It is of vital importance for women to know that the health of mother and child is in general entirely within woman's control. The thousands of women who have used Dr. Pierce's Favorite Prescription when expecting motherhood, have testified that it made them healthy and happy in the days of waiting, made the baby's advent practically painless, and gave them health to give their chil-

Mrs. W. J. Kidder, of Hill Dale Farm (Enosburg Center), Enosburg, Vt., writes: "During the past year I found myself expecting maternity, and in rapidly failing health. I suffered dreadfully from bloating and urinary difficulty. I was growing perceptibly weaker each day and suffered much sharp pain at times. I felt that something must be done. I sought your advice and received a prompt reply. Took twelve bottles of Doctor Pierce's Favorite Prescription, and also followed your instructions. I began to improve immediately, my health became excellent, and I could do all my own work (we live on a good sized farm). I walked and rode all I could, and enjoyed it. I had a short, easy confinement and have a healthy baby boy."
