BAND AND CIRCULAR RE-SAWS

are a necessity in a saw mill. They increase the capacity of a mill one-third when logs are small, by slabbing heavy and re-cutting all slabs on re-saw, using a 19-gauge blade.

They make two plump boards out of a bad face deal.

Transfers supply them and not over four extra men required to run one.

If some large mills can use three and four, you can surely find one profitable. Will be pleased to send you particulars and prices.

Aside from the fact that the "Safford" Radiators are unique because no bolts, rods or packing are used in their connections, the vital point is claimed (and guaranteed) that they will stand a pressure of 140 pounds to the square inch—about double the pressure that any other radiator is capable of bearing. They embody every single specification of all the leading architects of the country. They are SAFE beyond question. They are handsome—they are made in the shape of circles and in various angles—shapes to suit the various spaces where they are to be used. There are twenty-five different styles of
