was Mrs. Milo Haight, who for nearly two years was a great sufferer, sickness having made such inroads in her constitution that she was almost a complete wreck physically. Although a young woman her system had run down until life had become almost a burden. She had consulted physicians and tried many remedies, but no relief. was found. Her attention was finally directed to Dr. Williams' Pink Pills for Pale People, and having read of the many wonderful cure accomplished through the use of this great live-saving remedy was induced to give them a trial. The result exceeded her fondest expectations, and before plong she was restored to her former health and strength. Having heard of this case The Enterprise reporter called on Mrs. Haight and enquired into the facts, which are given almost verbatim in the following statement: "I was ill for about 12 weeks in the latter part of 1891, while at home with my father in Trenton. I came to Lakeport, but was here only a few weeks when I was taken with inflammation of the bowels. After I sufficiently recovered I returned to Trenton. I had not been at home long when I was attacked with la grippe, which nearly brought me to death's door. A physician was called, who said my system was badly run down. This was in February, 1892, and I was under his care for some twenty weeks before I was able to get out of doors. When I was taken down congestion of the lungs and spine set in and then the trouble went to my throat, and lastly to my ear, causing an abscess, which gathered and broke three times, leaving me quite deaf. I suffered the most excruciating pains, sleep left me and I could not rest. I suffered continually with cold chills and cold hands and feet and severe headaches. The doctor gave me no hope of recovery. As soon as I was able I returned to

rills for rheumatism, and being present during the interview gave his testimony to their benefit to him. Mrs. Haight's present appearance indicates the best of health, and no one who did not know of her long suffering would imagine from her present appearance that she had ever been sick. Her case is one that cannot but give the strongest hope to other sufferers that they too may be cured by Dr. Williams' wonderful Pink Pills, whose action upon the human system seems almost magical.

other sufferers that they too may be cured by Dr. Williams' wonderful Pink Pills, whose action upon the human system seems almostmagical.

Dr. Williams' Pink Pills for Pale People are manufactured by the Dr. Williams' Medicine Company of Brockville, Ont., and Schenectady, N.Y. Pink Pills are not a patent medicine but a prescription. An analysis of their properties shows that these pills are an unfailing specific for all diseases arising from an impoverished condition of the blood or from an impairment of the nervous system, such as loss of appetite, depression of spirits, anæmia, chlorosis or green sickness, general muscular weakness, dizziness, loss of memory, locomotor ataxia, paralysis, sciatica, rheumatism, St. Vitus' dance, the after-effects of la grippe, acrofula, chronic crysipelas, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressions and all forms of female weakness, building anew the blood and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses of any nature. These pills are not a purgative medicine. They contain only life-giving properties, and nothing that could injure the most delicate system.

Dr. Williams' Pink Pills are sold only in boxes bearing the firm's trade mark and wrapper (printed in red ink). Bear in mind that Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. Ask your deafer for Dr. Williams' Pink Pills for Pale People and refuse all imitations and substitutes.

Dr. Williams' Pink Pills may be had of, and properties.

People and refuse all imitations and substitutes.

Dr. Williams' Pink Pills may be had of al druggists or direct by mail from Dr. Williams Medicine Company from either address, a 50 cents a box, or 6 boxes for \$2.50. The price at which these pills are sold makes course of treatment comparatively inexpensive as compared with other remedies of medical treatment.
