HALLIDIE :- ROPEWAY

For the transportation of Ore, Fuel and other Material

Over rugged and mountainous regions, the HALLIDIE ROPEWAY stands pre-eminent as to simplicity, efficiency and economy. In the removing of large quantities of rock, sand, gravel, earth, etc., to construct levees, dams or embankments, in excavating canals or cuts, in transporting sugar cane, etc., more efficient work can be done at less cost by this system than by any other. Twenty-five years' experience. Hundreds of lines constructed 500 to 25,000 feet long. Address: CATALOGUES ON APPLICATION.

➤ "VALVE-OLEINE" ⚡

675 DEGREES FIRE TEST.

MASTER MECHANICS, Purchasing Agents, Engineers and Practical Builders of costly Steam Plants and Locomotives, etc., will be pleased to know that a Lubricant is now produced of such extraordinary high fire test as to make it proof against the great heat to which it is subjected, and is therefore a PERFECT lubricator where products of lower grade and fire tests pass off at once, leaving the parts subject to wear, or greatly increasing the consumption of oil.

"VALVE-OLEINE" is a product in the highest state of filtration, is of the greatest viscosity, is entirely free from all acids and absolutely non-corrosive and without doubt the finest and most thoroughly reliable CYLINDER LUBRICANT now on the market, and will naturally lubricate and save to 300 per cent. more than products of lower tests. It is not only the BEST, but the most ECONOMICAL lubricant. Manufactured and sale controlled exclusively by

THE RELIANCE OIL AND GREASE COMPANY,
