CHILD TAX CREDIT

Question No. 553—Miss Bégin:

1. According to (a) sex (b) marital status (c) province of residence, how many persons required a child tax credit for the fiscal year 1978 and for how many children?

2. For the same year, what amount was paid, by child, according to income and marital status of the applicant?

3. For the same year, how many persons entitled to the child tax credit had no income tax to pay?

4. For the fiscal year 1979, will Canadians be provided with a simplified form to claim the child tax credit?

Hon. Walter Baker (President of Privy Council and Minister of National Revenue):

Statistics are not maintained in the exact form requested. The statistics provided are for the number of claims allowed for the child tax credit by the breakdown specified. It should be noted that the statistics given for all parts of the question are based on an incomplete processing program and represent about 95 per cent of the taxfilers expected to file this year.
