THOUSANDS WHO WOULD BE SOLDIERS LOST TO CANADA BY WASTEFUL SYSTEM

Only 37.4 Per Cent. of Men Examined This Year Accepted - Many Rejects Might be Used in Other Branches of Army Service-In England Nearly Every Man is Used Somewhere

Bonar Law announced the other day that the British war office is utilizing fully ninety per cent. of the men who come forward of their own accord or As yet, however, that has had no percome forward of their own accord or who are brought forward by the marchinery of the war regime, for military purposes of one sort or another. On the other hand, out of the number of recruits who have been examied at the Toronto mobilization centre since the first of the new year—and Toronto may be taken as a fair example, since this city is the recruiting king-pin of the whole dominion—the percentage of attestations figures out to 37.4.

The exact figures show that for Januwer, February and March, 2,127 men were attested locally out of 5,657 examined, though it must be admitted that of this number of men examined, 1,303 be most at horse. He was rejected as inclined in the complex solution of the service, thinking he would be most at horse. He was rejected as

ed, though it must be admitted that of this number of men examined, 1,303 were so lukewarm in their attitude to enlistment that they were up to the cept for examination only, and though many of them were found physically fit for service they just quietly melted into the back ground. Desiring an R. R. button and finding such beyond their reach, their attention again became energy seed in business. fered as an example were it

In the early months of 1916, when recruiting was at its high wave of excitement in the city, the figures for the guards, that is the men who look January show that 76 per cent. of the after internment camps, the men offering were found physically fit.
February of the same year shows practically the same percentage, after which there is a steady and persistent decline there is a steady and persistent decline there is a steady and persistent decline there is another stream of the stream of t would eventually bring these three powers to a community of feeling that would offer, and that in spite of the fact that the physical standard has been lower-solutioning influence of the American and colonial scholarships much has been a steady and persistent decline of the fact that the physical standard has been lower-solutioning influence of the American and colonial scholarships much has been a steady and persistent decline of the military hoppers back to civilian life because of some slight defect, which prevents them going overseas, but which would not ne-
