MANUFACTURE

PORTABLE SAW MILLS,

That can be taken up and loaded in eight hours, moved any distance, and put in operation again in from one to two days. Practical capacity from six to ten thousand feet per day.

The above Mill is similar to that exhibited by us at the last Provincial Exhibition, in London, Ontario, (see cut on next page,) where it was awarded first prize and diploma. We would also refer to the following parties, who are running the same kind of mill:

S. MANHARD & Co., Brockville; WILLIAM WAY, Wilfred, Ont.; A. FOSTER, Jr, Smith's Falls; JOHN WALSH, Port Daniel, Que.; GEO. NASH, Farmersville, Ont.; CHASE & GRIGGS, Sutton Flatts, Que.; CANFIELD & MURRAY, Kingsville, Ont.; THOS. MOWBRAY, Utterson, Muskoka, Ont.; C. E. PETTES, West Brome, P.Q.; R. & C. E. CURRIE, Richmond, Carleton, Co., N.B.

The Emerson's Patent Inserted Tooth Saw!

is fast superseding the old style of solid saw, and the testimony of all who use them is, that they would not return to solid saws again, even if one was presented to them. We have sold fifty to sixty of the American Saw Company's INSERTED TOOTH SAWS! and they have in every instance given perfect satisfaction.

For ILLUSTRATED PAMPHLET, containing Certificates, Price List, and full information for hanging and running Circular Saws, address

C. H. WATEROUS & CO.,
BRANTFORD, ONT.
