Morning Stock Letter

NEW YORK, June 1.—After the three day holiday we believe the strength which the market has been exhibiting will continue. The bearish rumors about the business situation so prevalent several months ago have not been borne out by developments and so far it seems this year will compare favorably with last. Undoubtedly there will be some slowing up in business this summer, but it does not seem probable now it will be on anything like the scale predicted by the bears. We believe the rally, and some industrials will continue to lead the market. In the first two groups we are still bullish on N. Y. C. Atchafalpa, South Railway and C. & O. Market, Houston, Elm and Realty. U. S. Steel is ex-dividend this morning and should have little difficulty in quickly making up its dividend and selling higher. Mack Trucks will likely work higher and we would buy it if it were to any extent today, on the sale of regular dividend CNO, for the pull is a comparatively cheap stock. Radio and Int. Com. Cong. we think, will work considerably higher.

MOSCICKI NEW PRESIDENT OF POLE REPUBLIC

Pilsudski Nominee Is Elected by Parliament

Warsaw, June 1.—Ignace Moscicki, candidate of the Middle Parties of the Polish Parliament and endorsed by Marshal Josef Pilsudski, leader of the recent revolution, today was elected President of Poland by the Parliament, to succeed President Wojciechowski, who resigned following the recent military coup.

RECOMMENDS MOSCICKI

"The constitution as it stands hampers me. I cannot work under it. I do not wish to be a mere figurehead. If you need more representation choose a man like Moscicki, who is a scholar and a man of contemplation. I am of a fighting nature."

The party caucuses which ended last night, decided to run three candidates in today's presidential election, M. Bismicki, for the Right parties; Prof. Moscicki for the Pilsudskians and Deputy Marok, for the Socialists.

Moscicki's election was forecast on the second ballot. Pilsudski probably will have the post of minister of war.

Deadly Snakes From Africa On Steamer

NEW YORK, May 31.—Arrival on the steamship Half Moon of a shipment of reptiles from South Africa, collected by J. L. Buck from regions seldom penetrated by white men, was reported here by him. The snakes have been in boxes nearly two months, provided only with water. During all that period they had no food, and the process of unpacking them was conducted cautiously.

This was done in a series of cages in the reptile house at the Bronx Zoological Garden. In the shipment are nine green mambas, the most deadly snake of Africa. It is a tree cobra which attacks human beings. It grows to a length of twelve feet and is slender and whip-like.

There are also two boomslangs, a black snake with bulging eyes. It has the habit of inflating its neck and releasing the air, producing a dull, booming sound from which it derives its name. There are also three giant black cobras, one more than eight feet long.
