F. G. OTTO & SONS,

(Successors to OTTO & REYNDERS.)

MANUFACTURERS & IMPORTERS OF

Surgical Instruments and Orthædical Appliances.

Fig. 12.

THE RESERVOIR THERMOMETER.—The advantages this Thermometer possesses over *all others*, consist in the Reservoir B, in which the registering part of the mercury is collected, forming a body of oblong shape. The surface of this body being large in comparison to the contracted bore, makes it impossible to unite the register with the mercury in the bulb A.

These Thermometers are well seasoned before graduating, and, consequently, are as correct as they can be made.

PRICES:

Four inch in fifths,	\$4.25
" " " fourths,	4.00
Five " " fifths,	4.75
" " " fourths,	4.50
