Rumors in Montreal to the Effect That He Is.

A HURRIED CONSULTATION

Said to Have Resulted in a Decision to Send Him After Mr. Desjardins.

Montreal, Nov. 5.—(Special.)—There is a well-grounded report in circulation here that Hon. Mr. Tarte has another subject in view besides visiting the harbor works of Liverpool, Hamburg, Antwerp and other leading shipping points on the other side of the Atlantic. It is stated that as soon as the Ottawa Government learned that Hon. Alphonse Desjardins had been summoned by cable to Rome, and that the visit had something to do with the settlement of the Manitoba school question, a hurried conference was held, resulting in the decision of Sir Wilfrid to send the Minister of Public Works in his stead after Mr. Desjardins. Instead, therefore, of inspecting the European docks, report has it that Mr. Tarte will proceed at once to Rome, leaving the harbor master of the Chief Justice of England, Mr. Desjardins. My wife has been a sufferer from catarrh of the nose for the past four years, and she has been almost blind since, and the disease had become affected and parities had come away through an opening in the left side. Her eyesight was also affected to the extent that for nearly a year she was unable to read for more than five minutes at a time. She suffered.

Severe Pains in the Head and Eyes was almost distracted. She was treated by four different doctors, one of whom was a specialist. They all said they could not do anything for her, as the disease had gone too far. Her nose would swell about every three days until her eyes would be almost closed. Then she would break through and the swelling would subside for a day or two. About Christmas she commenced taking Hood's Sarsaparilla, and since that time has been steadily improved. She has not been troubled with any swelling since, and the eyes on the side of the nose has all healed. She is on the road to a complete cure. I cannot speak too highly of Hood's Sarsaparilla, and I cheerfully recommend it to any person who is suffering with catarrh."

A "GOLD DUST" FAKIR

Has Been Doing Up the Farmers in the West and Making Money—Man Supposed to Be in Toronto.

A pretty slick fakir has been working the Counties of Oxford, Waterloo, Dufferin and Halton during the past month, and he is now supposed to be living in good style and having a high old time in Toronto on the proceeds of his swindling of innocent farmers in various localities. The detectives are looking for the swindler, who traveled the western portion of the Province, representing himself as a recently returned miner from the Klondike, looking for a farm on which to settle down and enjoy the results of the \$50,000 he had made in 10 weeks. The fakir's story was an important portion of his entire consisted of canvas bags, which contained a glittering yellow dust that he had made up in bronze to fit the part, and with a plausible story, he won his way into the confidence of the unsuspecting farmer. Here and there he stopped overnight, and in many places left a quantity of gold dust, which he had made up in bronze to fit the part, and with a plausible story, he won his way into the confidence of the unsuspecting farmer.
