

# The Estey Organ

**E**STEY Organs are carefully made by skilled workmen in the largest and best-equipped organ factory in the world. The very best materials procurable are used, and no expense is spared to maintain and increase the prestige and reputation of sixty years as

## THE LEADING ORGAN OF THE WORLD

The Estey Chapel Organ, with philharmonic reeds, possesses a tone that for purity and carrying quality is not approached by any other organ. This superiority is very marked, and the difference is in the Estey reed as compared with all others. The reeds in all Estey organs are made in the Estey factory by carefully guarded processes which have taken the best efforts of three generations of Esteys to develop, and which in result are the envy of other organ makers.

There are many other points of superiority in the Estey organ that every intending buyer should investigate.
