

The "Doctor's Factotum" issued by the New York Pharmacal Association, Arlington Chemical Co. and Palisade Manufacturing Co., conjointly, November, 1908. This little booklet issued as above, gratis, is up to the usual standard, and contains some very interesting information, especially on the Chemistry of Milk and milk free diet in typhoid fever. Part II contains cleanings "In Lighter Vein," all of which is good.

### Obituary

ROBERTSON—The death of Douglas Argyll Robertson is announced by the "New York Medical Journal" as follows: "Dr. Robertson, an ophthalmologist of world-wide fame, died on Sunday, January the 3rd, in the 72nd year of his age. After his retirement from practice in 1904 he made his home on the island of Jersey, and it was there where he died. The phenomenon known as the Argyll Robertson pupil was discovered by him about forty years ago.

DRYDEN—In Guelph, Ont., on Dec. 2, Dr. James Robert Dryden, M.B., aged 53.

GILLESPIE—In Cannington, Ont., on Dec. 22, Donald Gillespie, M.D., aged 70.

LEESON—In Brandon, Man., on Nov. 25, M. Leeson, M.D., C.M., was killed accidentally.
