NEW-BRUNSWICK.

Volume 3. SAINT ANDREWS, THURSDAY, DECEMBER 8, 1836. Number 3 Eura.

As the Constitution of Upper Canada secures to British Emigrants their own revered. Institutions-as this noble climate and lux uriant soil offers them immediate independence and support, with a moral injurance that their land, whether it be cultivated For if love should ever kill. or ill, must in a few years unavoidably increase in value to a great extent-we may reasonably expect that the redundant enter prise, capital and population of the Empire, will now flow towards this favoured Province, L'y heart is now and ever will His Excellency the Lieut Governor was in which I conscientiously believe British Capital to be as secure as it is in the Mother

of Assembly, and then addressed both Houses Gentlemen of the House of Assembly: of the Provincial Parliament in the following SPECII: I trust you will take immediate measures. for relieving the Government of this Province, Honorable Gentlemen of the Legislative from the embarrassments it has laboured un. der, and is still suffering, from the Supplies having been withheld.

on the loyal feeling which prevades this ther with estimates for the sums required for the support of the Civil Gavernment, for the support of the Civil Gavernment, for With great satisfaction I congratulate you The suspicious tranquility of the country the current and ensuing years, to be laid be-

offers you advantages, which the Legislature fore you.

If you advantages, which the Legislature fore you.

If no rable Gentlimen: and Gentlimen: I teel confident that the distinguished and deprived of, and I gladly avail myself of the opportunity, to bring before your grave con-picuous station which the paople of Upper Canada have attained in the estimation of a most animated appearance, from the portunity of the subjects, which the part and only of the Engineers but of the civilized number of gentlemen gorgeously apparelled, I take self confidence that by moderation public good.

I take self confidence that by moderation public good.

As regards the duty of my situation in the with the usual formalnies, Mrs. Speaker and obstacles that have hitherto attended its Legislature, it is my intension so long as they about 120 members wearing feathers, and discussion.

The banificent intentions of His Majesty in myself to the best of my ability, in the improvement of the Country—in the farming a distrect of incorporation to the University of King's College, have hitherto majesty in majesty in the months and in the incorporation to the been productive of the next of the

en productive of no useful result.

In calling your attention to this fact, 1 set that the Province will shortly be indebt.

The constant obedience which the British . 1 continue to rec

promotion of general education, are so intiof this Colory that I feel confident they will The term which intervenes between the Courts of Oprand Terminer in this Province has repudated this libel on the land—and ling caps about such a trifle, and allow the Courts of Orr and Terminer in this Province has repudiated this libel on the land—and ling caps about such a —the consquent crowded state of the Gaols both reason and truth are now daily demonstrate in attorns to be at peace. as well such length of imprisonment suf-fered by perior charged with crime, are evils which I deely lament, and I trust you will his, property and liberty, is that honorable

no inclination to de so.

I feel it my duty to call your attention, to Grateful for the manly support which the lu the advantages which would be derived from expr opening communications, by which the agricultural produce of this Province, might read to assure you of my determination, to carry in your galleries, nor offend public decency into effect his Majesty's Instructions, and by exhibiting whiskers and such like manify R.
