

SAYS CANADA CAN GET 10,000 FAMILIES

Special Immigration Official Here Today Tells of Ukrainians.

Joseph Dyk of Winnipeg, a special Canadian official of the Department of Immigration, was a passenger on the Canadian Pacific steamship Montclair, which arrived here this morning from Liverpool. Mr. Dyk spent three months in Europe investigating the possibilities of emigration of Ukrainian agricultural families to Canada. He announced that there are 10,000 families, skilled in agriculture, and with sufficient money to make a good start, ready to come to Canada to settle. However, he said, in order to secure these, special efforts would have to be made as other countries were offering inducements to them.

Would Go On Farms.

Mr. Dyk visited more than 300 towns and villages and had interviews with more than 500 mayors, priests and many prominent Ukrainian laymen. He found that the Canadian Government would have no difficulty in getting thousands of families to migrate here because of lack of political stability and extraordinary high taxation. The families willing to come to the Dominion are well fixed financially, he said, despite the hard times prevailing in their own country. They were able to fill the soil. When informed of the exceptional opportunities in Canada they showed marked interest and communications were sent to Mr. Dyk asking about the chance to secure farm land.

Mr. Dyk said messages from former Ukrainians in Canada have been sent home saying that there is no country in the world that affords such wonderful opportunities as Canada and this had proved a great advertisement.

He Has Proved It.

Mr. Dyk, who is a Ukrainian himself, came to Canada 17 years ago as an immigrant and now is one of the prominent barristers in Winnipeg in addition to being a special representative of the Government. He left today on a Canadian Pacific special train en route to his home and will later make an official report to Ottawa.

objected to having to use pasteurized milk if he did not want to and voiced his objection to prohibition of milk or liquor as invading a man's personal rights. He charged that Dr. Roberts was very arbitrary in his acts and that Dr. Warwick with being almost vindictive, in so far as violators of the milk regulations were concerned. It was true that certified milk could be procured but that was 20 cents a quart and it was simply raw milk.
F. J. Donegan said the certified milk was from tuberculin tested herds and bottled under exceptional conditions.
Mr. Raymond said this pasteurization also created a monopoly in the milk business and men had been forced out of business through it.
Mayor Potts asked if Mr. Raymond contended the Board of Health could override the Minister of Health, and Mr. Raymond said this point had not been decided by the courts. It was his own opinion that the Minister of Health was the only authority which could impose this legislation.
Mayor Potts asked Mr. Raymond if he knew whether certain institutions were receiving raw milk and the Board of Health winked at the violation of the law. Mr. Raymond said he had no personal knowledge of this.
His Worship said he had been informed on good authority that such was the case and one of the men present said Mr. Donovan supplied raw milk to the Mater Misericordiae Home.

Mr. Stern said the cost of pasteurizing was only 7-100 of one cent per quart and the rest of the 1 1/2 cent charge was for looking after the cans and bottles and bottling the milk. With regard to the price he said it had been agreed among the dealers that a certain price was to be charged and it was suggested by one of the dealers at the meeting where this action was taken that if any sold below this price the plants should refuse to pasteurize for that dealer. This statement was confirmed by Mr. Smith.

Commissioner Bullock asked if there had been any attempt to set the price at which storekeeper should sell and Mr. Stern said there had been an attempt to induce them not to sell below cost.

Commissioner Frink asked if it was true the General Public Hospital had been buying milk at 7 cents a quart and Mr. Stern said they had been selling at that price up to October 1 under a contract.

Mr. Donegan said Mr. Stern had set forth the case very fully for the plants. There was quite a lot heard about 15 cent milk but they received that price for only a small quantity. The average spread they had was 5 1/2 cents a quart.

This Meat to Market?
Commissioner Wigmore referred to cows which had been killed, having tuberculosis and Mr. Raymond asked what became of the meat of these animals. He was told it was sold in the market.

Mr. Raymond contended that if the milk was not fit for use the flesh was not and Mr. Stern said the cooking of the meat destroyed the germ.

Delivery Charges.
Commissioner Wigmore said in the report of the milk committee they had dealt with the matter very fully and they had come to the conclusion that the only way to reduce the price was to cut down the delivery expense.

Mr. Smith said the county producers would, if compulsory pasteurization was done away with, have a bottling plant of their own and sell milk at 12 cents a quart.

Mr. Stern said if they had the same volume as the Ojibwa dealers they were willing to sell at the same price. Mayor Potts asked if Mr. Stern did not think the people would patronize them if they brought the price down. Mr. Stern said he thought they ought to, but was not sure they would. He

"GETTING GERTIE'S GARTER"

Something New and Different at Opera House Next Week—A Farce Comedy, Fun and Thrill Provider.

"Getting Gertie's Garter," the bill for next week at the Opera House, is said to be of novel interest and great appeal, with comedy predominating. A. H. Woods, wisard impresario of the drama, the man who has recently so successfully exploited Lillian Foster in New York, counts it among his greatest successes.
While the title is somewhat drastic, the reputation of the Carroll Players is too well established to suggest the possibility of anything offensive.

Ross, several single turns, and a farcical local sketch entitled "Seeing St. John"—a motor-bus trip around this city. The picture show will be Paramount's adventurous romance, "Manhattan," with Richard Dix and Jacqueline Logan in the leading roles. Pictures at 7 (the old hour next week) and 9. Correct Appearance a Paying Investment

The relation of correct and neat wearing apparel to success in life cannot be over-emphasized. Dress alone is not a guarantee of success, but coupled with other attributes it brings success more easily and more quickly. Slovenliness is just as certain to retard progress, regardless of the inherent ability of the individual.
