Fellows' Hypophosphites,

HISTORY, VIRTUES, TESTIMONIALS,

SAINT JOHN, N. B.

FELLOWS' HYPOPHOSPHITES has been before the world since 1865, it was invented by Mr. JAMES I. FELLOWS, Chemist, St. John, N. B., has been introduced over a large amount of territory by extensive advertising, and become deservedly popular. It is used and prescribed by the leading Physicians and pronounced A TOXIC FAR SURPASSING ANY COMPOSITION EVER BE-
FORE USED IN MEDICINE.

Now, in full view of its rapid sale, good profit to the retailer, and of its undoubted curative power, an army of imitators throughout the country are manufacturing and foisting their worthless substitutes, and in some cases even copying the subscriber's advertisements, word for word in order to obtain more profit, dishonestly profiting by the justly earned reputation, and interfering in the relief of suffering humanity.

The public are cautioned to ask for Fellows' Compound Syrup of Hypophosphites, and take no other, as it differs from all other preparations in composition, mode of manipulation, and in effect.

It is put up in pint oval bottles, on which the words "Fellows & Co., St. John, N. B." are blown. The name of the inventor, "James I. Fellows," is written obliquely across the inside label in red ink. The name "J. I. Fellows, St. John, N. B." on the yellow wrapper in water mark, which is seen by holding the paper before the light, and the price is \$1.50 per bottle.

NOTE.—Be suspicious of persons who recommend any other articles as "just as good," though bearing a similar name, and of those who offer the cheaper priced article.

NOTE.—It is only the INDEPENDENT, WELL-POSTED, and UNSEL-FISH PHYSICIAN who can afford to prescribe this remedy. Experience has proved this. The highest class medical men in every city, where it is known, recommend it.

Fellows' Hypophosphites

Is adapted for diseases which are produced by loss of NERVOUS POWER, and consequent MUSCULAR RELAXATION, viz:

CONSUMPTION,	BRONCHITIS,
ASTHMA,	WHOOPIING COUGH,
APHONIA,	COUGH,
NERVOUSNESS,	MENTAL DEPRESSION,
NEURALGIA,	EPILEPTIC FITS,
ST. VITUS'S DANCE,	NERVOUS DEBILITY,
DYSPEPSIA,	MARASMUS,
CHRONIC DIARRHŒA,	DYPHTHERETIC PROSTRATION,
FEVER & AGUE,	LEUCŒRŒA,
