JAMES COLLINS, 08 and 210 Union Street, St. John, N. B.

JAPS SHATTER VLADIVOSTOK FLEET; RUSSIANS SWEEPED FROM EASTERN SEAS.

Kamimura Follows Up Togo's Victory With Another

One of Czar's Cruisers in Second Fleet Sunk and Two Badly Damaged in Fight Yesterday—Port Arthur Fleet in Various Parts Badly Broken Up and at the Mercy of Victor's Warships—Russian Stronghold in a Bad Way, With the "Little Fellows" Swarming at Its Portals.

Tokio, Aug. 14, 4 p. m.—Vice-Admiral Kamimura encountered the Russian Vladivostok squadron at dawn today north of Tsushima in the Strait of Korea and attacked the enemy at once. The battle lasted for five hours and resulted in a complete Japanese victory. The Russian cruiser Rurik was sunk and the cruiser Rossa and Gromoboi fled to the northward having sustained serious damage. Vice-Admiral Kamimura cables the navy department that the injuries inflicted upon his vessels were slight.

The fate of the crew of the Rurik is not known. It is presumed that many of them were killed or drowned. The strength of the fleet under Vice-Admiral Kamimura is not known, but it is presumed that he had the Adzuma, Idzumi, Iwate, Takasago and other light cruisers.

Tokio is joyous over the news as it gives Japan mastery of the sea and restores commerce.

100,000 Japs At Port Arthur.

Liao Yang, Aug. 13.—(Delayed in transmission)—All is quiet on the eastern front, apparently the Japanese are not attempting any further advance on Liao Yang but are turning all their attention to Port Arthur, concerning which there is considerable uneasiness here. Reports are coming in of several land attacks on Port Arthur during the last few days. It was stated on Aug. 10 that the Japanese had before Port Arthur 100,000 men and 450 guns, of which fifty are Howitzers.

Whether Port Arthur stands or falls, it will lose 30,000 men, if they take the fortress, but if they take it it will be serious for the Russian army as it will result in the releasing of a majority of the Japanese southern forces for an attack on the Liao Yang. The Japanese are to be utterly reckless in the expenditure of both men and ammunition.

Russian advice from Port Arthur which come in at intervals, say that the garrison is nervous for a most desperate resistance and is ready to be annihilated before surrendering.

It is reported that the Japanese are occupying Vladivostok with a small force, that a column of 3,000 is moving up the valley of the Liao river.

Without Killed; Flagship Riddled.

Choo Foo, Aug. 13, 9:30 p. m.—The Associated Press correspondent at Peking today wrote that the Russian battleship Carewichev suffered terrible punishment in the fight of shelling promontory on Aug. 10. The light cruiser Novik was sunk and the Carewichev bore the brunt of the fighting until 4 o'clock in the afternoon, when Admiral Witthoff was hit by a shell which blew his body to pieces, only one of his legs being found after the explosion. Four officers standing near him were also killed. Altogether the Carewichev lost 15 men killed and 45 wounded.

At 4 o'clock in the afternoon of Aug. 11, a Russian torpedo boat, destroyer badly damaged, steamed slowly into Tsingtau and half an hour later the protected cruiser Novik, slightly injured, entered the port. No dead were on board either vessel.

They took off and departed at 3 o'clock on the morning of Aug. 12.

The battleship Carewichev arrived at Tsingtau on the night of Aug. 11, steaming at the rate of four knots an hour and burning immense quantities of coal to make even that rate of speed. Her rear der shaft was broken, one gun was disabled, life boats had been lost, her masts were badly bent, her funnels were dented and her bridge had been twisted out of position. The projectile from the explosion which wrecked her was covered with makeshift stoppers of wood.

The same night, Aug. 11, one torpedo boat destroyer and the cruiser Asold, with five of her guns down and twelve wounded, attempted to enter Tsingtau but were kept out by a Japanese cruiser, whereupon they proceeded to Wooming.

The officers of the Carewichev are of the opinion that the Japanese vessels undoubtedly suffered severely in the fighting as the pursuit of the Carewichev was maintained for a short time only. The vessels the Russian battleship were shipwrecked with blood and the men on board were almost dead as a result of the confusion of firing.

Several Russian cruisers were now reported to be at present off Shantung promontory, near the scene of the fighting, while destroyers on scouting duty are watching the mouth of the Tsingtau harbor. The German warships at Tsingtau tonight are the cruisers Furst Bismarck, Goeben, Hansel and Hertha, the gunboats Leiche and Tiger and two torpedo boats. They control the harbor exit absolutely.

Alexieff Reports The Fleet's Disaster.

St. Petersburg, Aug. 13.—Victory Alexieff, a dispatch to the emperor gives the following report from Captain Matonovitch, the late Rear-Admiral Witthoff's chief of staff, under date of Aug. 12:—

"At dawn of August 10 our fleet was engaged from the port at the open sea and emerged from the port at 9 o'clock. The squadron consisted of six battleships, the cruisers Asold, Diana, Pallada and Stikhsina and the cruisers Nishin and Novik, and eight torpedo boats. The Japanese opposed us with the following force: A first detachment consisting of the battleships Asahi, Mikasa, Fuy, Yashima and Stikhsina and the cruisers Nishin and Novik; a second detachment consisting of the cruisers Yakuma, Kasagi, Chitose and

Takasago; and a third detachment consisting of the cruisers Akitsushima, Idzumi, Mafushima, Iwakushima and Nishinomiya and the battleship Chin Yen, with about thirty torpedo boats.

"Our squadron manoeuvred to gain a passage through the line of the enemy's ships. Meantime the Japanese torpedo boats were laying floating mines in the way of our squadron, thus rendering our progress very difficult.

"At 1 p. m. our squadron, after forty minutes' fighting, succeeded in effecting a passage and shaped its course towards Shantung. The enemy, following at full speed, caught up with us slowly and at 5 o'clock, fighting again began and continued for some hours without either side gaining any advantage.

"In the battle the commander of our squadron was killed and the captain of the battleship Carewichev was wounded. The fleet under Vice-Admiral Kamimura is not known, but it is presumed that he had the Adzuma, Idzumi, Iwate, Takasago and other light cruisers.

Tokio is joyous over the news as it gives Japan mastery of the sea and restores commerce.
