Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. "Diamond Dyes" never streak, spot, fade, or run.

AN EXCELLENT PICTURE PROGRAM AT THE UNIQUE.
Alice Calhoun was at her best at the Unique Theatre yesterday when she was seen in her latest picture, "The Matrimonial Web." In the role of Helen Anderson Miss Calhoun is forced to go to extremes. Great emotional work and wide contrast in characterization are required. Early in the story she is seen as the daughter of a revenue officer, unsophisticated and childish. When she learns that her father's position is in danger, she matures rapidly and is seen in the underworld dives, posing as a tough and later she emerges into a society girl, mixing with the best society of the town. The story deals with the efforts of a chief revenue officer and his assistant to capture a band of smugglers operating in the district. The story has many twists and turns, suspense follows surprise until the final flash. The picture is well worth seeing.

A Vitaphone Comedy, "His Jonah Day," with Jimmie Aubrey, has many laughs and surprises. Jimmie can always be depended on to convulse with laughter all who witness his funny antics. As a whole the programme is delightful.

THE LONGEST TOW ON RECORD.
Boston, Oct. 11.—What shipping men said was the longest tow on record came to an end here when the steamer Monroe brought to port the steamer Oskaloosa after a voyage of 1,200 miles, marked by many days of rough weather. Both are United States Shipping Board vessels and have been a month at sea.

On September 19, the Monroe, from Fowey for Boston, came up with the Oskaloosa bound here from Antwerp, after the latter ship had been badly buffeted by a gale that had smashed her bows, swept her decks and injured her engines. The Monroe put a line aboard the crippled ship and started for St. John's, Nfld., making that port on September 25, after a hard voyage in the course of which she once parted from her tow.

The steamer later called at Halifax and on Monday left for Boston. Both steamers will tie up at this port after unloading.

PORTLAND MISSION CIRCLE.
The mission circle of the Portland Methodist church met last night at the home of Miss Rose Rowley, in Stanley street, and spent a much enjoyed evening. In spite of the rain there were forty-two members present. The opening devotion was led by Miss Carrie McConnell who gave the study talk on "Work in the Home." A Bible exercise was presented and those who took part in it were Miss Gertrude Harper, Miss Emma Chown, Miss Mary Kirk, Miss Lizette Lock and Miss Etta Law. The president, Mrs. Fred Smiley, was in the chair for the programme which consisted of the following numbers: Piano solo, Miss L. Lock; readings, Miss Laura Farnoy; piano duet, Miss Emma Chown and Miss Roberts Craft. Refreshments were served at the close of the evening and plans were made for an active season.

CARMARTHEN STREET SOCIAL.
Continuing the celebration of the fifty-second anniversary of the Carmarthen street Methodist church a well attended social gathering was held in the church basement last night with the pastor, Rev. E. E. Styles, presiding. A short programme of music was presented and much applauded and Rev. H. A. Cody gave a very interesting lecture on the Yukon, illustrating his subject with a fine series of slides. Mr. Cody described the rush to the Yukon in quest of gold and told of his personal experience as missionary in that district. He spoke particularly of the splendid work of the mounted police in the Yukon. The hall was filled with an appreciative audience in spite of the unfavorable weather. Walter Brindle moved and Harry McKim seconded the vote of thanks given to Mr. Cody.

The secretary of the Canadian Club has received a reply to the invitation which he sent to Field Marshal Earl Haig to address the club if he visited America. The reply says that the Earl will not visit America in the near future.

The Rotary Club, at its weekly luncheon yesterday, was addressed by P. J. G. Knowlton on fire prevention. Best Foster gave a talk on the impressions of Rotary. Mr. Knowlton said that the recent war had caused the various governments to investigate all waste and make efforts to conserve natural resources. He quoted figures to show the enormous fire loss each year. He spoke about the methods of fire prevention which were being used. There should be proper inspection of all fire hazards and towns with no fire protection should be compelled to install proper equipment.

TURN STREET SNOW INTO BLOCKS OF ICE

New York, Oct. 11.—Engineers interested in snow removal from city streets have considered perfecting a machine built forty years ago by Thomas A. Edison, but left in an experimental stage because the inventor turned his work into other fields.
This machine, drawn by a horse, devoured the flakes and disgorged them in icy blocks which occupied only one-tenth the space of the fallen snow and made removal easy. In a letter from Mr. Edison, recently read at a forum on "snow removal in cities," the inventor expressed belief that a competent engineer could readily figure out an efficient means of improving and modernizing his invention.

MANY MORE WOMEN THAN MEN IN PARIS.
Paris, Sept. 22.—Parisian women greatly outnumber the men. There are 65,947 women in one arrondissement alone, where the men number only 47,418. This preponderance is especially manifest among persons between 20 and 30 years of age, where the war also made such gaps in the ranks of the men.
