RAINS IN ARGENTINA

Chicago Closes Three to Six and a Half Points Lower.

Chicago, Nov. 1.—Persistent anxiety as to possible disturbance of relations between the United States and Germany, together with word of Australian imports at San Francisco, and of rains in Argentina, resulted today in a swift decline of wheat prices here. The close was unsettled, 3c to 5 1/2c lower, with December \$1.82 1/2 to \$1.83 7/8, and May at \$1.81 7/8. Corn lost 2 1/8c to 3 1/8c, and oats 1c to 1 1/2c. In provisions the outcome was a rise of 2 1/2c to 2 1/2c.

Definite assertions that without any warning six Americans had been killed and 51 other Americans imported by a submarine, but wheat prices under decided selling pressure right from the start. The news was coupled here with references to President Wilson's latest warning as to conditions that would cause a break with Germany, and were also joined with Secretary Lansing's statement today that the United States' policy regarding submarine attacks would be firmly upheld. Bears meanwhile made much of the despatches from San Francisco that vessels were being chartered to bring wheat from Australia. It was said, too, that Minneapolis millers had been making liberal use of a report that heavy rains were greatly improving crop prospects in Argentina.

Liquidation of wheat holdings was on such a large scale through the session that rallies were of comparatively no importance. Scarcity of storage insurance made the December option a special target for the bears, and so likewise did a falling off in export transactions. One of the most conspicuous sellers was a leading bull speculator who has been known as possibly the largest individual holder of December contracts.

It was easy to depress corn in view of the breaks in the value of wheat. Besides, fine weather and increasing arrivals here counted noticeably against the bulls. Oats gave way with other cereals. Buying was poor, although the seaboard sent advice that export demand was likely to last all winter.

STEADY UNDER-TONE TO RELIABLE STOCKS

Low Priced Specialties Advance, But the More Substantial Shares Are Sedate.

A steady general undertone was about all that the Toronto stock market portrayed in yesterday's business. There was some activity and an advance in Barcelona following the first annual statement, and another revival of speculation in Spanish River. The more substantial issues were sedate and scarcely reflected the improvement on Wall street. Dominion Steel held within a very narrow compass, but closed strong in relation to these shares was accounted for by the rumor that a hitch in negotiations had occurred. As no one but those in the closest touch with the company know what these are it is unlikely that any outsider would know of a hitch even if such had developed. Nova Scotia Steel and Pipe operators, who sold buying power still intact. The unlisted section was less eventful yesterday with some "die down" in the North American Pulp operators. The market generally shows a good demand on reaction, and some issues which are wanted for special reasons will advance again soon as stock wanted has been secured.

U-BOAT LOST AFTER SINKING ROWANMORE

British Warship Believed to Have Accounted for German Sub.

London, Nov. 1.—It is considered here that there is a strong probability that the submarine which sank the British steamer Rowanmore, bound from Baltimore for Liverpool, sunk a similar fate. The affidavit of one of the rescued sailors from the Rowanmore says that her wireless picked up several messages, including the American steamer Finland. The Finland, however, was warned by the Rowanmore to keep away from danger.

GERMANY'S WAR LOAN

Success of Issue is Declared Complete.

Berlin, Nov. 1.—(By wireless to Sauer).—At a meeting of the committee of the Imperial Bank of Germany today Rudolf Havenstein, the president, said that the success of the new German war loan proved that Germany would be able to bear the economic burdens of the war for an indefinite time. The popularity of the loan was shown, he said, by the fact that there were more than 2,000,000 subscribers. Pupils of 911 schools subscribed 14,464,000 marks. Pupils of 445 schools collected subscriptions of more than 1,000,000 marks. Statistics up to October 28 show that 8,686,000,000 marks, or more than 81 per cent of the total amount subscribed, has been paid in cash.

GERMANY'S NEW HERO.

Berlin, Nov. 1.—Commander Rose of the German submarine U-58, which returned to a German port after visiting the United States, probably will be awarded the pour le merite decoration.

Plummer & Co. Report

On Profit Taking. The most casual consideration it would appear obvious that a knowledge of profit-taking—knowing when, how and under what circumstances to take profits—is a matter of the first importance to the stock trader, but, strangely enough, this point is one which receives but scant attention from the general public.

The desire to secure the fullest possible advantage derivable from an advance is quite natural, but danger arises through losing sight of the percentage or the proportion of profit which should be expected in any one transaction and also in failing to consider what constitutes a reasonable advance for any one stock to record in one movement.
