HARCOURT

Harcourt, Sept. 12.—A quiet wedding took place at St. Andrew's manse on Sept. 6th when Rev. J. R. MacKay united in marriage Sergeant James Murray Cameron, 146th Battalion, C. E. F., and Miss Nina Geddes of Ford's Mills. After the ceremony the happy couple motored to the home of the bride where a reception was held.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health—

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."

Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice—it will be confidential.

How Thin People Can Put On Flesh

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That fat passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of this folk the world over. Your nutritive organs, your functions of assimilation, are probably sadly out of gear and need reconstruction. Cut out the foolish foods and funny sawdust diets. Cut out everything but the meals you are eating and eat with every one of those a single Sargol tablet. In two weeks note the difference. Let the scales be the judge. Five to eight good solid pounds of healthy "stay-thee" fat may be the net result. Sargol stays fat to charge weight, stagnant blood with millions of fresh new red blood corpuscles—to give the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your food to prepare it for the blood in an easily assimilated form. Thin people tell how they have gained all the way from 10 to 25 pounds a month while taking Sargol and say that the new flesh stays put. Sargol tablets are a careful combination of six of the best assimilative elements known to chemistry. They come 40 tablets to a package, are pleasant, harmless and inexpensive. All good druggists in this vicinity sell them subject to an absolute guarantee of weight increase or money-back.

If you find a druggist who is unable to supply you with Sargol, send \$1.00 money order or registered letter to the National Laboratories, 74 St. Antoine street, Montreal, and a complete "diet" treatment will be sent you postpaid, in plain wrapper.
