

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

The general health of woman is so intimately associated with the health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness. Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in Dr. Pierce's Favorite Prescription. Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, Free., Buffalo, N. Y.

NICKEL. The Nickel enjoyed good patronage again yesterday despite the inclement weather, receiving the value of meritorious programmes. Today the distinguishing feature of the bill will be a new Camera Chat, written by Julian Mortimer Cochrane, the noted American traveler, with photographs by the same eminent person. This chat will deal with Delightful scenery in the Land of the Eternal Smile. Japan is all scenery and here you may see that which is best from Nikko to Nagasaki. As this is the first Camera Chat for some time, as there is a keen demand for the series in the larger American cities, the Nickel management urges all lovers of good pictures not to miss this treat.

THE LYRIC. Although the weather man did not hold out a very strong inducement to people to leave the cozy home fireside last evening, the Lyric Theatre was well filled at each performance. The fine list of pictures and the vaudeville added an hour and a half to the new photograph plays scored well, especially the fine film, "Hunting Lions in the Wild." The picture was so much enjoyed, and it is expected that the singing duo of Ingram and Seely will give as much pleasure as any other act of its kind seen in the city for some time. Both are said to be the possessors of a rich voice and will offer something a little different from the usual singing entertainment.

BIG FIGURES IN THE G. P. R. "FLEET CALENDAR"

The "Fleet Calendar" of the C. P. R. has been received. It is a handsome example of the lithographer's art, showing in colors, the enormous fleet of managers owned and operated by this great Canadian corporation. The calendar is bordered in simple leaves and contains a list of the names of the steamers owned and controlled by the company. There are more than 10,000 miles of railway, sixty-seven steamships and fifteen boats in the system. Of the steamers, Edgars are in the Atlantic service; two on the Great Lakes; two ferries, twenty in the British Columbia lake and river service; twenty in the British Columbia coast service; and four in the Pacific service. The crews and daily coal consumption of 2,983 tons. If placed in a single line these vessels would reach a distance of three and a half miles. The distance travelled by these ships in a year is 1,422,070 miles, equal to fifty-seven times around the globe.

METHODIST DELEGATE APPROVES SUNDAY BALL AND MOVING PICTURES

Dr. Peterson of Ohio Draws a Striking Reply From Wesleyan University President

Chicago, Dec. 1--Delegates gathered here for the Methodist national conference for social service were told yesterday by one of their number, that Sunday baseball and motion pictures, long under ban of the Methodist church, were all right and should have the official sanction instead of the official ban.

Dr. Edward A. Peterson, of Goodrich House, Cleveland, Ohio, was the advocate of Sunday amusement, and his paper on "The place of recreation in the modern city," brought forth considerable opposition. Dr. Peterson said: "It is good and wise legislation which forbids work on Sunday, for that is the only way of assuring its being observed. But where we forbid play we make Sunday a day of idleness for most young people. Of course we must insist on observance of church services."

In reply, Herbert Webb, president of Ohio Wesleyan University, who was presiding, said: "Why, if the Methodist discipline, the book of Methodist laws, had been on this reading desk and heard that, I would have expected it to crawl to the edge and fall overboard."

OUR POTATOES THE BEST IN DOMINION

That New Brunswick potatoes are recognized throughout Canada as the finest that are grown, is evidenced from the Cobalt Daily Nugget in its account of the Tensimanting Fair recently held in New Lis-leard. The Nugget says:--

"T. Delworth, of the Fruit Growers' Association, spoke very highly of Tensimanting's potatoes. At present it is a well known fact that New Brunswick produces the finest potatoes in the Dominion--the Delawares. Mr. Delworth stated that New Lis-leard had some of these potatoes on exhibit, grown in Tensimanting, which he was sure were every bit as good as the New Brunswick potatoes. He advised the farmers to keep to one kind of potatoes and said if they produced potatoes as good as the New Brunswick farmers that they would be able to demand 10 to 15 per cent. more than Old Ontario farmers."
