SENATE ALMOST CANCELS CLASSES NCIL BACKS DEMONSTRATION ON FEES; WILL MUSTER AND MARCI

Wednesday is the day. Dal's Football field is the place. Between 9:30 and 10:00 a.m. the masses will gather.

At 10:00 a.m. on National Student Day, students from Dalhousie, King's, St. Mary's, Mt. St. Vincent, St. F. X. Xavier Junior College, Mt. St. Bernard, and Acadia will begin their march on the Nova Scotia Legislature.

The march will proceed to the University gates on Coburg Street, down Coburg to Nova Scotia Tech, where more students will join, along Barrington to Prince, and down Prince to the Legislature.

According to Carole Henderson, Chairman of the National Student Day, the march is to be quiet and orderly, placards are not to be carried, and participants are expected to be well dressed. Students are expected to participate.

By GEORGE HARTWELL GAZETTE REPORTER

Dalhousie students will be urged by the Dal Council to march for "an immediate reduction in fees."

Council accepted six out of seven general principles suggested in the AAS brief. The one principle not accepted was that the portfolio of Ministry of Education not overlap with the provincial premiership.

The Council agreed to urge students to support an increase in Federal-Provincial grants from \$3 to \$5 with an equalization formula compensating for the high proportion of students in the Maritimes.

They called on students to support demands for an immediate reduction in fees.

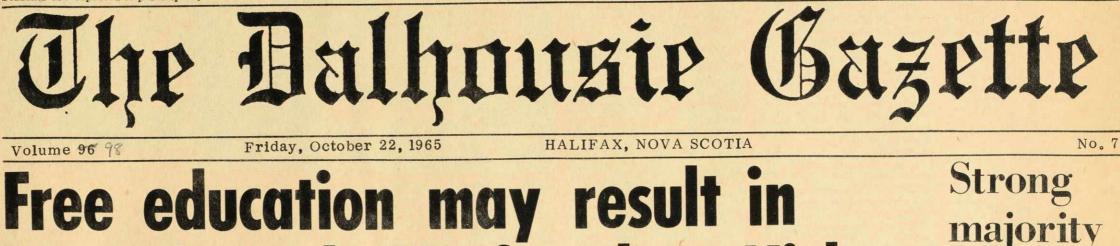

They also urge support for an increase in scholarships and bursaries and for official consultations with student representatives, as to the distribution of student aid. Support of these policies was to be shown in the form of a quiet march to the Provincial

Legislature on the morning of Wednesday, Oct. 27, National Student Day.

Earlier in the same meeting Robbie Shaw, president of Dal's Student Council, reported that the University Senate had turned down council's request that classes be cancelled for the morning of National Student Day. Shaw stated his sympathy with the reasons for the Senate's decision.

He quoted heresay conversations to the effect that a large minority of the Senate supported the request because of the Senate's general desire to co-operate closely with the students. He hinted that the Senate had to be wary of treading on sensitive toes besides the risk it would take if the March got out of control.

Shaw reported that Dr. Read assisted the council's efforts to obtain a parade permit by phoning the Chief of Police, and telling him the march was a "responsible demonstration". Shaw commented that the Police department's eventual granting of the parade permit was "a wise decision."

loss of academic freedom-Hicks tee for education in the Atlantic By CHRIS BROOKES

Aitchison notes key world events

By GEORGE HARTWELL of The Gazette Staff

The key political events of the summer were analyzed by professor James Aitchison this week at the latest of his 'Topical Hour' discussions.

He considered the loss of face of suffered by China in its ef. forts to push "the cold war line." One political faux pas, professor Aitchison said, was China's charge that the break. down in preparations for the second Afro-Asian conference was caused by "imperialist intrigue." Whereas in fact a majority of the original countries seemed willing to include the USSR

The coup against Ben Bella in Algeria, he said, compares with the ouster of former Soviet Premier Kruschev.

He explained that both politicians were replaced with "less flamboyant" leaders bent on "sound economic development".

In the same trend was the acceptance by "radical" Ghana of tary Fund.

Professor Aitchison, commenting on the new Soviet stance towards world revolution, said he is convinced that "Russia does not want another Cuba." And although Russia states its sympathy with wars of national

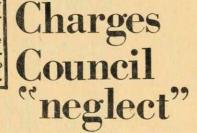

He also said that students

liberation it will not exploit them. In Viet Nam, he said, it appears Russia wants "neither a victory for Peking nor the humiliation of Hanoi" but would prefer a negotiated settlement.

Professor Aitchison recalled that in July, at Russia's request at Geneva. Russia, Britian and the United States showed urgency in attempts to negotiate a treaty halting the prolification of nuclear weapons.

India and Sweden were also stiffening on their demands that the nuclear powers accept a freeze in nuclear armament construction and some limited dis-

armament measures. Professor Aitchison said "Russia and the United States both trust that neither will start a nuclear war" and both give high priority to a treaty prethe western International Mone- venting the spread of nuclear weapons.
