## TO PUT ON FLESH

## AND INCREASE WEIGHT

Most people eat from four to six pounds  
of good solid fat-making food every day  
and still do not increase in weight one  
ounce, while on the other hand many of  
the plump, chunky folks eat very lightly  
and keep gaining all the time. It's all  
about that fat. This is the nature of the  
individual. It isn't Nature's way at all.  
Most thin people stay thin because their  
powers of assimilation are defective.  
They absorb just enough of the food  
they eat to maintain life and a semblance  
of health and strength. Stuffed won't  
help them. A dozen meals a day won't  
make them gain a single "stay there"  
pound. All the fat-producing elements  
of their food just stay there in the in-  
testines until they pass from the body as  
waste. What such people need is some-  
thing that will prepare these fatty food  
elements so that their blood can ab-  
sorb them and deposit them about the  
body—something too, that will multiply  
their red blood corpuscles and increase  
their blood's carrying power.For such a condition it is well to re-  
commend eating a Sargol tablet with  
every meal. Sargol is not, as some be-  
lieve a patented drug, but is simply a  
careful combination of six of the most  
effective and powerful assimilative and  
fresh building elements known to chem-  
istry. It is absolutely harmless, yet has  
been wonderfully effective and a single  
tablet eaten with each meal often, ac-  
cording to reports of users, has the ef-  
fect of increasing the weight of a thin  
man or woman from three to five  
pounds a week. Sargol is sold by all  
good druggists everywhere on a positive  
guarantee of weight increase or money  
back.If you find a druggist who is unable  
to supply you, send \$1.00 money order or  
registered letter to the National Labora-  
tories, 74 St. Antoine street, Montreal,  
and a complete ten days' treatment will  
be sent you postpaid in plain wrapper.USE THE WANT

## LIEUT. WALTER HOARE KILLED

Word has been received in the city to  
the effect that Lieutenant Walter Hoare  
of the 99th Essex Battalion, from Onta-  
rio, has been killed in action. He  
was nineteen years old and son of Dr.  
C. W. Hoare of Walkerville, Ontario,  
who is well known in the city, he hav-  
ing married Miss E. L. Scoll of St.  
John.

## Guests of Their Colonel

Lieut.-Col. J. L. McAvity was the  
host at an outing yesterday afternoon  
and evening given to four members of  
the 26th Battalion now staying at the  
Parks' Convalescent Home. The colonel  
called at the home and took the men in  
his automobile to his summer home at  
Red Head. Following target practice  
the colonel and the boys sat down to  
supper and then returned in the evening.

## Form of Registration

The Canadian government has adopted  
a form of registration the features of  
which are that directors of recruiting  
for military districts will be appointed  
and will take the names of those who  
are physically unfit, thus weeding out the slackers  
and determining those who are en-  
titled to wear a badge.

## CALLED ON DEAD ON FIELD

## OF BATTLE TO ARISE

M. Maurice Barnes, a distinguished  
French writer, speaking in London, told  
this remarkable story of Lieutenant Pen-  
card."He and his company were for three  
days under terrible fire in the 'Bois-  
brûlés' where not a step could be taken  
without treading upon a corpse. Heav-  
ily using the danger, he was at first filled  
with fear and crouched behind the sand-  
bags. But, in the end, overcome by  
shame, he set off to another trench in  
hope of bringing up reinforcements.  
This trench also was full of dead, and  
he walked timidly along among them.  
The fire increased. The enemy was pre-  
paring to charge."Turning to the prone corpses," he  
says, "I thought, 'Shall their sacrifice be  
in vain?' Anger seized me. I remem-  
ber little of what I said or did. I know  
only that I shouted: 'Up with you!'  
What are you doing on the ground? Up  
and drive them out! Arise, ye dead!  
(Debout les morts!)""The dead," he says, "answered, 'We  
will follow,'" and their souls seemed to  
mingle with his until they became a  
globe of fire. Nothing could stop him  
now. He had found the faith that moves  
mountains. His hoarse voice, worn by  
shouting orders for two days and a  
night, became clear and strong. What  
happened exactly he did not know. Ac-  
tion engulfed memory. But at last the  
Germans fled, and his company con-  
solidated their position. His concluding  
words are the most remarkable."That whole night and for several  
following days the religious emotion that  
had seized me when I called upon the  
dead, governed me completely. I un-  
derstood that I had lived hours which I  
should never live again, hours during  
which my head, having broken through  
a low ceiling, had emerged into full  
mystery, into the invisible world of  
heroes and saints. Afterwards my men  
congratulated me. 'Those who know our  
own know also that there is no Legion  
of Honor to compare with such con-  
gratulations."I know I am not a hero. Whenever  
I have had to cross the parapet of a  
trench I have shivered with fright, and  
what I have just described was a mere  
accident in my soldier's life. It was the  
living who led me on by their example,  
and the dead who took me by the hand.  
My cry came, not from the mouth of a  
man, but from the heart of all who lay  
there, living and dead. A mass could  
not speak with that tone. It needed the  
joint effort of many souls, urged by cir-  
cumstances, souls of which some were  
already in Eternity."Why should it have fallen to me  
rather than to Colonel de Belair, Lieu-  
tenant Erland, Sergeant Prot, Corporal  
Therion, or Private Bonnot? I know  
not, save that one may receive an inspira-  
tion from on high, and yet be but a  
poor creature."Quackery  
and CornsHundreds of treatments have  
been offered for corns.  
Some were adductive to quiet  
pain. Some were caustic, harsh and  
risky. Some were quackery.But one man—a famous chemist  
—studied corns for 25 years. And  
finally discovered Blue-jay.That is now the standard treat-  
ment, gentle, certain, scientific. It  
is used on a million corns monthly.  
It has stopped the corn pain in-  
stantly, 70 million times. It has  
ended the corns completely within  
48 hours, in 91 per cent of the cases.  
The others take a little longer.Stop painful corns. Stop treating  
them in wrong ways. Use Blue-jay,  
and that ends them in a gentle,  
easy way. Prove that tonight.
