Pupils Fight Teacher. At a meeting of the Board of Education this evening, one of the trustees said he had been told that when Byron Smith, principal of the Stinson-street school, had tried to chastise a boy the youngster called on his classmates and put up a fight. The teacher won out, but it was alleged that the mother, who comes from the wild and woolly west, had gone after him with a gun. The trustees instructed inspector Ballard, the chairman of the board, and the chairman of the Internal Management Committee, to hold an official investigation. Some of the members said that gation. Some of the members said that if what they heard was true several of the boys ought to be expelled, and others held that it was the teacher who should be expelled. Bad Gang Rounded up.

Early this morning burglars stole two heavy pinch bars from the G.T.R. tool house on the Port Dover Branch, and forced the door of Dan Sullivan's liquor store, corner of Young-street and Ferguson-avenue. They left the bars and took a dozen flasks and three bottles of liquor. Tracks were followed to the Mulholiand residence, 57 Liberty-street, where Tom Murphy, Alex. Spence and Billy Hildreth-Doyle, were found drinking. After a desperate struggle the three were taken prisoners by Detective Coulter and Constables James Clarke and Oakes. They appeared at Police Court this morning and were remanded till Tuesday.

plows were kept on the move. And the end is not yet.

The cuts are naturally the spots that give the greatest trouble. They are cleared out and the snow banked high on either side. Then along comes a high wind and the work has practically got to be done over again.

Stratford so far, seems to be the storm centre, and some idea of the quantity of snow that has fallen has been given in the fact that the officials have found it necessary not only to shovel the snow off the tracks in the yards, but to load it on cars and take it out of the city. The lines about here, particularly the north, have been in bad condition, but lately matters looked more hopeful, the tracks could be kept pretty clear and trains were making better time. It looks now, however, as tho the troubles are to make a fresh start on a sound basis.

Train Went Other Way. Train Went Other Way.

Last night a heavy snowfall commenced, accompanied by a heavy drifting wind, the worst feature of the storm. It still continues as the Old Probs, is bound to submerge everything.
