Character Against England-Meeting Next Sunday.

throughout the United States will lead to the resuscitation of the once celebrated organization among Irish-Americans known as the Fenians, which planned and executed an invasion of Canada in 1866. Intimations have reached Omaha from other cities that an address, calling for a renewal of the Fenian organization and the Clan-na-Gael, had been sent out from this city to enthusiastic Irish-Americans in other places. Enquiry developed the fact that there is some sort of a secret movement on foot among the Irish enthusiasts in this and neighboring cities, which has for its object some decisive steps of a more belligerent character toward England than a simple declaration of sympathy for the Boers far away in South Africa. The movement here will be inaugurated by a meeting to be held next Sunday, when some measures are expected to be taken.

"England must be harassed by every means. The seed of revolution must be planted in her colonies and where opportunity exists Irishmen must strike at the power of the British Government. The long-looked-for opportunity is at hand, and if Irishmen fall to take advantage of it, it will be to their disgrace. Canada can be invaded. There is a strong organization in existence which has been for years gathering money and recruits in anticipation of this invasion. The time to strike will be when the fortifications are manned by the half-heartedly loyal Canadians."

Would Invade Canada.

Worcester, Mass., Dec. 25.—Division 26, A. O. H., of Worcester, at a meeting to day took a vote to see how many members would respond to a call to arms for the invasion of Canada, should the call be made, and every hand was raised. Committees were appointed to arrange a mass meeting to express sympathy for the Boers and hostility to Britain. I resident James Noonan

His Adventure.

Chicago, Dec. 25.—John Gillies, an operative connected with a private detective agency, is at the County hospital, probably atally hurt. According to the story he tells he was hurled from the Twelfth-street viaduct by two men yesterday, and nearly ground to death under the wheels of an incoming train on the Grand Trunk Railway. His right ieg was severed at the knee, his jaw was tractured, his cheek lacerated and his body bruised.

The polace elieve Gillies refuses to tell all he knows about his adventure.

The Garden Spot of America.

How some Escaped.

It now appears that some earth tremors and other premonitions enabled many people to get away before the catastrophe occurred. The Mayor of Amalifi declares his belief that the landslide was due to the fact that a huge fissing left after a similar slip 10 years ago had been carelessly filled with faggots and pieces of timber. This had, always been considered a source of danger.

The Merritt and Chapman wrecking steamer Rescue passed off the Cape last night on her way to the Ariosts.

The "Consumptive Tendenicy."

It is popularly supposed that consumption is inherited. Dut the disease litself cannot be. Consumption is caused by the attacks of bacilli upon the long, tissues, These tissues will, if weak, break down under the attacks. Persons where lungs or bronchial tubes are weak should fortify and strengthen them against disease. There is nothing for this purpose to be compared to Angier's Petroleun Enaulsion, It is famous on two continents and as a substitute for Cod Liver Oil has achieved vastly superior results. Perfectly agreeable to take.

Angier's Petroleum Emulsion

Better Than Cod Liver Oil

While cod liver oil is good, it positively disagrees with most people, the bad effect on the stomach often far outweighing any good it may possess as a nutrient, for which it is given. On the other hand, Angier's Petroleum Emulsion is pleasant to take, agrees with the most sensitive stomach, and aids digestion instead of disturbing it. At the same time it has curative qualities which cod liver oil does not possess and which particularly adapt it to the treatment of all throat and lung troubles. Here's a specimen of the letters we're receiving right along:

About one year and a half ago I was taken with a severe cough, without any apparent cause, and was sorely afflicted. In January I began to grow very weak, and from that time up to seven weeks ago my aliments multiplied; and it seemed to me and to nearly everybody in the community, that I had but a few more weeks, or, at most, months, to live. In January I wrote and described my condition to a friend, a physician, of Boston, and he advised me by all means to get a bottle of Angler's Petroleum Emulsion.

I had already taken much sickening medicine; and, thinking your Emulsion was like cod liver oil, I felt that I could not take it. But my friend urged me in every letter to get it, assuring me that it was pleasant to take. In the meantime I was taking bottle after bottle of the popular remedies, but grew worse under each in turn.

Two months ago I believe I was fast nearing the end; and at that time, receiving another letter from my friend, trging me more than everto get your Emulsion, I thought I wou'd try it.

On the day that I began to take it I had one of the most distressing coughs imaginable. I had short breath, and sometimes had to ppen my mouth very wide in order to breathe at all. I had been growing weaker and weaker for eight months, and at times I seened to have no more strength than a little child: and, in connection, with this, there was a continual sensation of puffing in my ears, something like that of a steam engine. I had no appetite, and sometimes for days I could not eat as much as I can now at one meal; and, lastly, my legs below the knees had swolle's to two or three times their natural size. I seemed to have no energy or ambition left, and felt that I would about as soon die as live.

By the time that I had taken onebottle of your Petroleum Emulsion I felt like a well man, and have been able to work on my farm all day ever since. I have up to this taken less than two and a half bottles. My health is pretty well restored, and I am almost cured of my cough, and am troubled rarely with shortness RECOMMENDED BY PHYSICIANS.

ANGIER'S PETROLEUM EMULSION quickly relieves the most obstinate cough, while at the same time it promotes appetite, aids digestion and greatly improves the general health. It is equally good for the cough of Chronic Bronchitis, with profuse expectoration; the dry, harsh throat eough; the irritating cough of Influenza, and for whooping cough and croupy coughs of children. To those who are subject to bronchial attacks it is specially helpful. The cough and breathing are made easier almost at once, the irritation in throat and bronchial tubes is soothed, the character of the expectoration is altered, and a general improvement effected in all the symptoms. We have hundreds of letters from all over attesting its remarkable power to relieve and cure troublesome coughs.
