Greatest Event of Year in Agriculture-Important Meetings.

GUELPH, Dec.9.-(Special Staff Correspondence.)—The flag above the Guelph City Hall floats proudly to the breeze. The 24th annual Winter Fair opened under auspicious skies. Never in its history were the prospects so good and the display of live stock and poultry so encouraging. The whole building is taxed with the entries. President Arthur Johnston, in his usually good-natured style, and everbusy Secretary A. P. Westervelt are here and are pleased that everything is going along merrily.

The former arrived on the evening

The former arrived on the evening train from Toronto Junction, where he had been in attendance at the Fat Stock Show there on Saturday.

Outside the grey old walls of the city hall do not give a proper index of the life, decoration and competition going on within. But all sombreness of feeling, all doubts of Ontario's posi-tion as a live stock and farming centre, are dispelled as if by magic as soon as the portals are crossed. The well-groomed Shorthorn, Aberdeen-Angus and Galloway fatlings, the comely Ayrshire, Holstein and Jersey milkers, look the contentment that every person feels. Sheep and hogs are ready for the shambles, when exassed their judgments on the live spe-

Upstairs there is one of the best exhibits of fowl and pet stock to be found in Canada. Crowing roosters, noisy geese and beautiful bronze and white turkeys, make the visitors welcome with their peculiarly varied dialects. Altogether 4250 entries make this display decidedly unique. Secretary Westervelt informs us that this is 200 ahead of last year is 200 ahead of last year. In the dressed carcases, in the sheep

and swine, this year easily outclasses the best previous exhibition.

D. G. Hanmer of Burford and his assistant, J. H. Saunders of London, have looked well after the arrange-ments. The decorations were never more tasty and appropriate, and much credit is due to J. H. Hewer for this

All told, 35 cows are entered in the dairy test, which concluded yesterday at 1 o'clock, but of which no announce ment comes until some time to-day. Shorthorns, Holsteins, Ayrshires and Grades are in the competition, no Jerseys or Guernseys being entered. This, perhaps, is to be lamented, as the admirers of these breeds are many. Some place, it is felt, should be made whereby the merit of these should be Extract Da

VERY SUSCEPTIBLE.

Neglect of even an ordinary cough or cold is apt to leave the lungs sore and especially susceptible to bronchial affections. To break up a cold quickly and cure any cough that is curable there is nothing more effective than a mixture of one-half ounce of Virgin Oil of Pine, with two ounces of glycerine and a half pint of good whisky. Take a teaspoonful whisky. Take a teaspoonful every four hours. Five ounces of tincture Cinchona compound can be used instead of whisky

can be used instead of whisky with the same result.

The ingredients for this mixture are not expensive and can be purchased at any good drug store. It will always be found more satisfactory, however, to purchase each separately and mix them at home. Virgin Oil of Pine is prepared only in the laboratories of the Leach Chemical Co., Windsor, Ont., being put up, for dispensing, only in half-ounce vials, each vial securely sealed in a round wooden case.
