MOUS PLANT UNDER HAMMER
 upbuilding Yards at Philadelphia Disposed of at Public Sale

Philadelphia, Sept. 30.—"Going, going, gone." These words and the bang of the gavel sounded the death knell of one of the landmarks which made a part of Philadelphia internationally famous. The incident marked the passing of the shipbuilding plant established more than forty years ago at Chester by John Roach. It was sold at public auction.

John H. Hinkson and Kingsley Montagu, attorneys for the Cambridge Trust Company, purchased the property for \$5,000. The trust company is trustee of a bond issue in the sum of \$150,000 issued to cover a mortgage of \$104,000.

The sale came as the result of the financial reverse which the plant, consisting of twenty acres of ground, piers, machinery and other equipment, has suffered since its inauguration in 1872.

THE COAL TRADE.
 Heavy Demand for Anthracite Continues Unabated, Bituminous Slows Down Still Further.

(Coal Age, New York)
 The anthracite trade is still marked by a steady, persistent call that presages heavy business this fall and winter. Individuals are offering occasional sections where some of the slow sizes were accumulated but as a rule full circles prevail. In the Lake trade the situation is rather mixed; some shippers claim they have sufficient stocks but others are eagerly taking all they can get. The heavy demand in other directions has absorbed so much coal that the Lake trade has readily taken up the slack.

It is becoming increasingly difficult to maintain prices in the eastern bituminous trade. Some of the important distributing centres are more or less closed and the markets are steadily narrowing down. Shipments in the export trade are only fair and should there be further recessions along this line it will merely test the resisting powers of the market since these are an important factor in maintaining the present level. The most determined effort will be necessary to avoid a heavy slump in all directions. Rumors are current that shipments on some of the foreign contracts are already about finished.

The opening up of some domestic buying in the Pittsburgh district has been a bright spot in an otherwise uniformly dull situation. Both railroad and manufacturing demand is light while the close of the season places the tonnage at one third less than last year; it is later than a particularly disagreeable attitude of the railroads in refusing to buy beyond their immediate requirements has also proved a depressing factor. Should the rumors of a proposed moratorium in Canada develop into a reality this will tend to complicate negotiations and make the American operators even more cautious.

The heaviness in the Ohio steam market has reached a point bordering on demoralization and the depressing effects are spreading to the domestic branch as well. Production is somewhat reduced as a result of the adverse conditions which are consistent with the operations of the year. The Lake trade is the encouraging aspect in the Ohio trade; a moderate season-end rush has developed which has created some activity in this department. As a rule the rivals are in excess of requirements.

Local business in the southern market is at more or less of a standstill; some small shipments have been made to foreign markets but no important tonnages have so far been reported.

The wide difference between the steam and domestic grades in the middle west has been further accentuated. The shortage of high-grade domestic fuels created a stampede in that market, culminating in a spectacular advance in quotations. On the other hand operators are in some instances giving the steam fuels away for the cost of the freight or making arrangements to be supplied with side-dump hopper-bottom cars to that the coal can be dumped on the right-of-way. Mines as a rule are probably working on a slightly better time. An increasing buying movement on the part of the railroads is the best feature of the situation at the moment.

THE PROOF
 of a kitchen coal is in the baking. Hence the care we take in selecting our

First Actual Picture From Naval Battle In This War--Sinking of the Battleship Mainz

BATTLES AT SEA DECIDED AT FIVE MILES OR MORE DISTANT

This drawing was made from a pencil sketch by an English naval officer who was aboard an English torpedo boat which steamed up close to the Mainz to rescue drowning Germans during the battle of Heligoland. Accounts of this battle told that the German battleship was completely riddled and put out of action before she sank.

When battleships go into action how are they fought?
 What can the new dreadnoughts do?
 How long will the battle last?
 It all depends upon the men. Skill, training and cold-blooded bravery, more than ever determine victories at sea. Romance disappeared with the short-range gun. Science has taken its place. Fleets no longer spend hours manoeuvring for the "weather gauge" nor do they close in and hammer each other "yard arm to yard-arm." The 25,000-ton battleship ships about as easily as a tugboat. Battles are decided before the opposing sailors can see each other.

Every ship of the line carries from ten to twelve of these big rifles which cost \$50,000 apiece. The guns fire 800-pound, armor-piercing shells at the rate of two a minute. At 10,000 yards such projectiles cut through the heaviest armor made as easily as you slice a melon.

Other variables have to be allowed for. The officer is a man of rare judgment and quick decision, but so many conditions enter into his calculations that misses are more frequent than hits. If that was not the case the battle would end in five minutes, for one or two 18-inch shells accurately placed will put the biggest battleship out of commission.

ALASKA COAL LANDS ARE TO BE LEASED
 U. S. Senate Has Passed Measure Empowering Government to Proceed

Washington, Sept. 30.—The senate has passed the Alaska Coal Land Leasing Bill. The bill provides for the leasing by the federal government of coal lands in Alaska in blocks of forty acres each or multiples thereof, but in no case exceeding 2,500 acres. A royalty must be paid of from two to five cents per ton, and an annual rental at the rate of 25 cents an acre for the first year, fifty cents an acre for the second, third, fourth, and fifth years, and \$1 thereafter.

WENT DOWN WITH HIS SHIP
 London, Eng., Sept. 30.—It is recalled that Admiral Sir John Jellicoe, who is commanding the British fleet in the North Sea, which is expected to destroy the German fleet, was captain of the battleship Victoria, which was rammed and sunk in the Mediterranean by the English cruiser Camperdown in 1898. That was perhaps, the most famous naval accident of the last century. Hundreds of the Victoria's crew were lost. Jellicoe went down with his ship, but was picked up.

Waltham Watches

Generally speaking, extremely thin watches are to be regarded with caution. But when Waltham places its name upon a watch, that watch is right.

The Waltham "Colonial" Watches are wafer-thin, supremely strong, supremely handsome. And they keep time as well as they look. These artistic timepieces satisfy the most exacting requirements of business, professional and social life. They give a lifetime—and more—of that kind of splendid service which is summarized in the word: "Waltham."

You can get an excellent Waltham "Colonial" Watch for as little as \$29 and the full Waltham guarantee goes with it. Ask your jeweler to show this watch to you.

Write for booklet and general information.

GRAY HAIR RESTORED BY NATURAL MEANS
 Don't Use Dyes—They May Harm—Let the Action of Hair Bring Back Natural Color

Those gray strands that streak your hair and all too convincingly remind your friends of your advancing years will positively and surely yield to the gentle, harmless, restoring influence of Hay's Hair Health. You simply moisten the hair with this wonderfully effective preparation and the natural color begins at once to come back.

Hay's Hair Health is not a dye—it restores color by NATURAL FORCES. It contains good old-fashioned remedies which strengthen, up-build and revitalize the hair, and with them is an element which so prepares the hair that when it is exposed to AIR it comes back to the color that nature intended.

You don't have to use deleterious and destroying drugs—you can let so harmless and wholesome a thing as the AIR YOU BREATHE help you to get rid of gray hairs you now have and KEEP OTHERS FROM COMING IN.

No matter how gray you may now be, no matter what else you may have used, begin at once using the NATURAL restorative—Hay's Hair Health. It restores dandruff, freshens dull, lifeless hair. It makes the hair YOUNG looking, brings back its lustre, softness and luxuriance.

It falls, druggist will refund price. 25c., 50c., and \$1.00 at Drug Stores or direct upon receipt of price and dealer's name. Philo Hay Spec. Co., Newark, N. J.

For sale by E. CLINTON BROWN.

If you have a 32 to 35 chest we have special suits for you. Designed, cut, and made in the extreme style for chesty young men who want the hot stuff right off the bat. Prices \$12 to \$32.

Overcoats for Fall wear. Prices \$12 to \$30.

For color, fabric and cut, some of our Overcoats are rather unusual this Fall, but are the exactly right style.

Book For Men, Free
 8,000 Words, 30 Illustrations

TO MY READERS:
 Of the little illustrated advice book described below, which I gladly send free to all men who fill in the coupon. I beg to say that it represents the very BEST information of a private nature which I am able to offer you as a result of over 25 years' observation and study of my subjects. During that time I have personally interviewed many thousands of men, young and elderly, single and married, rich and poor alike, who came to me in confidence with their confessions of debility, lost nerve force and falling strength.

It is, reader, this vast and unusual opportunity which has enabled me to compile this very popular and valuable little free book (over a million of which have been sent everywhere to men who wrote me for them), and in a manner to reflect the exact living, breathing experience and needs of real men who sought information as to the newer ways of self treatment without the use of drugs.

Remember, this book of over 8,000 words and 30 illustrations will come to you by return mail in reply to your request, and in a perfectly plain, sealed envelope, for it is no one's business but your own what the envelope contains. There is absolutely no obligation on your part to buy anything or pay anything, and merely the receipt of this book does not mean in any way that you are to use any of the VITALIZERS (see description below) and, in fact, only a portion of the book has any reference to the VITALIZERS at all. Primarily it is a compendium of useful information for private reference, which you and all other men may easily profit by through life.

Therefore, please use the coupon, or, if nearby, I should be very glad to have you call.

SANDEN, AUTHOR.

It is a fact, reader, which you and I must recognize and admit, that the whole world admires and is fascinated by strong, vigorous, husky, manly, manhood, and we must also admit that it is this same manhood and this alone which is back of the real leaders and producers in every walk of life. No matter where we go, we find it to be the manly, vigorous, vital element which is back of the front who fascinates men and women of this community, who does the really great things. An unmanly man merely means nature's laws gone wrong, for it is he who halts and hesitates, who takes the back seat, who does not fit into the picture in a way that a manly, vital nature should. And yet, reader, it is my firm belief that any man, no matter what his past, no matter what dispositions or follies may have left their mark upon his physical and mental being, I say to you that such a man, unless there be some unusual reason, may hope for a complete return of his strength, vigor and self-confidence, if he but go about his self-treatment.

Manly Men Move the Whole World.
 restoration in a natural, commonsense way.

I make a little appliance which will call a VITALIZER, because I think that is the best word to describe its strange power. I don't want you to think of getting one of these VITALIZERS just now, but I would like to what I believe can be accomplished by almost any weakened man who uses this VITALIZER faithfully for a few weeks. I speak, of course, of him who is willing to give up dissipation and lead a decent, conservative life, not only while using the VITALIZER, but for the future. The other kind of man, the dissipated, can hope for nothing from any treatment, no matter what it may be, hence such a man is eliminated from my consideration.

This little VITALIZER is made to wear upon the body all night. It weighs only several ounces and is no more unhandy than an ordinary belt, yet it generates a great FORCE that I call VIGOR, which flows into your blood organs and nerves while you sleep. Men say it often takes any pain or weakness out of the back in one application, and that 40 to 80 days' use has been sufficient to restore manly strength and to put men in the "never felt better in my life" class. Special attachments carry the FORCE of the VITALIZER to any part of the body, for the use of women as well as men in cases of rheumatism, kidney, liver, stomach, bladder disorders, etc.

Over two hundred thousand of these VITALIZERS have been used or are now being used by men all over the world.

You had better learn more of the VITALIZER. It is fully described in my free book. If you live near me, why not call and test the VITALIZER yourself?

WHAT THE FREE BOOK TELLS
 The free illustrated advice book mentioned above is meant to be a simple declaration of certain important truths that every man in the world should know. The day has gone by when men are kept in ignorance of the real problems pertaining to these private subjects, and this illustrated advice booklet, which I send to men sealed, by mail, gives certain important facts relating to sex, just as these facts are. The booklet also fully describes my VITALIZER and you are told how you may get one for your own use if you decide that you want one. Please use coupon below, or call. Hours 9 to 6.
