BELIEVE FIRE WAS INCENDIARY

Department of Lands and Mines Investigating Blaze at Lower St. Mary's—Normal School Opening.

Fredericton, Aug. 21.—(Special).—A fire which occurred on lands of John Holland and A. E. Hanson, at Lower St. Mary's, is believed now to have had incendiary origin. There were no blueberries in the vicinity to attract berry pickers. An old camp was destroyed in the fire, but there is nothing to indicate that the fire started there. The matter is under investigation.

The department of lands and mines today received no reports of fires.

Today is the last date for the forwarding of applications for entrance to the provincial normal school. Indications point to a large attendance. Normal school will open Monday, September 6.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN SUCCESSOR TO "THE MIRACLE MAN"

George Loane Tucker's Great Production "Ladies Must Live." Now at the Imperial.

In the screen world, until the death of George Loane Tucker, the name of the producer of "The Miracle Man," was steadily increasing power. It stood for the best the screen has to offer in the way of beautiful, massive, and unerring picture offerings. That another picture which bears the stamp of his genius, the last he made, should be released by Paramount is an event of supreme importance not only to the motion picture world, but to Paramount exhibitors themselves.

"The Miracle Man," Betty Dyer Miller, and as it strikes a vital note in the daily lives of men and women, it seems certain that it will prove a magnet second only to its great predecessor, "The Miracle Man." Betty Dyer Miller is supported in this eight reel production by Mahlon Hamilton, Robert Ellis, Lorraine Joy, Cleo Madison, William Wong, Leita Edwards and other notable stars.

CHEERING NEWS IN THE U. S. COAL MINE SITUATION

Pennsylvania and Michigan Miners Returning to Work.

(By Canadian Press.)

Philadelphia, Aug. 21.—Representatives of anthracite workers and owners here again today for another session of the negotiations to reconcile the differences between the two factions which have kept the hard coal mines idle since April 1.

Both national and state governmental influences are being exerted upon the owners and operators to make every concession possible.

Enough offers have been reported to be on hand in the collieries to keep the mines producing more than the normal amount for months.

Significance was placed in the fact that mine union leaders and operators have arrived at a point in Saturday's session where terms of a possible contract were discussed.

Another Shift Proposed.

London, Aug. 21.—(Canadian Press)—The influx of orders for coal due to the strike in the United States has led employers on the northeast coast to suggest a continuous loading system by the addition of a third shift of workers.

Trade union leaders strongly objected on the ground that such an extension would amount to international backbiting. It is contended moreover that a third shift is sufficient to meet all demands.

In the course of the negotiations with employees, however, they concentrated on the second objection resulting in protracting the discussions, but an agreement has now been signed under which the men will work two hours overtime daily, until October 31 when the matter can be further discussed if a third shift is found necessary.

MORE VIOLENCE BREAKS OUT IN U. S. RAIL STRIKE

Chicago, Aug. 21.—Disorder continued to flare in the railroad shop workers' strike during the early hours of its eighth week despite peace negotiations pending at New York and assurances by chiefs of the "Big Four" that no sympathetic strike of train service employees impends.

On the Atlantic side new disorders occurred at Columbia, S. C., where eleven men brought in to work in the shops of the Southern Railway were attacked by a crowd of strike sympathizers.

Hostilities broke out again in San Bernardino, Calif., where four men, employees of the Atchafalaya, Topeka and Santa Fe shops were attacked and beaten.

Hurrying to Kansas City following a near riot in the Chicago Rock Island and Pacific shops there, Governor Allen of Kansas gave Mayor Harry Barton twenty-four hours in which to restore order, threatening to send troops if the situation did not improve. Governor Allen said he was informed that gunmen had been imported to intimidate men who wanted to work in the railroad shops.

STOP NEGLECTING YOUR EYES

We often hear such remarks as "My eyes are getting old" or "I'm putting this off for months."

Your eyesight, next to life itself is nature's greatest gift. You can't afford to neglect it.

Don't delay until headaches or falling night compel you, but have your eyes properly examined now.

A good pair of glasses, if needed, may double your pleasure and increase your efficiency.

Will Your Widow Dress as Well as Your Wife Does?

A queer question? Well, perhaps—but it's intensely serious. It means, in other words—Have you made adequate provision for your family in the event of your sudden death?

Not a pleasant thought, maybe, but a far more unpleasant one is that the wife and little ones you love and cherish may next week be left penniless and dependent upon the charity of friends.

By investing a few dollars a year in an Imperial Home Protection Policy you can ensure that they will be comfortably provided for even though you should die next week. And they deserve that much sacrifice on your part—don't they?

Our booklet, "The Creation of an Estate," tells all about it. Ask for a free copy to-day—because you never know when you may be uninsurable.
