WHAT THE BABY CAN DO.

in wear out a one dollar pair of kid shoes
 nny-four hours.
 an keep its father busy advertising in the
 apers for a nurse.
 an occupy both sides of the largest sized
 anufactured, simultaneously.
 an cause its father to be insulted by every
 -class boarding-house keeper in the city
 "never takes children," which, in nine cases
 en, is very fortunate for the children.
 can make itself look like a fiend just when
 it wants to show "what a pretty baby
 it is."
 can make an old bachelor in the room
 ing use language that, if uttered on the
 , would get him into the penitentiary for
 years.

It can go from the farthest end of the room to the foot of the stairs in the hall adjoining quicker than its mother can just step into the closet and out again.

It can go to sleep "like a little angel" and just as mamma and papa are starting for the theatre it can wake up and stay awake till the last act.

These are some of the things a baby can do. But there are other things as well. A baby can make the commonest house the brightest spot on earth.

It can lighten the burdens of a loving mother's life by adding to them. It can flatten its dirty little face against the window pane in such a way that the tired father can see it as a picture before he rounds the corner. Yes, babies are a great institution, particularly one's own baby.
