PROMENADE BAND CONCERT.—Another concert will be given by the City Cornet band at the Palace rink to morrow evening for which band master White has prepared a fine programme of popular selections. These indoor concerts are bound to become popular as they fill a long felt want and provide an evening of good music at merely a nominal cost. Plently seats are provided and the building is cool and comfortable. No dancing is allowed.

OVER THE SHORE LINE.—The excursion over the Shore Line Railway yesterday was well patronized. It is becoming more popular each week as all who go over the road once are more than satisfied with the accommodations afforded. Yesterday the greater number of passengers went through to St, Stephen. Two young gentlemen who left the train at Little River exhibited four dozen splendid trout when they boarded her on the return trip. Next Sunday's excursion will likely be fully attended.

EAST ENDERS CAN'T HAVE ANY.—The Artillery band will play the following on King street, Carleton band stand this evening.

On Tuesday and Friday evenings the Carleton Cornet band will occupy the stand.

NEW STREET TO BE OPENED.—Work will be commenced Wednesday of this week on the making of the new street which is to be opened up between Sydney street and Charlotte street extension near the new Waring & White foundry. The street has already been laid out by the city engineer. The work of excavating and grading it will give employment for some time to quite a number of men as there is one place alone out of which about 12,000 yards will have to be excavated. The heavy rock cutting at Fort Howe to widen Main street is nearly finished and the men who have been quarrying there will now be put to work opening up the new street.

LOUIS GREEN, has recently made one of the largest importations of Havana cigars ever made in St. John. His stock is therefore complete in all the finest brands, and fresh. To the regular smoker this will be good news, for nothing is so acceptable as a finely flavored Havana.

Main Street Widened.

The widening of Main street opposite Orange corner has greatly improved the appearance of that portion of the great thoroughfare. Tens of thousands of yards of rock have been quarried out of the side of the historical hill and hauled away to the lower streets for retaining walls and grading purposes and the job though costly is one of the greatest in the way of street improvement that has been done in the city for years. The old Fort Howe road now Portland road has been set back into the hill enough to make it join Main street about 80 feet further west than formerly and the point of rock which formerly jutted out into Main street opposite the Orange corner has been cut off to a width of about 16 feet at the point running off to nothing at the shoe factory opposite Acadia street. When this portion of the street is paved the Main street pavement will be completed to Adelaide road or over two-thirds of the whole distance to Indiantown from Market square.

Beaten and Robbed.

Walter Baxter, a peddler arrived in town early yesterday with both eyes blackened, and a general appearance of break-up. He stated at the police office that he had been way-laid on Douglas road, dragged out of his carriage, beaten, and robbed of some fifteen or sixteen dollars, all the money he had about him. Furthur particulars of the case showed that Baxter had been drinking, and that he had left his team standing outside the Cantilever house late Saturday night and had himself repaired within to get a drink. He talked a good deal and as far as the proprietor of the house could tell he did not get into his wagon at all, the horse having started off on its way home alone. There are palpable evidences that Baxter was beaten, and the chief of police is looking up the matter.

Financial.

Henry Clews & Co., report under date New York, August 15th:—

The wheat crop now promises to surpass both in quantity and quality the earlier estimates, 580 to 600 million bushell being now regarded as not an impossible yield. The special importance attached to this fact is that wheat being so largely an export crop this unprecedented supply of it gives us the greater power for controlling the return of the abnormal exports of gold for the last eight months. If Europe should need double the average supply of American wheat of the last ten years, we shall be in a position to send it. This fact cannot reasonably be denied a favorable allowance in estimating the probabilities of a reflux of gold to the United States.

It is quite possible that unfavorable features in the condition of European finances and commerce have been exaggerated in the common estimate. It always happens, after a panic, that fear and apprehension unduly sway the public mind and make the after-effects more serious than they might or need be. But it is well to remember that two panics never come in immediate succession. Immediately after the crash, recovery sets in and though it may proceed slowly amid timidity and caution on every side, yet, the process is one of sure improvement. Extraordinary as have been some of the aspects of the late European panic, yet the practiced financiers of London, Paris and Berlin know how to gauge the magnitude and bearings of the crisis with infallible exactness; and it is perhaps quite safe to say that the idea prevailing on this side of the Atlantic, that those men are trembling with apprehension at the probability of further great commercial or financial disasters, is a broad misconception, and one which does not reflect favorably on the average information of the Wall street observer.

We have now—a week or two later than usual—reached the turning point in the domestic exchanges, and money has begun to flow westward. Although the amount of the reserves of the New York banks is double what it was at the same time last year, yet that may not prevent our local cash resources being drawn down to a point threatening stringency. That is a matter, however, that can only be determined by experience. It is not to be overlooked in this connection that the active circulation of the country has increased some 70 millions during the last 12 months, which, in the absence of any increase in the trade of the country, should pass for an element of some importance in estimating the prospects of the money market.

Having stated some of the factors which lack of space excluded from our last week's review, I would nevertheless repeat the opinion then expressed,—that the bearish element does not seem to have fully exhausted itself; hence the point does not appear to have been reached at which it is safe to load up heavily with stocks, except for brief turns, and the buying should be confined to periods when slumps are produced by the active traders.

Provincial Points.

A valuable copper discovery has been made near Minudie in which Dr. Cove and L. A. Petrie are interested.

A diamond drill is boring near Maccan station on the areas of the Canada Coal Co. The hole is down about 130 feet, Mr. F. Barrows is imployed at this work.

A traveller tells us that postmasters on the North Shore are selling two cent stamps for one cent and a quarter. He recently bought thirteen over there for that price. Catch on?

Mr. J. L. Stewart, publisher of the Chatham World and commodore of the Miramichi Yacht Squadron, is in the city. Mr. S has been attending the annual gathering of the Oddfellows at Yarmouth.—Halifax Mail.

Conductor Wellington Treen, of the I. C. R., died at his home, in Moncton on Saturday. Deceased had been ill about a year and a half with a consumptive ailment. He was 30 years of age and leaves a wife and one child.

The sensation of the day is the application of J. A. G. Aikens, of Winnipeg, son of ex-lieut. governor of Manitoba, for a divorce from his wife, who is the daughter of Hon. A. W. McLelah, who was in his lifetime minister of finance and lieut. governor of Nova Scotia. Aikens charges his wife with desertion, adultery and bigamy.

At Campbellton, on Wednesday afternoon, Mr. Lacasse's family while driving over the lower railway crossing, were run into by a special train. The horse was killed and the carriage completely demolished. There were six occupants, and all were more or less injured. One child had her arm cut off above the elbow and another had her collar bone fractured.

We have a valuable relic in this office in the shape of a riveting hammer, dug up at Grand Pre in September 1870, by Mr. J. I. Brown, of Wolfville. It was found three feet under ground in a mass of blacksmith clinker, and is evidently a French hammer, used by the Acadians previous to their expulsion. The hammer weighs fifteen ounces, and has a round steel face and a flat steel laid peen. The temper in the hammer is as good, apparently as when made.—Acadian.

There was a sad sight at the police court this morning. A grey haired old man named Thomas Nowlen who has only one leg was brought before the magistrate on a warrant taken out by his wife charging him with insulting and illusing her. He said he was 75 years of age and a cane worker by occupation. His better half is also very old, probably older than the husband. She told a pitiful story of illtreatment, but her demeanour betrayed the evident fact that she is the ruler of the household, and as the prisoner seemed penitent, his honor advised them to go home and be friends again. She wouldn't walk out of the court with her husband, saying to the policeman who advised her to do so, "He's a villain, so he is."—Halifax Mail.

St. Andrew's Rink.

Mr. Rufus Somerby, the genial manager of the Parlor Musee at St. Andrew's rink, has made a valuable, and it might be said an extensive addition to his musee, in the person of Miss Maude Muller who weighs 865 pounds avoirdupois. Miss Muller is 26 years of age, described as handsome, though rather embonpoint in appearance. She will be exhibited by the side of Prince Tinymite, who weighs only ten pounds. Those who pay ten cents to see this living monument of human greatness will, as Manager Somerby says, see a great deal for little money. Everyone will have to go again this week to the musee, because only a small portion of the attractions have been seen when Mss Muller yet remains to be seen.

Freights and Charters.

Messrs. Scammell Bros. of New York in the freight circular of the 15th inst say "The continued moderate available supply of square rigged vessels adapted to distant foreign business has enabled owners and agents to obtain full rates for petroleum and other freight, even though the enquiry has not been very brisk. A number of ships have been committed during the week for case Oil to the East at 15 cents to Calcutta, 23½ @ 24 to Hong Kong and 20 @ 22 to Java from New York, and 24 @ 25 to Japan from Philadelphia. The figures for barrels have not been very numerous, but for the Continent and Baltic the best rates of the season have been obtained. General cargo freights are firm, but quiet. Deal and Timber freights are likewise firm, with a good enquiry for tonnage in the right position. Naval Store freights continue brisk, and for spot and near-by vessels 3-3 @ 3-6 on Rosin, and 4-6 @ 4-9 on spirits has been paid from Savannah to Cork for orders. South American freights, both coasts, remain quiet and unchanged. Outward West India and other short foreign freights are still very firm, due rather to poor return business than to much urgency of demand. Coastwise lumber freights from the South hold their own, with some indications of an improvement later on. Business in this line would doubtless be more active, if outward freights were not so scarce. The coal trade is greatly depressed, the extreme low rate of 40 cents having been accepted to Boston and Salem by large carriers during the week.

The following charters are reported:—Ship Andelana, San Francisco to Cork, for orders, grain, 47s; ship Asia, 55,000 cases petroleum, New York to Shanghai, 28 cents; bark J. L. Smith, 3,400 bbls. do, do to Hamburg, 2s, 4½d; Harry Buschman, 3,500 bbls., Naptha, do to Antwerp 3s, 3d; ship Munster, 8,500 bbls refined petroleum and naptha, do to Liverpool, 2s 1½d; bark Silicon, 4,000 bbls crude oil, Philadelphia to LaRochelle, 3s; schr. Stabbed During a Row.

Wm. Dodd, who gives his age as 40, is now under arrest at the police station on the charge of stabbing Arthur Gillespie, who keeps a grocery store on Erin street. Dodd and Gillespie got into an altercation on Saturday afternoon, and the result of it was that Dodd was roughly handled, and Gillespie cut in the abdomen with a pocket knife. Gillespie did not know he was stabbed until a couple of hours later when he discovered his under-garments saturated with blood. Dr. D. E. Berryman was called and ordered the injured man to bed. Dodd was arrested, and to-day was remanded until Gillespie can appear against him. A knife was found in Dodd's possession.
