YORK COUNTY

COUNTY HARVEST SERIOUSLY BEHIND

Work Frequently Delayed by President of Earlscourt Citi-Peculiar Local Showers Affecting Small Areas.

Indifferent progress only is being made by the farmers thruout York County in their harvesting operations owing to the "catchy" weather, every other day or so, showers stopping all work in some localities. A peculiar feature of the showers this year is that while one farm escapes with little or no rain, half a mile away all work will be suspended owing to the heavy downpours. It is estimated that full, 50 per cent. of the grain in the county is still unharvested. Great delay-is occurring thru lack of, threshing machines and the situation is in view of the lateness of the season, serious.

Where threshing has taken place the grain is turning out well-above the rawrage, with the sample excellent, from 35 to 40 bushels for barley, oats 50 to 75, spring wheat from 30 to 40, and fall wheat all the way from 30 to 35. It looks as tho a lot more threshing machines would find highly remainerative work for the next six weeks if the situation is to be relieved to any extent and the farmers enabled to get room for storing their grain.

The corn crop bids fair to be immense, in spite of the fact that the early part of the season was wet and big average crop will be cut if the frost keeps off, a fortnight longer. Labor is scarce, but the weather rather than the farm help is the big drawback.

Paris. Sept. 2.—All the daily newspapers in France, which maintain their original form, today advanced their prices from the equivalent of one cent to that of two cents.
