

ENGINEERING SOCIETY
—OF—
The School of Practical Science
TORONTO.

PRESIDENT'S ADDRESS.

GENTLEMEN:—

It affords me much pleasure to welcome you to the opening meeting of our Society.

To those of you who are about to become members, I extend a hearty welcome, while to the older members who have elected me to the highest position in their power I extend my thanks.

You have conferred a great honor upon me in electing me to the office of President, and I sincerely trust that, with the co-operation of the energetic committee which you have elected to assist me, the Engineering Society will continue to prosper as in the past.

It is necessary that each member should do his share in assisting the committee to make this year one of the most successful in the history of the Society.

The objects of the Society are already set forth in the Constitution, copies of which may be obtained from the librarian.

I would like particularly to emphasize the great value to be derived from reading papers at the meetings of our Society. The student members are beginning to take an active interest in this important branch of the School work and those who have read papers in the past will all state that they are exceedingly glad they did so.
