<text><text><text><text><text><text><text><text><text><text><text><text> Mr. Dingley Gives an Estimate of the Increase in Revenue from His Bill. Washington, March 19.-Chairman Dingley of the ways and means com-mittee today presented in the house the report on the new tariff bill. The the report on the new tariff bill. The report follows largely on the lines of an explanatory statement of the bill made by Mr. Dingley on Monday. Mr. Dingley says that wool has been placed practically at the rates of the McKinley law, with compen-satory duties to manufacturers to place them on the same basis as to materials with their foreign commuti-

materials with their foreign competi-tors, and in addition given compound duties, largely converted into speciduties, largely converted into speci-fics equivalent to the 40 and 50 p. c. ad valorem duties of the tariffs of 1890 and 1894, the change to specific rates being made to prevent under valuations of foreign goods made by cheap labor. The new schedule, it is predicted, will restore the wool growing industry to the farmers, re-viving manufacturing and largely in-crease the revenue from that source, which because of the character of fine goods imported under the tariff of 1390 was practically derived from luxuries.

uxuries. Concerning the sugar schedule, the report says: "We have increased the duty from the 40 p. c. ad valorem im-posed by the present tariff on raw sugars (now only 9-10 of one cent per pound on raw sugars polarizing 96 degrees on account of the decline of sugars although about one questor

sugars, although about one-quarter conts when the tariff was enacted in 1894) to 1.63 cents with a counter valing duty on all sugars equal to the net export bounty paid by any coun-try in order to increase our revenue and at the same time afford sufficient

protection to enable our own farmers and planters to uttimately produce whatever sugar we may require for consumption. The production of cane

sugar is a large and, under proper protection, a growing industry now. "The production of beet sugar in at least 23 states of our union, which

present determination to break what should before all mea constitute an inviolate pledge of hono. That the Hon. James Mitchell as surveyor sent government, and who himself (by the vording of Mr. Blair's letter of 1883) ar-ranged and planned the leasing of 0 romocto lake for the presumed preserving of the fish and the better sport for the public in the future, is recreant to all that is just and fair by advocating the continued leasing of this lake, and which is in direct contradie-tion and violation of his own policy of 1858. As a proof of the government's dis-play of chass legislation, the following attract of a letter from the surveyor general's office, dated March 13th, 1897, may be quoted. After stating that the "streams and lakes as now advertised will be sold, with the exception of the Bartebog River," it continues, "A number of other streams and lakes will be left open for free fishing, and no application will be received for

no application will be received for them and no lease given." Why should the government receive

an application from W. H. Barna (the applicant for the South Branch Oromocto.) and refuse a similar ap plication from any other citizen or c izens for the other lakes in the pro-

Ance. The death of Mrs. A. A. McLean, who had gone to North Carolina for her health, was reported here yester-day. Mr. McLean left here on Sun-tiving; when after years of doctoring with all sorts of patent medicines and alleged spec-latties, he discovers a remedy that brings back to him the power and physical energy that seemed to him lost forever, he natural-iy feels generous. He wants his fellow-me

Application has been made to Mr. Justice Hodgson for a rule nist for a writ of certiorari on behalf of Thos. Morris to quash Scott act conviction against him. It was shown before the magistrate that Mr. Morris trans-ferred some liquor in band, and the magistrate held this to be a violation of the Scott act. The judge granted the rule, returnable next Easter term. Thillip Curley and Lemang Martin were committed to jail on Friday for two months for violation of the Scott act. Mo Monday Annie Court was con-victed in a first infraction of the Scott act. At a shooting match at Pownal on Saturday lest, between teams repre-senting Pownal and Chartotteown, Pownal won the victor by 20 points.

victed in a first infraction of the C.
r. A. act and fined \$50 and costs or two months. A case against John Connolly was dismissed and one against James Steel adjourned.
At a shooting match at Pownal on Saturday lest, between teams repre-senting Pownal and Charlottetown, Pownal won the victory by 20 points.
A branch of the Dominion alliance was organized here on Friday last to be known as the Charlottetown Tem-perance alliance. The officers elected were: President, W. T. Huggan; 1st vice-pres., L. L. Beer; 2nd vice-pres., A. W. Stearns; secretary, Rev. C. W.
Corey; treasurer, J. K. Ross. The executive consists of the above offi-cers, the clergymen of the city and Richard Goff, Mark Wright, David Schurman, W. H. Long and J. J.
Chappell. The membership is com-posed of male ditizens of 18 years of age and upwards to be proposed and elected in the meetings of the alli-ance.
The death of Mrs. A. A. McLean, who had gone to North Carolina for
Vice 20, a total wreck, after having, bet and wreck and upwards to be proposed and elected in the meetings of the alli-ance.
The death of Mrs. A. A. McLean, who had gone to North Carolina for

THE MARKETS.

Revised Every Monday for the

Weekly Sun.

COUNTRY MARKET.

COUNTRY MARKET. Beef has advanced a little during the last two weeks, and continues firm. The supply of pork is ample, and demand a little less active. Rather more than usual came on the market hast week. Eggs went down to be the market hast week, and then supplies fell off a little, so that on Saturday the market was firm, but no higher. The dealer for from Carleton, York and Kings counties, but for the present are fully stocked and and poultry there is now a marked difference be-tween fresh and frozen stock. The former sells at a good price, the latter is not much wanted. Veal is easier. Butter is cheap. There is too much dairy butter offered, and even Ontario creamery can be got here at retail for 20: or less. Wholesale.

LUMBER AND LIME.

LUMBER AND LIME. The United States lumber market has improved a little. Shipments also a little larger, but there is no marked activity. The deal mar-ket is dull now, as most of the large con-tracts on English account have been made. The English market is steady, and in a healthy condition. Two barks and a steamer cleared last week for the other side with lumber.

\$113,000,000, Mr. Dingley says: "If the bill should become a law by May 1st, it is more than probable that it would yield an increase of \$75,000,000. It is easy to see how a delay in the enactment of the bill to July, for example, would easily take from the treasury \$15,000,000 of rev-enue and turn it into the pockets of speculators importing wool, woollen goods sugar and other articles on which it is proposed to increase the revenue and at the same time de-prive wool growers and producers and manufacturers of the benefit that would arise from the prompt passage would arise from the prompt passage of the bill proposed."

THE PROVINCIAL FISHERIES.

Proposed Leasing of South Branch Violation of a Government Pledge.

A large meeting of the Trout Pro-tective association and those opposed to the leasing of trout streams and lakes was held 19th inst to protest against the action of the government in leasing the South Branch of Oroin leasing the South Branch of Oro-mocto Lake, in spite of the pledge given to the association in 1888, that on the expiry of the then lease, no further lease would be issued. After a spirited discussion, in which the action of the government was con-demned in no doubtful terms, the fol-lowing resolutions were unanimously adouted.

iowing resolutions were unanimously adopted; That the pledge given by Messrs. Blair, MoLellan and Mitchell in 1888 is a pledge of honor that under no circumstances should be broken and that if not carried out in true faith this association considers it as degrad-ing to the executive of the present govern-ment, and as displaying a tendency for favoritism and class legislation. That the aotion of the present government in violating the pledge given in 1888 is abuse of power, and is destructive of faith and confidence in the present administration to do what is right, pertaining to the principle of honor, as extract of letter from Hon. A. G. Blair, May 2th, 1820, shows the deter-mination of the government of that period to fully sustain pledge and policy of 1888 as follows:--

<text><text><text><text><text> PILES CURED IN 3 TO 6 NIGHTS.

Dr. Agnew's Ointment will cure all cases of itching piles in from three to six nights. One application brings comfort. For blind and bleeding piles it is peerless. Also cures Tetter, Salt Rheum, Eczema, Barbers' Itch and all eruptions of the akin. 35 cents.
