Berkshire pigs.

Our SHORTHORN herd was founded over 30 years ago, and contains such tribes as the Village Buds, Matchless, Missies, Mildreds, Stamfords and English Lady, upon which we have employed such bulls as Barnympton Hero 324, Young Abbotshurn 6236, Challenge 2333, Perfection 9100, Lord Lansdowne (imp.) 2712, Clan Stuart 14381, Canada 18536, Stittton Chief 17000, Royal Sailor (imp.) 18959, Royal George 28513, Clipper King 16293 and Judge 23419, all of which have been first-prize winners wherever shown. Royal Victor 34681 and Royal Wonder 34682, by Royal Sailor (imp.), and out of English Lady and Mildred dams, now head the herd, assisted by Roan Cloud 31317, by Lord Gloster 26995, and out of Melody 21992, a descendant of the Buckingham family. We are now offering young bulls, cows and heifers for sale, of Scotch type.

Farm 2 miles from Elora Station, G. T. R. and C. P. R., 15 miles north of Guelph.

Queenston Cement.

The demand for our cement in 1900 justified us in adding largely to the capacity of our cement works. The indications are that this year's business will be still greater. We start the new century with an equipment which for the manufacture of natural rock cement is not excelled in America.

We shall be glad to assist you in making plans for new farm buildings or for remodelling old ones. Our experience should be of value to you. It will pay you to investigate our system of ventilation.

Write us for prices or for estimate of cost of any kind of concrete work.

GOSSIP.

Mr. James Bowman, Guelph, who advertises seed grain in this issue, writes:—"The Mandeschuri barley has stood highest for a number of years in the experiments. Siberian oats also are too well known to need a recommend. Danboon oats are the earliest variety grown for any length of time in O. A. C. experiments, and ripen as early as barley, making a very satisfactory kind to sow with barley for feed. The grass peas are a good variety to grow where the bug is prevalent, as they are entirely bugproof, and grow fine quality of straw for sheep feed."

LINCOLNS SELL WELL IN ARGENTINE.

At the Palermo Show, recently held in the Argentine, twenty-five rams from the well-known Laughton flock of Lincoln Longwools, bred by Mr. J. E. Casswell, Folkingham, Lincolnshire, sold for £1,344, giving an average of £54 each. Fourteen of the best averaged £63 each (\$315). This is a good indication of the appreciation in South America of this famous and old-established flock of Lincolns.

THE SUNDERLAND SHORTHORN SALE.

Owing to heavy snow-storms and drifted roads, the attendance at the joint sale of Shorthorns advertised by Messrs. Shier, Gordon and Dawson, of Sunderland, Ont., Feb. 14th, was not as successful as expected, and some good bargains were secured by those who faced the storm and got there. Twelve females of Mr. Shier's made an average of \$115 each, which, though apparently a good price, was considered less than their value, as Mr. Shier expected there an average \$200. The others sold for lower prices, the females selling better than the bulls.

A FRAUDULENT STOCK BUYER.

Information has been received at this office that a slick young man has recently been operating in the neighborhood of Guelph, under the name of Major Bird of California, contracting for carloads of breeding sheep, making all arrangements for having them shipped when he sends a draft in payment, which is to be forwarded from Chicago together with a man to take charge of the stock, etc., but from the fact that he forgets to pay his hotel bills, and that some articles of clothing have been missed at farmhouses where he has staid, it is evident that he is a barefaced fraud, and stockmen will do well to look out for this "bird," who may appear in different plumage and under another name, which seems likely to be his way of getting a living. He is described as about 5 ft. 5 inches high, weight about 130 lbs., very sleek black hair, heavy tawny moustache, full gray eyes, wore a brown frieze ulster, checked cap with ear flaps, a black suit, and con-skin driving mitts—the latter appropriated from a farmhouse near Guelph.

CLYDESDALE WINNERS AT THE GLASGOW STALLION SHOW.

The following were leading winners in the Clyde class at the Glasgow Spring Show, Feb. 6th: In the aged stallion section for the Society's premium of £80, to serve in Glasgow district (22 competitors), Mr. John Crawford's (Casabianca 10523) rising 3 years, a son of Baron's Pride (9122) and Garthland Queen (13413). In the 3-year-old section 31 competed, and the 1st and 2nd prizes went to two sons of Hiawatha (10069), namely, Marcellus (11110), a bay, bred and owned by Matthew Marshall, Bridgebank, Stranraer, and Labori (10791), a bay, owned by A. B. Matthews, Newton-Stewart. The 3rd prize went to Mr. Dunlop's Sylvander, by Montrave Mac. In 2-year-olds 1st went to Lord Dundonald (10904), owned by Jas. Kilpatrick, Craigie Mains, Kilmarnock, and sired by Royal Carrick (10270). Second went to Alexander Everard, owned by Mr. St. Clair Cunningham, Dunbar, sired by Sir Everard, and his dam by Prince Alexander. Baronson was 3rd. He is a son of Baron's Pride, and of a Prince Alexander mare, and is owned by Mr. David Mitchell, Millfield. The Cawdor cup championship was won by Hiawatha, who had previously won the same in 1898 and 1899. He is a bay, rising 9 years, and is owned by John Pollock, Langside. His strongest competitor was his 3-year-old son, Marcellus, winner of 1st in the 3-year-old section. Hiawatha and his two sons were the only horses that entered the ring in this contest. See our Scottish Letter in this issue for particulars.

OFFICIAL RECORDS OF HOLSTEIN-FRIESIAN COWS RECEIVED DURING JANUARY, 1901.

This class of records are made under the supervision of experiment stations by the scales and the Babcock test. All are for periods of one week. The equivalents of butter are calculated by the Superintendent of Advanced Registry. Twenty were received during this month, two of which may be regarded as phenomenal, that of Aaltje Posch 4th, a cow nearly eleven years old, producing 19,091 lbs. butter-fat, equivalent to 23 lbs. 13.8 ozs. butter 80 per cent. fat or 22 lbs. 4.4 ozs. 85.7 per cent. fat, and that of Alta Posch, a heifer 1 year 11 months old, at 12,970 lbs. butter-fat, equivalent to 16 lbs. 3.4 ozs. butter 80 per cent. fat or 15 lbs. 2.1 ozs. 85.7 per cent. fat.

Summarized:—Four full-age cows, average 8 years 8 months 29 days, 27 days after calving: Milk 399.5 lbs., butter-fat 14,962 lbs., equivalent butter 80 per cent. fat 18 lbs. 11.2 ozs., equivalent 85.7 per cent. fat 17 lbs. 7.3 ozs. Four four-year-olds, average age 4 years 5 months 4 days, 17 days after calving: Milk 390.7 lbs., butter-fat 14,248 lbs., equivalent butter 80 per cent. fat 17 lbs. 13 ozs., equivalent 85.7 per cent. fat 16 lbs. 10 ozs. Stranger than Fiction

A Remedy Which Has Revolutionized the Treatment of Stomach Troubles.

The remedy is not heralded as a wonderful discovery, nor yet a secret patent medicine, neither is it claimed to cure anything except dyspepsia, indigestion and stomach troubles, with which nine out of ten suffer.

The remedy is in the form of pleasant-tasting tablets or lozenges, containing vegetable and fruit essences, pure aseptic pepsin (government test), golden seal and diastase. The tablets are sold by druggists under the name of Stuart's Dyspepsia Tablets. Many interesting experiments to test the digestive power of Stuart's Tablets show that one grain of the active principle contained in them is sufficient to thoroughly digest 3,000 grains of raw meat, eggs and other wholesome food.

Stuart's Tablets do not act on the bowels like after-dinner pills and cheap cathartics, which simply irritate and inflame the intestines without having any effect whatever in digesting food or curing indigestion.

If the stomach can be rested and assisted in the work of digestion, it will very soon recover its normal vigor, as no organ is so much abused and overworked as the stomach.

This is the secret, if there is any secret, of the remarkable success of Stuart's Dyspepsia Tablets, a remedy practically unknown a few years ago, and now the most widely known of any treatment for stomach weakness.

This success has been secured entirely upon its merits as a digestive pure and simple, because there can be no stomach trouble if the food is promptly digested.

Stuart's Dyspepsia Tablets act entirely on the food eaten, digesting it completely, so that it can be assimilated into blood, nerve and tissue. They cure dyspepsia, water brash, sour stomach, gas and bloating after meals, because they furnish the digestive power which weak stomachs lack, and unless that lack is supplied it is useless to attempt to cure by the use of "tonics," "pills" and cathartics which have absolutely no digestive power.

Stuart's Dyspepsia Tablets can be found at all drug stores, and the regular use of one or two of them after meals will demonstrate their merit better than any other argument.—Adv't.
