

MEIGHEN AND LEADER SPEAK AT JOINT MEET

Tariff Question is Prominent as Different Views Are Expressed

CONSERVATIVE CHIEF RAPS RECIPROCITY

Declares It Was Time Canada Took Similar Stand to United States

Canadian Press Staff Correspondent.
LUNDAY, Man., Oct. 17.—Right Hon. Arthur Meighen, Conservative leader, concluded a strenuous day's campaign in his own constituency, with Harry Leader, Progressive candidate, who is opposing him, for election in the constituency of Portage La Prairie.

A statement by Mr. Leader that he favored reciprocity drew the retort from the Conservative leader that he was "getting tired of the talk of reciprocity with a country that was out first to look after its own."

"It is time," he said, "that Canada took a similar stand."

BLAMES LOW TARIFF.
The lack of stability in the tariff was the cause of much depression, Mr. Meighen asserted, declaring that the depression caused lack of employment in the cities which fell back on the farmers, who thus found their home markets narrowing.

In his reference to reciprocity, Mr. Meighen said there had been an agreement with the United States, regarding wheat and potatoes. This agreement had not been in force six months, before the United States government put a "red ink pen" through the agreement, and placed a duty of 42 cents on wheat and 35 cents on potatoes.

LEADER APPEALS.
Mr. Leader, who presided at the Meighen on the platform, attacked the attitude of the Conservative leader toward the McKee-Oliver order on freight rates, declaring that Mr. Meighen had ordered that order, as "an unfair concession."

He appealed for election, stating that his return to the house would have an important effect on proving that the farmers were against high tariffs.

Weddings

Newcomb-Steeves.
The marriage took place quietly on September 10 at the home of the bride, 90 Exmouth street, of Henry R. Newcomb, son of Mr. and Mrs. J. W. Newcomb, of Hopewell Hill, and Mrs. Eleanor V. Steeves, of Saint John, formerly of Plymouth, Mass., Rev. E. E. Styles officiating. The bride, who was attired in a jade green silk, was given in marriage by her aunt, Mrs. Mary Steeves. Mrs. Steeves and Allison Graves were witnesses. Mr. and Mrs. Newcomb will reside in Boston, Mass. Mrs. Newcomb was employed at the Imperial Theatre and wishing to fulfill her engagement, did not announce her marriage before. She was presented a handsome travelling bag, with Mrs. Edna Amburge making the presentation on behalf of the staff. Mrs. Newcomb was greatly pleased with the thoughtfulness of her associates, who expressed regret that her marriage would take her away from the city. Many good wishes were extended to Mrs. Newcomb and her husband.

Burden-Prescott.
HOPEWELL HILL, Oct. 16.—(Special)—A wedding of interest to friends in New Brunswick, Nova Scotia and Upper Canada, was solemnized at the home of Mr. and Mrs. L. C. Prescott at Albert on Thursday, Oct. 15, at 12:30 p. m., when their daughter, Kathleen Rebecca, was united in marriage to Walter Douglas Burden, of Ottawa. Owing to the ill health of the bride's father, only immediate relatives were present. The ceremony was performed by Rev. A. N. Marshall, of Wolfville, N. S., an intimate friend of the groom. The bride was gowned in ivory satin with veil and orange blossoms and carried a shower bouquet of Ophelia's roses and lilies of the valley. Jean MacIntyre, niece of the bride, dressed in yellow tulle and carrying a basket of roses made a dainty little flower girl. During the signing of the register Miss Amy Prescott, of Wolfville, a cousin of the bride, sang very sweetly. The wedding feast was served at luncheon and immediately afterwards Mr. and Mrs. Burden left by motor for Quebec City. They will reside in Ottawa.

AIRPLANE DEVICE PREVENTS STALLING

British Authorities Propose to Equip Several Machines With New Invention.

LONDON, Oct. 17.—The number of fatal accidents in the Royal Air Force during the last few weeks, gave significance to the recent demonstration before experts at Hendon Aerodrome of the Savage-Bramson anti-stall gear, a device designed to eliminate the inadvertent stalling which has caused 90 per cent. of all flying accidents.

The R. A. F. test pilots have reported favorably on the value of the instrument, and the Air Ministry has ordered a number of type tests. It is probable, too, that the gear will shortly be fitted to one of the air liners operated on the Continental routes.

The device jerks forward the central lever in the pilot's hand, should he unconsciously allow the machine to slow to stalling speed. The machine slows automatically and regains flying speed.

M. L. Bramson, the inventor, said yesterday that the device would keep a machine in the normal flying position even if the pilot were to faint in the air, provided that he did not fall against the control lever.

The complete device weighs only 6½ pounds.
