We direct special attention to the following remarkable statement:

For many years I suffered from Catarrh, which destroyed my hearing, and for twenty-five years I was so deaf that I could not hear a clock strike by holding my ear against it. I had tried every known remedy, and nothing gave me the slightest relief. I obtained Dr. Moore's treatment, and in three weeks my hearing began to improve and now I can hear common conversation across a room; can hear a clock strike in an adjoining room, 30 feet away. I think I am entirely cured, and my hearing permanently restored.

EDWIN COLEMAN, Maize, Kas.

Medicines for 3 Months' Treatment Free.

To introduce this treatment and prove beyond doubt that it will cure Deafness, Catarrh, Throat and Lung Diseases, I will for a short time, send Medicines for three months' treatment free.

THE BEAUTY OF SOME PIANOS

Is only "case deep." It is much easier to make a handsome case than it is to put music into it. A tolerable mechanic can do the one—the other requires the best thought of a musical artist.

The Karn Pianos

All have handsome, tasteful, durable cases; but in their factory, constant, careful, studious attention is given to the production of a perfect and lasting tone. The beauty and honesty of the Karn begins with the varnish on the case and goes straight through to the iron plate that holds the strings. We'd like to show you the inside of a Karn.

Province of Ontario.**Forty-Year Annuities.**

The undersigned will receive TENDERS for the Purchase of Terminable Annuities running for a period of forty years, issued by the Province of Ontario under authority of an Act of the Provincial Parliament (47 Vict., cap. 31.)

The Annuities will be in the form of certificates signed by the Provincial Treasurer guaranteeing half-yearly payments at the office of the Provincial Treasurer in Toronto of sums of \$100, or larger sums, on the 30th day of June and 31st day of December in each year for forty years from 30th day of June next, the first half-yearly certificates being payable on the 31st December next.

The total amount of Annuities to be issued in 1895, and for which Tenders are asked, is \$8,000 annually, but Tenders will be received for any part of the same not less than \$200 annually.

Tenders will be required to state the capital sum which will be paid for either the whole Annuities offered or such portion as may be tendered for.

Tenders will be received up to the 13th day of July next. Notification of allotments will be given to tenderers on or before 18th July and payments from accepted tenderers will be required to be made within ten days thereafter.

Tenders for the whole amount offered, if preferred, may be upon condition that the annuities be payable in Great Britain in sterling.

The highest or any tender not necessarily accepted unless otherwise satisfactory.

R. HARCOURT,
Provincial Treasurer.

Provincial Treasurer's Office,
Toronto, May 8th, 1895.

NOTE.—Illustration of calculation on interest basis:—At the rate of 4 per cent. per annum (or in strictness 2 per cent. half-yearly) a present payment of \$1,987.25 would represent an annuity of \$100 for forty years, payable half-yearly, while the actual yearly payment for the forty years would be a fraction above 5 per cent. on the principal sum.

N.B.—No unauthorized advertisement will be paid for.

HEALTH AND HOUSEHOLD HINTS.

Fish Cutlets with Tomato Sauce.—Take any large firm fish, bone, skin and slice into cutlet shape. Sprinkle with pepper and salt; dip each cutlet first in grated cracker, then in sweet milk and egg beaten together and again in the cracker meal. Fry in hot batter. When done up, arrange on a dish, and pour tomato sauce around the cutlets. Serve very hot.

Potato Cakes.—To thoroughly mashed potatoes add salt, butter, a little pepper and sufficient milk to moisten slightly. Before perfectly cold add a beaten egg, mixing well. Shape into flat, round cakes and put away to cool. When ready to fry, roll in flour and fry in hot butter. Turn carefully with a broad blade and brown the other side. Serve hot at once.

Creamed Oysters.—Put twenty-five oysters in a double boiler for ten minutes, or until the gills curl. Drain them and save one gill of liquor. Put two ounces of good, sweet butter into a sauce-pan; when melted, add two even tablespoonfuls of flour, mix without browning; add one gill of cream and the gill of oyster liquor; stir constantly until it boils, add a half teaspoonful of salt, a dash of white pepper and the oysters. When very hot, serve.

Sauce for Cold Meat.—An excellent sauce to serve with cold meat is made from grated horseradish, the yolk of an egg and whipped cream. Squeeze every particle of vinegar from three tablespoonfuls of the horseradish and mix thoroughly with the yolk of an egg and a half teaspoonful of salt. Add six tablespoonfuls of whipped cream and mix again. Serve on a small dish by itself, or put on a platter with cold meat or poultry, arranging the slices about it with a border of parsley.

Milk for Babies.—If care is taken in procuring pure milk from a healthy cow it will answer every purpose—provided the milk is kept clean and free from germs. Many careful housekeepers cannot realize how very great must be the care exercised with milk. It should never be allowed to stand uncovered, and should never be used unboiled. Dr. A. Jacobi, a recognized authority, in a recent article says: "After having been boiled, the milk destined for the use of a baby during the day ought to be kept in clean bottles, containing from three to six ounces, up to the cork, and the bottles turned upside down and preserved in a cold place. Such a bottle will keep longer than milk preserved in the usual way. Before being used, it ought to be heated in a water bath. By repeating this heating of the whole amount of the day's milk several times during the twenty-four hours, fermentation will be retarded, and digestibility improved."—*Woman's World*.

SOMETHING USEFUL TO KNOW.

Here is a set of rules that are given to the girls that attend the public school cooking classes, and they are good enough for all the present and prospective housekeepers to cut out and paste in their housekeeper's scrap-book:—

Accurate measurement is necessary to ensure success in cooking.

All dry materials should be sifted before measuring.

A cup holding just half a pint is the standard measuring-cup. A cupful is all the cup will hold without running over,—full to the brim. A scant cupful is within a quarter of an inch of the top.

A tablespoonful of flour, butter, or sugar is a rounded spoonful.

A teaspoonful of salt, pepper, or spice is a level teaspoonful.

A heaped spoonful is all the spoon will hold.

Half a spoonful is measured by dividing through the middle, lengthwise.

A speck is what you can take on the tip of a penknife.

These bits of information seem very simple, and yet you would be surprised to learn how few, comparatively, have ever heard of them.

DID YOU EVER THINK

That you cannot be well unless you have pure, rich blood? If you are weak, tired, languid and all run down, it is because your blood is impoverished and lacks vitality. These troubles may be overcome by Hood's Sarsaparilla because Hood's Sarsaparilla makes pure, rich blood. It is, in truth, the great blood purifier.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

No Wonder He Dreads It, if his house is cleaned in the old-fashioned, tearing-up way. Why can't a man's wife use **Pearline** for cleaning house, and let him keep comfortable? That's all she needs—

Pearline and water—to make it an easy thing (and a quick one,) both for herself and for everybody around her. Everything in the house, from cellar to attic, can be cleaned best with **Pearline**. Besides, with your paint and wood-work and such things, you'll save a lot of wear that comes from use-less scrubbing.

Beware of imitations. 410 JAMES PYLE, N.Y.
