

## This Medicine Is Breathed!

Have You a Cold?—It Can Be Completely Cured By

## Catarrhozone

It Quickly Cures Whooping Cough, Grippe, Bronchitis, Catarrh, Hay-Fever, Asthma, and Colds.

Catarrhozone is not like other remedies, but is so healing and soothing that when it is breathed through the inhaler it kills the germs that cause diseases of the throat and lungs. Catarrhozone quickly soothes and heals the mucous surfaces so that in a short time the whole mucous lining is healed.

If you are subject to throat irritation or have a tendency to consumption you should use the "Medicine that is breathed."

Thousands who have used it tell of its merit.

Air which you breathe through the Catarrhozone inhaler carries healing to the very spot affected, and there is no chance of failure by going to the wrong place. That is why it cures.

## Catarrhozone

Approved by Doctors, Druggists, and thousands of Canadian people who have used it. Little drops of healing for weak places in the throat and nasal passages—that's Catarrhozone.

Three sizes, 25c., 50c., and \$1.00, at druggists or by mail, postpaid, from The Catarrhozone Co., Buffalo, N.Y., and Kingston, Ont.

To Teachers and Trustees.

Ontario Agricultural College, Guelph, March 1, 1911. To School Teachers and Trustees of Ontario:

The attention of teachers and trustees who may be desirous of introducing some measure of agricultural teaching into the work of their schools or of improving their school surroundings by planting trees, shrubs or vines, is called to the work of the Schools' Division of the Ex- perimental Union, one of the extension

branches of the Ontario Farmers' Tech- nical College, viz.: The Ontario Agricul- tural College.

This organization was started two years ago for the purpose of bringing the schools of the Province into closer con- nection with the College. The work is now past the experimental stage. In 1909 there were 117 schools co-operating in the work and last year 237 schools. It is expected that this year there will be a much larger number of schools taking up the work. Interest in industrial or voca- tional education is growing, and with our Government taking legislative steps to support this line of work, it should not be long before practically every school in Ontario has modified its work in the direction of giving the boys and girls some practical instruction of Agriculture into the curriculum of the Public Schools has been tried several times. The plans offered by the Schools' Division may be found to help in the solution of this prob- lem.

For this year the Schools' Division is arranging to send out seed packets for children's gardening, seed grain for small experimental plots, shrubs, vines and tulip bulbs for school ground improve- ment; tree seeds and agricultural seeds, are also included in its distribution. To schools undertaking to frame it and give it a place on the walls, a picture of the Agricultural College is sent free also. For some of these things no charge is made, provided the material is used strict- ly for educational purposes; for most of the material, however, a charge is made as it is not possible, nor considered ad- visable, to undertake a free distribution of valuable material.

In all phases of the work, teachers and pupils are provided with instruction sheets, booklets or charts; they are not left alone in the work, but have the ex- perience and co-operation of others who are doing the same kind of work else- where.

Any teachers or trustees interested in the work may secure information regard- ing it by addressing as below.

S. B. MCCREADY, Director, Schools' Division, Experimental Union O. A. College, Guelph, Canada.

### An Interesting Report.

Published elsewhere in this issue is the Annual Report for the past year of the Board of Directors of the Canada Cement Company, as read by the President, to the Shareholders, at the Annual Meeting held in Montreal on the 21st of February. The frank statement of the policy and the general attitude of fairness evidenced by this address, are such as to warrant more than passing comment. Any lay member of the community reading the Report must surely feel disposed to echo the hope expressed by the President, that the increased demand and the increased output in the year to come will result in further savings in the cost of manufac- ture; and it further cannot be but felt by the public at large that any such reduc- tions that may be obtained will, accord- ing to the broad-minded policy of the Company, be used as an advantage to the customers of the Company—the concern depending for their profits upon increas- ing volume of business.

Especially interesting is the statement that the policy of the Company is such as to tend towards equalization of the price of cement throughout Canada so far as possible. Another noteworthy feature of the Re- port is the provision made for employees to become possessors of stock. This is, as pointed out, a policy already in force in some of the larger institutions, and shows that the Canada Cement Company are quick to appreciate any means of stimulating interest and confidence upon the part of the staff.

The strong financial position of the Company is a well known fact, and that it is necessary to ensure the continued success of the concern is continued pros- perity of the country, together with an increased realization of the importance and economy of cement as a building material.

IGNORANCE IS A CURSE.—"Know thy- self is a good admonition, whether re- ferring to one's physical condition or moral habits. The man who is ac- quainted with himself will know how to act when any disarrangement in his system manifests itself. Dr. Thomas' Elec- tric Oil is a cheap and simple medicine for the eradication of pain from the system and for the cure of all bronchial troubles."

## You Can Get FREE a 50c. Bottle of Psychine (Si-Keen)

Because we want you to know this wonderful remedy as we know it.

Do you know another such sweeping proposition as ours?

Did you ever hear of anyone offer- ing to prove any curative preparation along similar lines?

All the risk is ours, all the cost is ours.

You yourself are to be the sole judge of all we claim for Psychine.

Its beneficial effect alone will tell you, without prejudice, without any self-interest from any source.

It shows our confidence—this plan—does it not?

Yet our confidence to us is not phenomenal, not out of the way.

Nor would our confidence seem ex- traordinary to you were you in our place, and were you to know the things we know.

\*\*\*

We've known Psychine for a third of a century—almost a generation. We know of the hundreds of thou- sands it has cured.

We have hundreds of thousands of unsolicited testimonials.

It doesn't require any great stretch of confidence to know from facts like these.

\*\*\*

Psychine cures by increasing and strengthening the white corpuscles of the blood, or phagocytes.

These white corpuscles eat every disease germ that finds entrance to the body, when they're strong enough and in sufficient numbers.

And Psychine builds these white corpuscles because of certain medical herbs it contains, nature's true remedy.

Which science now knows will do just that.

We go to great expense to make Psychine.

Our materials come from the ends of the earth.

They are compounded in one of the finest laboratories, in apparatus that is costly in the extreme.

But costly and all as it is we know what it will do, hence the reason of our buying a 50-cent bottle from your druggist and giving it you, free.

Now if you have any of these al- lements, fill out the coupon and mail it to us to-day.

You'll never regret your decision so to do.

Sixty-eight per cent. of New York theater patrons are women. This does not include the matinee attendance, where they are almost unanimous.

"Were you nervous when you proposed to your wife?" asked the sentimental person. "No," replied Mr. Meekton, "but if I could have foreseen the next ten years I would have been."

"Where can I get some of Holloway's Corn Cure? I was entirely cured of my corns by this remedy and I wish some more of it for my friends." So writes Mr. J. W. Brown, Chicago.

After much experiment the French government has decided not to adopt aluminum coinage, because it is too light, and will slip through the fingers un- noticed. Experiments are now being conducted with bronze containing 10 per cent. of aluminum, which, if adopted, would reduce the weight of coins about one-half.

### Stomach Troubles

Cured by Vinol

HERE IS PROOF

"I suffered so long from stomach trouble and indigestion, that I lost flesh rapidly—VINOL cured me after everything else had failed. It strengthened my digestive organs—gave me a hearty appetite, and I can eat anything without the slightest distress. I do not believe anything equals VINOL for stomach trouble and indigestion."

W. E. WATERHOUSE, Portland, Me.

Mr. Thos. G. Wallace, of Detroit, Mich., writes, "I suffered for years from a chronic stomach trouble. VINOL entirely cured me after everything else had failed."

It is the curative medicinal ele- ments of the cod's liver, combined with the strengthening properties of tonic iron contained in VINOL, which makes it so successful in re- storing perfect digestion, and at the same time building up the weak- ened run-down system.

Try a bottle of VINOL with the understanding that your money will be returned if it does not help you.
