The battle at the belace, which began shortly after 6 o'clock, was a spectacular one, armed cars of the revolutionaries swinging into action in front of the palace gates, while fisshes from the Neva were followed by the explesion of shells from the guns of the Aurora.

The Russian cruiser Aurora is a vessel of 6,730 tons, and has a complement of 573 men. She was built in 1206, and carries ten 6-inch guns, twenty 12-pounders and eighteen small guns. She also is armed with two torpedo tubes.

The general congress of workmen's and soldiers' delegates of all Bussia was convened here last night, with 560 delegates in attendance. The chairman declared that the time was not propituous for political speeches, and the order of husiness of the congress approved was as follows:

First—Organization of power.

Second—Peace and war.

Third—A constituent assembly.

The officers elected comprise fourteen Maximalists, including Nikolai Lenine, the radical Seniells tiesder, and M. Sudbury, Ont., Nov. 8.—At a meeting ealled by George McArthur, secretary of the Liberal Association of East Algoma, at Massey teday as a protest against the choice of the meeting a short time age neminating George B. Nichelson of Chapleau as Unionist candidate for the riding, L. O'Conner, Sudbury, raised the question as to the aims of the meeting, and Chairman Sadle, a life-long Liberal, said it was for the purpose of indersing Union Gevernment. Mr. O'Connor was of the opinion that it was a Liberal convention, and the outcome was that the supporters of Union Government took one side of the nall and the Laurier supporters that other, the former agreeing upon the selection of Mr. Nicholson, and the later nominating Mr. O'Connor, who is reperted to have turned down the hemination as the Laurier sandidate in his home constitutency of Minissing.

is becoming more and more evident that there is now a wide difference of opinion between the German Government and the German people.

Stimulating Seldiers.

One of the present troubles is over propaganda in the army. The military party in Germany thinks that the spirits of the men at the front require stimulation and, seeing the opportunity of trying to kill two birds with one stone, it administered the stimulus in the form of pamphiets and speeches setting forth the war aims of the extreme Pan-Germans, totally opposed to the peace resolution of the Reichstas. When these proceedings were challenged in the Reichstag, the imperial chancellor made a lame defense, "Thosa who know the conditions at the front."

Germany is being ravaged by political troubles, which assume many phases, but which throw into prominence two points of great importance, both to the Allies and to Germany herself. The first point is that the German Government in no sense represents the people to the Reichstag. In times of peace this is entirely an affair of the German people; if they prefer to be without the freedom that other countries have he said, "agree that a propaganda is and moral pabulum is urgently needed. The soldiers themselves most gratefully recognize this fact. But the question is, what propaganda is to be administered."

Contradictory.

Dr. Haas said in the debate: "The

But that is precisely what the Government does not do.
The Vessisohe Zeitung put its finger on the spet in an article published on October 8, when it said: "The Reichstag cannot dismiss a minister." IN MANITOBA'S RIDINGS,

WINNIPEG, Nov. 8 .- It is announce today by the Union Government committee that the unionist convention for the federal riding of Dauphin will be held in the town of Dauphin November 15. It is expected that Robert Cruise will be the choice of this convention. H. McLean, a farmer, is said to be likely aspirant for the honor of leading the Provencher unionists. His convention is to be held next Tuesday. The name of Dr. Ross of Morris has also been mentioned, but it is said that he will not accept.

GEDDES' SUB FIGURES DECLARED INCOMPLETE BY GERMAN ADMIRALTY

In reference to the losses of British ships the German statement asks why Sir Eric and contends that allowing for this omission and for the fact that Sir Eric gave net tennage, while Germany gives gross, the British and German figures nearly correspond.
